15. One last thing to think about, it's important to consider the energy of your home. It may be described as energetic, bright and happy or some homes can feel dark, unhappy or just impersonal. Excessive negative feelings can influence your weims attitude, actions, and disposition, which is why it is important to evaluate your home carefully when answering the following questions: This is a self evaluation, no explanations are needed to me.

**How would your friends describe what they feel when they walk into your home? Even more importantly, how would your family describe what they feel in their own home?**

We must be wise and take responsibility for the atmosphere our family lives in.. **For all of us, it is a work in progress**, but we must begin by asking ourselves, "How can we elevate the various aspects of the atmosphere of our homes?" So, now that I have brought up the ugly, and you know that weims have a tendency of mimicking their environment, you have evaluated your family's environment and it will not be overly stressful for your weim, Are you ready to move forward?
