FORMER VODAFONE BOSS BLOWS WHISTLE ON 5G CORONAVIRUS CONNECTION

www.rumble.com

I was the head of the largest business unit at Vodafone their headquarters in Newbury between twenty forty 2013 through 2015 I was Privy to a number of the new technologies that were coming down the pipe that was going to be implemented namely the Internet of Things and secondly the 5G technology I knew a long time ago that 5G was dangerous but I didn't understand the correlation with the coronavirus which I now do and I want to be able to explain that to you So what is happening there is a deliberate strategy to roll out 5G which is the 5th generation Internet radio spectrum frequencies that enable mobile phone smartphones and all devices to function on a much faster processing ability and with the introduction of AI insert intelligence and the Internet of Things where all devices will be connected to whether it's your car whether it's your phone whether it's your frigid refrigerator whether show electricity in your house it's all going to be on a smart grid effectively a type of matrix unfortunately sorry to use that term So what is happening is that this technology has to be rolled out globally my company that I used to work for in there as they're running their largest worldwide business unit is Vodafone Vodafone are in partnership with Huawei or highway whatever you call them a Chinese telecoms company and they have been rolling out systematic 5G implementation in multiple locations what's the relevance the frequency that they're using and I also ran a telecoms company back in 2010 through to 2013 fourteen summer you will be aware the specialized in radio spectrum that we this is ability to take external signals from satellites into buildings so that the frequency that you experience in power on your phone is the same in the building as it is outside of the building when mobile networks were created initially they thought people would be on the road all the time hence why they were called mobile phones but actually what happened is people used their mobile phones in buildings and the signal wasn't strong enough dependent turn penetrate buildings that's called radio spectrum and they're different megahertz frequencies etc so the 5G frequency is a very high frequency very very very high frequency it is just below the classification of a weapon and I'll tell you why the frequency that they're using which is 10 times faster than 4G unfortunately when it comes into connection with human bodies causes cell poisoning cell poisoning so our bodies try to fight the radiation that is in the form of cell poisoning because of this frequency it is effectively radiation and what happens is our bodies kick out the toxicity or toxins with some proteins and some DNA RNA from ourselves in the form of a chemical which is called a virus and most diseases are excretions from cells that we are trying to pull out of our body or push out of our body and it will head towards orifices to be exploited or expunge out of our body style noses or our mouth so you can understand the picture I'm painting so what's happening sorry for the detail but this is gonna take a bit of time what is happening is that 5G the frequency and the power which is 10 times more powerful than 4G is reacting adversely with human cells causing cells in our bodies to be poisoned toxic and our natural defense mechanism is pushing out that toxicity in the form of a virus So what you're seeing is not coronavirus per say you're seeing cell poisoning manifesting with fluids chemicals viruses that the body is trying to dispose of because it's harmful to its physical body so all that's occurring around the world and I hear your mind thinking well how could that be pastor but I'll explain at the moment all this week and all that's occurring in the world is a reaction to human bodies to the electrification of the universe through 5G satellites 5G towers 5G cells that are being populated in major cities around the world so this is what is causing this pandemic so sorry to say second point this is the largest global cover up in history for the impact on human beings based on technological advancements I hope that makes sense I didn't have time to quantify that I will give you

further information in a moment So what is happening it's not the coronavirus it is a virus that is being produced by cell poisoning and therefore the virus that we have is really a measure or indication of ourselves excreting toxins this is what's killing people so let me give you some facts that will hopefully make this compelling so one of the first cities that Vodafone highway and some of the other technology companies rolled out the ubiquitous blanket 5G guess where it was Wuhan China where this corona virus was supposedly meant to start in some fish market that is complete nonsense it is it started as a result of radio active or radio radio frequencies at a high level creating radiation that was toxic to cells and that's why people were falling over dying in the streets etc so they've tried to cover it up so because it has a flu type characteristics they are using coronavirus to try and hide the fact that people are dying from the 5G frequency so let me just explain other major cities that rolled this out it takes six months for this to impact your physical body so last year obviously Wuhan was the first city then Spain rolled out 5G Italy rolled out five G so you're seeing an uncommon level of fatalities because of the level of 5G penetration in these countries Italy has had more fatalities than any other country because it is densely populated with 5G and the older generation doesn't have the immune system to fight against it let me move on because of time so Italy has rolled out Spain has rolled it