# URGENT: Cancer dramatically increasing, remission failing and metastasis exploding! This is linked to the roll-out of the COVID gene injection vaccine? Then vaccine MUST be stopped! NONE in children

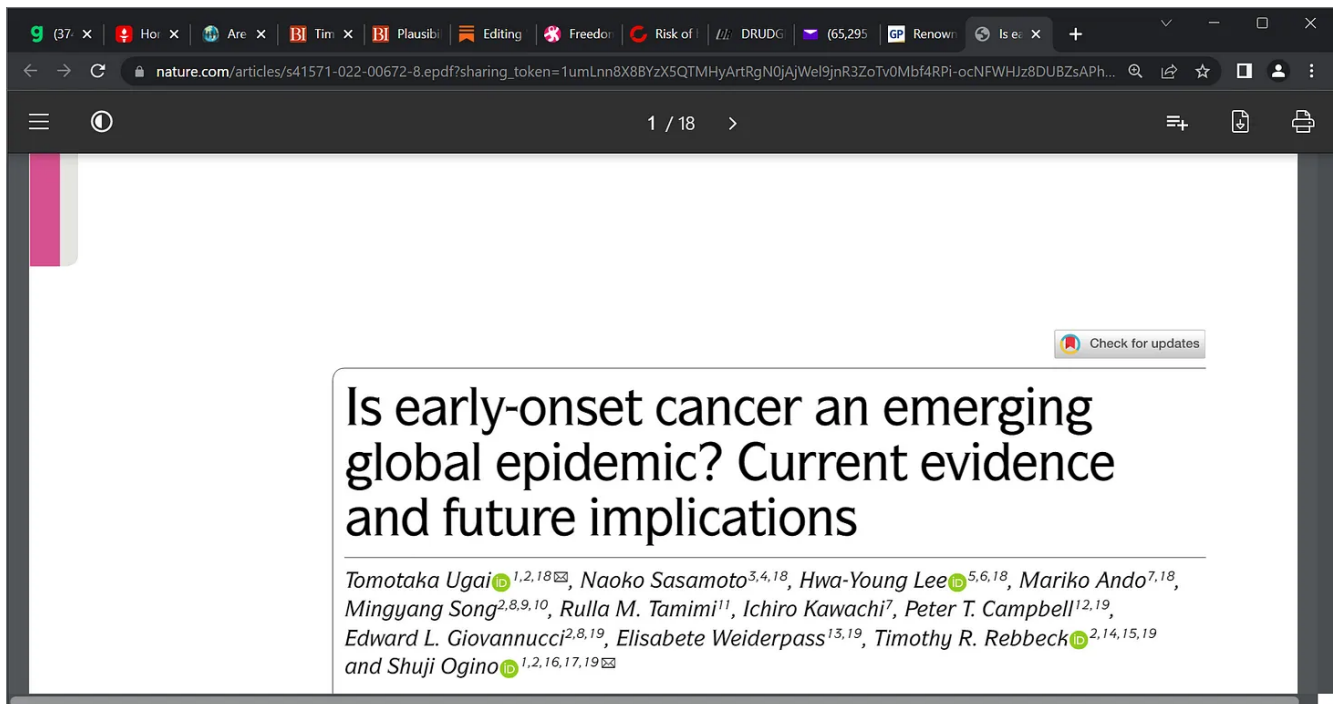

Evidence? Is the rise linked to COVID gene injection vaccine? Seems so, temporally at the very least. Yet folk like Ryan Cole says 100% so! See below, read Dr. Angus George Dalgleish's letter to BMJ

Dr. Paul Alexander   
Dec 4, 2022

1)Is early- onset cancer an emerging global epidemic? Current evidence and future implications

“A study by researchers from Brigham and Women’s Hospital reveals that the incidence of early onset cancers — including breast, colon, esophagus, kidney, liver, and pancreas — has dramatically increased around the world.”

