

Glitter tattoos can last 3 to 5 days if you take good care of them.

Do not pick at them. Picking at them will cause the tattoo come off.

Frequent touching or rubbing may cause your tattoo to last less.

When taking a bath gentle pat the area while cleaning and drying.

Non latex glue should come off easy with with warm soap water with a very gentle buff.

Latex glue will take more of an effort. You will need to use warm soap water and a good buff. Rinse with warm water. If remnants remains use oil or vegetable oil and massage area of tattoo remains and rinse with warm soap water. Repeat steps in necessaries.