out most major cities have rolled it out around the world in countries London is one of the biggest CCTV centers and obviously they're in the process of rolling out more 5G what is the relevance of all of this the relevance is the coronavirus is not what's killing people it is clearly categorically unequivocally and scientifically proven that the radio frequencies that we are being exposed to is what is killing the people why are they allowing it because of multiple agendas but primarily because 5G is the only network with the speed to handle the future and where we're going rapidly is my world run by a I ask ask fishel intelligence the Internet of Things where everything is interconnected on the winter net a new global currency that's coming out hence why I've been pushing what I've been pushing for the last five years in Africa with our own digital currency to combat what was coming in addition to that there will be driverless cars there'll be a number of different things that basically need to run on 5G so they cannot reverse the implementation of these this technology and and they're happy for it to two to the sacrifice to be millions of lives around the world just to prove the point further the cruise ships were installed with 5G so the people that were quarantined on the cruise ships they were two shifts that had five G and that's why the people were getting sick hospitals have 5G major cities have 5G airports have 5G so these are places where people will automatically get sick if they're exposed to the inordinate levels of radiation through radio spectrum poisoning OK so let me move on we've had three pandemics in the last 120 years the first pandemic was in 1918 which was called the Spanish flu pandemic this was when they implemented radio waves globally and increased the electrification of our universe guess what happens millions of people died six months later with a pandemic they called the Spanish flu pandemic role on a number of years World War Two just after that another pandemic which was the implementation of radar equipment globally satellites went up and myriad of pleasure of different satellites went up into the the what they call is the and Allen belt basically where they stole send satellites so when that was implemented again there was a number of deaths from the pandemic the last major pandemic was in 1968 which was called the Hong Kong flu guess what they did then they rolled out another level of satellite penetration in the Van Halen belt over 100,000 satellites that would transmitting radar signals radar field in the cosmic field basically so these were satellites that were pushing telecommunication and radar communication so we had radio waves first at the beginning of the century and then they implemented radar equipment and telecommunication satellites these calls pandemics that killed multiple millions of people in the last one was in 1968 so guess what's happening now they've rolled out 5G and this is impacting people's lives

killing people around the world and they're covering it up in the name of ranavirus so that is a fact there you go and do your study study 5G implications implement of the implementation just to help you further one of the countries which is a huge country that has millions of people huge country with cold weather Russia has had no fatalities in the area of coronavirus why because they have not implemented 5G on a public use yet they've only implemented it for exclusive use by the military hence why they've had no fatalities just to prove the point further you're seeing in the news now that people without underlying health issues or compromised immune systems are falling sick and dying of corona that makes no sense that the young are dying the reason they are dying the facts are the truth is that the radiation is does not compromise has no prejudice young or old you'll succumb to the power of radiation OK so this is the fact of what's really occurring this is part of their strategy because of reports of 5G and this is a global phenomenon that cannot be reversed first point so please understand I've lot more information I could give you 17 minutes thus far I wish I could give you more just on that but trust me do seem research there's some scholarly articles out there on the impact of of there's like the Boston health group that in in investigated contagions and they basically said that the one of the viruses in Spanish flu one and even this one is not a contagion what they're doing is spreading it to people via the testing sorry to be honest but that's what's happening so when you're tested it gives them the opportunity to contaminate you with the virus because they want to cover up the fact that millions of people will die from the excessive radio frequency frequency radiation so basically that's what's occurring unfortunately so where is this going why are they doing this we know the technological reasons for it they need a robust scalable fast capable Internet that can handle the petitive information about all of your movements all of your journey is all of your banking transactions your identification all the CCTV cameras around the world etc etc because they need visibility on what everyone's doing but the primary reason beyond that what they're doing which is Luciferi concert annex sorry to be honest to use that term but what is happening is that they are implementing 3 new strategies one vaccines said the vaccines have in it toxins and one of the things about vaccines they give you the actual disease to see how the body's immune system will fight and combat the the disease so they give you the disease but in that vaccine will consist of chemicals that light you up effectively to respond even more powerfully to the signals so a bit like