The page header includes navigation links: 'Explore content', 'About the journal', and 'Publish with us'. The breadcrumb trail is: nature > nature reviews clinical oncology > review articles > article. The article is a 'Review Article' published on 06 September 2022. The title is 'Is early-onset cancer an emerging global epidemic? Current evidence and future implications'. The authors listed are Tomotaka Ugai, Naoko Sasamoto, Hwa-Young Lee, Mariko Ando, Mingyang Song, Rulla M. Tamimi, Ichiro Kawachi, Peter T. Campbell, Edward L. Giovannucci, Elisabete Weiderpass, Timothy R. Rebbeck, and Shuji Ogino. The journal information is 'Nature Reviews Clinical Oncology' 19, 656–673 (2022). Metrics shown are 27k Accesses, 2 Citations, and 2555 Altmetric.

A new review of cancer registry records from 44 countries found that the incidence of early-onset cancers is rising rapidly for colorectal and 13 other types of cancers, many of which affect the digestive system, and this increase is happening across many middle- and high-income nations

2) Harvard: Dramatic rise in cancer in people under 50

### 3)As an Oncologist I Am Seeing People With Stable Cancer Rapidly Progress After Being Forced to Have a Booster

see Gateway Pundit:

#### Renowned Oncologist Sends Urgent Letter Calling to End COVID Vaccine Program Immediately as Cancers and other Diseases Are Rapidly Progressing in 'Boosted' People

'Dear Kamran Abbasi,

Covid no longer needs a vaccine programme given the average age of death of Covid in the U.K. is 82 and from all other causes is 81 and falling.

The link with clots, myocarditis, heart attacks and strokes is now well accepted, as is the link with myelitis and neuropathy. (We predicted these side effects in our June 2020 QRBD article Sorensen et al. 2020, as the blast analysis revealed 79% homologies to human epitopes, especially PF4 and myelin.)

However, there is now another reason to halt all vaccine programmes. As a practising oncologist I am seeing people with stable disease rapidly progress after being forced to have a booster, usually so they can travel.

Even within my own personal contacts I am seeing B cell-based disease after the boosters. They describe being distinctly unwell a few days to weeks after the booster – one developing leukaemia, two work colleagues Non-Hodgkin's lymphoma, and an old friend who has felt like he has had Long Covid since receiving his booster and who, after getting severe bone pain, has been diagnosed as having multiple metastases from a rare B cell disorder.

I am experienced enough to know that these are not the coincidental anecdotes that many suggest, especially as the same pattern is being seen in Germany, Australia and the USA.

The reports of innate immune suppression after mRNA for several weeks would fit, as all these patients to date have melanoma or B cell based cancers, which are very

susceptible to immune control – and that is before the reports of suppressor gene suppression by mRNA in laboratory experiments.

This must be aired and debated immediately.’

Dear Readers,

I also embed this short piece on The Wellness Company and The UNITY Project.

First, The Wellness Company.

I am proud to announce a unique partnership with The Wellness Company and everyone who believes in medical freedom. My dear and esteemed colleagues Dr. Peter McCullough and Dr. Harvey Risch are also in partnership with The Wellness Company which provides telemedicine services for long-haul COVID, vaccine injury, and medical exemptions along with supplements and products that are fully aligned with our values. This support for The Wellness Company stems from the sub-optimal medical care and response that we experienced throughout the pandemic. It became apparent that there are many glaring gaps in our healthcare system and people were not properly treated. Thus, the pivot by us to support The Wellness Company. Take a stand against a broken healthcare delivery system with a membership in The Wellness Company, which directly funds our fight against medical tyranny. Click here [The Wellness Company](#) for more information.

I also provide scientific support to The [UNITY](#) Project out of California. I support this tremendous initiative with some fine colleagues who have been warriors in the fight against all the wrongs in COVID. The [UNITY](#) Project aligns with my core values for it is very fierce in its fight to protect children from the danger of the largely safety untested COVID gene injection ([The Unity Project Formed by Concerned Parents to Coordinate Opposition to California's K-12 COVID-19 Vaccination Mandate](#)).
