

Do not use baby wipes. Most baby wipes contain alcohol and will irritate your child's face.

Glitter removal

Gently wash child's face with warm water and soap and rinse. If glitter still remains repeat same step till child's face is glitter free.

Glue and gem removal

Remove the gem. Save it for another day or throw it away your choice.

Latex glue: Rub oil on the area with the glue. Gently buff the area. Wipe off with warm water. Repeat if still sticky. Once all glue is removed gently wash child's face with warm soapy water and rinse.

Water-based glue: Wash glue area with soap gently scrub area. Rinse with water. Repeat steps again if needed.
