

AIRBRUSH TATTOOS CARE AND INSTRUCTIONS

Airbrush tattoo care

Congratulations on your Airbrush tattoo. Below are few care instructions on how to keep your airbrush tattoo longer and, how to remove.

- 1. Do not scrub itch or pick at airbrush tattoo area.**
- 2. Do not put lotion or oil on airbrush tattoo. It will remove it**
- 3. Swimming will cause fading of tattoo quicker or remove it especially pools with chlorine.**
- 4. Tattoo will last from 2 to 7 days for ink which is water proof and 1 day for hybrid paint not waterproof.**
- 5. (For Ink paint) When bathing gently wash area with soap with hand and pat dry. When swimming pat are dry when drying off**
- 6. To get off ink airbrush tattoo lotion oil alcohol will get it off along with scrubbing real good with soap and water.(may need to wash several times)**
- 7. To get off Hybrid paint simply wash with soap and water.**