chemotherapy or radiotherapy but what they inject in your system and labels the cells to be destroyed that vaccine will consist of a substance that will enable the frequency of 5G to be more effective in creating more fatality So what you're seeing around the world is that they're buying time to build capacity for the hospitals for the warehouses and all the places they're going to convert into huge mortuaries effectively sorry to be honest with you to house the millions of people that are going to die from what is happening so God has a plan there is a plan so which is quickly throw that up now in case people starting to worry daughters not given us a spirit of fear part of love and of a sound mind no weapon formed against us can prosper so please know that this is a weapon that has been formed but it shall not prosper against God's people and I'll tell you why in a moment so these are some of the things now you may or may not be aware that we are electromagnetic beings I know that sounds a bit weird I'm it's not new AG I've studied it scientifically we have electric circuits on nervous system is really a complex network of of of wiring that our masterful creator created us to have so brain signals sign up signals information that travels up and down the body that tells you to move to sneeze to whatever to fight disease this is created by electrical circuitry that's in our body the electrical circuitry then creates chemistry or chemicals different types of chemicals that we react to when we eat and when we do different things subject to us being exposed to light and different things and and so we and we are predominantly water and then there's obviously the physical mass of the body that houses

everything but ultimately we are an electric circuit so we react to frequencies we respond to vibrations we respond to energy so electromagnetic energy I haven't got time to deal with it but basic includes gamma rays X rays hence why when they do X rays they have to stand behind certain screens there is infrared there is all sorts of different kinds of electromagnetic energy that is divisible one of the other visible is light ultraviolet light invisible light so that's one part of energy the other part is charged particles and I won't get into that but that's protons and also electrons and all sorts of different things that run about our universe sorry universe and we are given the capacity by God she better cope with these natural forces of energy running around the various solar system and into the van der Waals Belton around the world what's the relevance so frequencies affect our sense of well being and one of the things I'll tell you in another conversation after this is how can we combat because all of us emit frequencies our heart RRI did a teaching on this about the electromagnetic power of our heart and mind that we do admit frequencies we we we we we don't use those terms in Bible terms but might power a anointing fire of God's spirit all of these things can be scientifically proven as electrification of our beings either we generate it or atmospheres affect us that's when we get together and have corporate worship and prayer there's a level of spiritual energy we call that the Holy Ghost but it's a it's a physical energy that can be felt many things I could talk about turn that because your time I come off I can't reveal too much OK so there is a solution that will help us to survive and to protect us and I'm developing those theories further and I will share them later on so let me explain the game plan so the game plan of of this new order unfortunately it is the era of the new world order it has commenced and This is why the last five years I was pushing my economic model was presidents throughout Africa to give them an alternative digital currency and economic model that could sustain them independent of the World Bank independent of this new world order controlled by to 1% of the 1% elites now what are they doing so you'll see already in the news today there is announcement of the vaccines that will come so there were three developments vaccines which will come which will obviously have catastrophic impact on our physical being exposed to the radiation secondly the vaccines will come with a tracking device called an RFI chip it is a microchip that will be inserted at the same time as the vaccines they're not even being you know subtle about it they're being quite diverse overt about it this will give them the ability to track it will be presented in the name of we need to know who has had vaccines who hasn't had vaccines so we can know who's safe who's not safe and who can be given license to travel and do different things on the basis that they no longer a threat to humanity based on this this spurious stencil notion of of of the coronavirus which is complete fallacy there's it doesn't exist in the context of what's killing us OK so they're just using it as a means to justify where they're going the third area unfortunately is the introduction and I saw this five years ago hence why I've been working when I was working on on the implementation of digital currency a global digital currency it will start with the US and it will roll out around the world and This is why as I said I developed my own blockchain platform with our own digital currency peg to minerals in the ground so Africa could have its own independence and a currency juxtaposition to other currencies that would be strong and trade in capital and financial markets that's what your passes been working on behind the scenes whilst preaching administering this is what we've been doing for the Kingdom POV but let me say this is hailed a new era of the mark of the beast it is here it is real it is now they are expediting rapidly because they realize that there's a level of esoteric enlightenment going through the earth there's a level of technology that can fast track other people's agenda which would be contrary to theirs and they want to shut it down So what are they doing systematically systemically and simultaneously they are shutting global economies down because they want to introduce two things a new level of monopoly or oligopoly's Things are four or five key

