While the information presented was not brand new, having dozens of reliable scientists present it, inside the European Parliament, as a complete summary of the COVID disaster was very powerful.

Right at the end attorney Renata Holzeisen, physician Katarina Lindley and I had to reduce our talks to 5 minutes each so we could be out of the room on time.

And on a side note, Sir Dr. Jeremy Farrar (007, License to Overdose) is not currently listed as the WHO's Chief Scientist on the WHO website. Do you think the puppet-masters decided that the Poisoner-in-Chief had too much baggage to manage the WHO's attempt at usurping sovereignty over the planet?

So here are the slides for my talk:

What are the W.H.O.'s new IHR Amendments, "One Health" and proposed Treaty?

Meryl Nass, M.D., ABIM
Katarina Lindley, D.O., FACFP

European Parliament, Brussels
May 3, 2023

Our Problem

- Elites are in the process of "resetting" our lives using the **pretexts of pandemics, biodiversity loss, and climate change**. **THINK SOFT COUP**
- Their strategy is the **Bio-Security Agenda**, which the US and allies, Europe and W.H.O. directorate are pushing
- 70 countries have joined the **Global Health Security Agenda** framework; 50 are financially supported by the US. <https://www.cdc.gov/globalhealth/security/what-is-ghsa.htm>
<https://www.whitehouse.gov/briefing-room/statements-releases/2022/11/29/fact-sheet-biden-harris-administration-announces-expansion-of-global-health-security-partnerships-and-releases-annual-progress-report/>
- The same agenda has been enshrined in US law (the 2023 National Defense Authorization Act)
- *The entire scam is justified by claiming deadly pandemics are due to "spillover"*
- **The WHO is amending its International Health Regulations** and developing a **Pandemic Treaty**, **remaking itself as a Bio-Security agency and enforcer**

Emerging Pandemic Diseases: How We Got to COVID-19

Tony Fauci published this on September 3, 2020. It should concern you. <https://www.cell.com/action/showPdf?pii=S0092-8674%2820%2931012-6>

*"The COVID-19 pandemic is yet another reminder, added to the rapidly growing archive of historical reminders, that **in a human-dominated world, in which our human activities represent aggressive, damaging, and unbalanced interactions with nature, we will increasingly provoke new disease emergences.** We remain at risk for the foreseeable future. COVID-19 is among the most vivid wake-up calls in over a century. It should force us to begin to think in earnest and collectively about living in more thoughtful and creative harmony with nature..."*

Perspective

Escaping Pandora's Box — Another Novel Coronavirus

David M. Morens, M.D., Peter Daszak, Ph.D., and Jeffery K. Taubenberger, M.D., Ph.D.

- We must realize that in our crowded world of 7.8 billion people, **a combination of altered human behaviors, environmental changes, and inadequate global public health mechanisms now easily turn obscure animal viruses into existential human threats.** We have created a global, human-dominated ecosystem that serves as a playground for the emergence and host-switching of animal viruses
- We have reached this point because of continuing increases in the human population, crowding, human movement, environmental alteration, and ecosystemic complexity related to human activities and creations.
- Cartoonist Walt Kelly had it right decades ago: **"We have met the enemy, and he is us."**

N Engl J Med 2020; 382:1293-1295. 4/2/2020
<https://www.nejm.org/doi/10.1056/NEJMp2002106>.

And only the BioSecurity agenda will save us?

Who else is pushing this narrative?

