.....

Specializing in complex business litigation and transactions, Pinta Law Group represents owners of small and medium sized companies, often negotiating every aspect of buying or selling a business and commercial real estate, ranging from \$2 million to \$8 million.

With 40 years of trial experience, Attorney Brad Pinta has a well-earned reputation for knowing how to quickly and effectively assess the most critical issues involved in intricate legal matters. As a result of his successful track record, he is often solicited by clients with the opening comment, and now-registered service mark, “Let me run this by you,” as they seek direction for a particular legal situation.

Attorney Marian McGrath’s strength lies in her unmatched skill in uncovering rules of law not commonly found. This trademark ability, paired with an equally proficient skill at finding obscure case law, complements the Pinta Law Group’s team of litigation professionals.