multinational companies Amazon will be the first there Google is obviously one there will be others that will manage the supply chain of everything that we purchase so everything is going to be streamlined from food to electronics to the flow of money and everything so the second thing they're doing with this system is other than creating these oligopoly so they shut the global markets down for that they want to make as many people as possible unemployed said please do not believe these measures they're talking about about stipends and it basically grants or payments to help our self employed or people have been made redundant it's not gonna happen to any degree that's gonna affect the livelihood of people this is we're heading for the largest global recession the world has ever seen because they are changing the game So what they're bringing in now is and I'm conscience is 26 minutes but it's important information we must understand they are bringing in the new system the new blockchain global digital currency which we will not have access to unless we can prove that we are no longer harm to humanity by having the vaccines which will be mandatory they will force them on us and secondly they will insist that we have to take the chip that is a part of that same simultaneous process why are they shutting global economies down because they want to take control back from entrepreneurs can shake control back from family offices family businesses they want to completely disrupt the fabric of society as we know it education employment everything will be completely different in the matter of months not even years so this is their strategy to ultimately control in terms of visibility through technology such as 5G and the Internet and all that that gives them access to in terms of Internet things and the control of money if you control money you control the power and say that is their agenda and obviously they want to control the population Bill Gates God bless him has resigned from his position as chairman of building the sorry the Microsoft and as the chairman of Bill and Melinda Gates Foundation he is now pushing the vaccine agenda he has developed technology he's responsible for a lot of this so please those who've held him as a innovator he's innovating for the demise of humanity vaccines have always been a danger to humanity and they contain pathogens I think it's called harmful to to our human body anyway so that's what the holistic high level summary there's a lot of information that I've summarized just to give you the the highlights of what's occurring So what does the body of Christ do now what do we do well firstly the body of Christ is changing is the changing of the guard this is now the time of the Kingdom remnant to come to the fore who've been prepared for such a time as this this is the time that people who were not fitting into churchy normal restrictions who've got thoughts and simonson mandates beyond the church this is the time that God is going to reposition them basically we're up next it's our time now it's a defining moment for the Kingdom to rectify some of the things that are going wrong so that is one thing you'll see around the world there'll be a collaboration of Kingdom people who will come together combine resources collaborate to effect change and create an alternative system I've been working on this for five years and there are number of people around the world who are doing the same secondly you will see a change of church and that one of the reasons why I missed the last point I'll make that there's been a ubiquitous shutdown of worship and prayer and congregating of religious organisations is because they are making way spiritually for the presentation of the Antichrist we create and this is a revelation that I want to come back and teach you more on when we pray when we worship corporately we create a frequency we create vibrations we create a move of God we call it the fire God we call it the the power of God we call it the spirit of God affectively what it is is that we as spirit filled clean living beings are are generators of spiritual energy spiritual power might be used terms that will not scare you power anointing these are electrical magnetic frequencies that that mean age from us when we listen to worship and pray it literally heals our body so when we're in the presence of God This is why we have healing as a byproduct because what we're exposed to physically heals ourselves that's