- The G20
- the Global Preparedness Monitoring Board,
- the World Bank,
- the World Health Organization
- The Food and Agriculture Organization
- The World Organization for Animal Health
- the UN Environmental Program
- the UN Commission on Biodiversity
- World Economic Forum

The **WHO** is being used for this soft coup via a **Pandemic Treaty** and **amendments to its International Health Regulations**; some amendments might be voted on by WHA this month

- **Removes human rights protections from current IHRs:** "The implementation of these Regulations shall be *with full respect for the dignity, human rights and fundamental freedoms of persons*"
- **Enforces Surveillance** (both genetic and electronic, to stop the spread of misinformation) <https://cepi.net/about/whoweare/>
- **Requires censorship** to enforce only a single public health message
- **Thereby ignores freedoms of speech and opinion** enshrined in the UN's ICCPR treaty
- **Dramatically reduces regulation and testing for vaccines and drugs.** (CEPI's plan is to develop vaccines in 100 days. The EMA, FDA, WHO, Unicef and World Bank are CEPI partners) <https://cepi.net/about/whoweare/> **Jeremy Farrar of CEPI/WHO/GPMB**
- Good Mercola article on this on April 30, 2023

Making pandemic vaccines in 100 Days #100DaysMission

CEPI

Get involved

Research & development

COVAX

...Continued

- **Binds States, no longer advisory—Requires only a Declaration**
- **Provides a Liability Shield** for drugs/vaccines; removes intellectual property protection
- **WHO can commandeer supplies** for use by other States
- **Directives can be imposed** *before, during and after* a PHEIC
- **Vaccine Passport—Digital ID** will likely be required
- **PHEICS may be declared without agreement of the concerned State**
- **WHO's unelected officials could dictate quarantines, testing and vaccination requirements, lockdowns, border closures, etc.**
- **WHO officials can specify what drugs you may or may not use**
- **WHO officials would not be accountable** for their decisions.
- **WHO budget would massively increase**

Pandemic Preparedness is a Myth

- The last 2 pandemics declared by the WHO, SARS-2 and Monkeypox, were both for viruses probably made in labs.
- In the US, \$7 Billion/yr for the biodefense industry resulted in NO useful products when the pandemic hit--*only the biodefense industry benefitted from biodefense spending*
- Yet the **W.H.O.**, a **House Democrat Report** of 12/22, the **G20** and the **Global Preparedness Monitoring Board** all demand **more surveillance, more \$ and One Health**

My article on PP: <https://merylnass.substack.com/p/the-myth-of-pandemic-preparedness-8e1>

Dr. David Bell's article on PP: <https://brownstone.org/articles/a-primer-on-the-who-the-treaty-and-its-plans-for-pandemic-preparedness/>. PANDA's: <https://www.pandata.org/who-paradox/>

The IHRs were amended last year to speed up the implementation of proposed amendments

- The amendment to Article 59 will **shorten** the period of time until future amendments will enter into force **from 24 to 12 months**.
- It will also **shorten** the period of time during which nations can reject future amendments **from 18 to 10 months**.
- There are still 7 months left of the current 18 month period during which **States can opt out** of the above amendment—
- Please **consider opting out of the 2022 Amendments** to slow this agenda down --BUY US MORE TIME--countries would still remain a party to the 2005 IHRs—and opt-outs will throw a wrench in their gears

'ONE HEALTH' is a scam to enable the WHO to declare jurisdiction over the entire planet

<https://www.who.int/news-room/questions-and-answers/item/one-health>

- **The WHO expert definition:** *"an integrated unifying approach that aims to sustainably balance and optimize the health of people, animals, and ecosystems."*
- WHO formed a One Health Initiative to **integrate work on human, animal and environmental health across the Organization**. One Health is **enshrined in US law**
- "Critical areas include **food production** and distribution, **urbanization** and infrastructure development, international **travel** and **trade**, activities that lead to **biodiversity loss** and **climate change**, and those that put **increased pressure on the natural resource base** – *all of which can lead to the emergence of zoonotic diseases.*" – WHO through One Health asserts jurisdiction over the entire planet.
- One Health: *"all life is equal, and of equal concern..."* *"We are as concerned about the welfare of non-human animals and the environment as we are about humans"*
The Lancet 1/21/23. <https://www.thelancet.com/action/showPdf?pii=S0140-6736%2823%2900090-9>