why he says I am the Lord thy God that healeth his presence alone heals people get healed in worship services prophecies and other communication frequencies and information flows greater when we are corporately worshipping when we are praying corporately and so they have deliberately shut all of that down and our network spiritually for wanted the better term so they can pay the way from the Antichrist to come to the floor otherwise he would have been restricted withheld by them universal concept of prayers and worship of God's people and so this is what's happening it's deliberate it's not the coronavirus that is contagion so contagious or a contagion that we can't congregate it's because they systematically have dismantled for the first time in human history the corporate gathering of religious people to pray and worship because it changes the spiritual atmosphere so they can have more power I wouldn't doubt if their sacrifices and different things that are going on behind the scenes as well to empower what this move is and trust me they're moving at lightning speed within a matter of weeks we're gonna be shocked by the revelation and the implementation of the things that they will be doing the vaccines will be a matter of months away if not days the new currency will be a matter of days away months away the whole new economic system which I have created one that I'm going to implement regardless as a strategy to counter what is happening I've been prophesying this for 15 years that the the Kingdom of God needs its own economic system whilst you're having happy clappy church and feeling good some of us have been strategizing on the blueprint of God to advance his Kingdom to save much souls alive and to preserve our posterity anyway because of time let me conclude here best thing we can do right now is to raise our frequency live clean live righteously and remove and detox our bodies from anything that would affect the flow of God's anointing on our lives the only counter we have is prayer and worship it creates its own force field of energy and force field of frequency heavens frequency will protect you to some degree whilst God is working on the strategy that he's going to implement I pray this has helped somebody share this with somebody forward this that the world can understand this is happening that we can come together strategize as a Kingdom remnant because God said that he doesn't get involved with the affairs of man because he gave dominion to man in genesis chapter one that's why so many heinous and terrible things happen in our world because God is not running the world he works and influences the good men evil prevails when good men saying nothing as they've said So what God is trying his best to do is influence people who will live right live clean pure hands clean heart not lifting up their soul onto vanity nor swearing to seek fully with lies not manipulating people to gain true people of God that he can speak through work through so he can have an impact on the earth but what he has said for my time and prayers that this now has forced his hand that he is going to move as God he has to intervene as God and I think as we ubiquitously globally raise up our prayers and our are fasting which helps our electromagnetic flow by the way intermittent fasting strengthens our immune system which strengthens our electromagnetic flow electrolytes like slime and different things that we use which we thought were spiritual actually are scientific they improved the strength of our body they strengthen us so olive oil and different things have components that have electrolyte elements in it that strengthen our physical body fasting does that helps our immune system immensely so we can fight against the corona fight against these radiation of the frequency but more importantly create a heavenly sound that will combat what the enemies up to for now until God implements God bless you we love you this is a whole new era this is the new thing God has been talking about but thank God this Kingdom he will give to none other this will be hewed out the mountain without hands it will drive away all the other dispensational kingdoms like chaff in the wind so this is our time for us to embrace what God is doing and to be if every time we need to be fervent in spirit serving the Lord it is now so I encourage you I enjoy you I I really plead with you let's be unified let's be

righteous let's spend time in prayer and we need to use this time lastly too to reset we need to use this time to reset our priorities reset our routine reset our reinvestment in ourselves ready ourselves for what is coming reinvent ourselves if we have to in line with God's purpose and raising debt for our life we have to reach out to other people we need to share this information that the unbelievers will now believe what we've been saying about revelations 13 for hundreds of years 200 years to be precise it's the Bible was translated we need to re establish righteousness and our relational connection with God like never before and reinvest in knowledge do not waste time on entertainment spend time reading studying pertinent information the word of God really started to show ourselves approved at this time the work that need not to be ashamed rightly dividing the word of truth God bless you I know this is incredibly long but with all due respect this information is too important to just give you a 32nd overview pray about it submit it to your profits submit it to your your leaders submit it to whoever but this is the reality of what is happening but I promise you God is gonna raise up a remnant with their own Kingdom currency with their own Kingdom economy with their own banking systems with their own information highway with a new type of church that the world has not seen and I've been prophesying this for years but I've been working behind the scenes also with a few other like minded nobility members to affect this change that we knew was coming God bless you I pray this doesn't scare you God's not giving you a spirit of fear but of power and love another sound mind this is our time that we stand still and see the salvation of our Lord and we trust in our God lean order own understanding in all our ways acknowledging for he's directing our path like you wouldn't believe this is the time we need to know that he is a strong tower and the righteous runners on to him and I'll saved from radiation and frequencies that have been diversity affecting our bodies we need to know that he is with us OK so stay strong stay anointed share this information and I'll be back to you with more detail.
