

Knights of Columbus Council 9638 Lecture June 14, 2021
“The Gift of Life”
Ed Niehenke, Lecturer

When I awoke from sleep, I said to God, thanks for another day and the gift of life. While watching a movie on Netflix which was about the story about two people, one middle age and the other a young adult.. The middle age man was having problems with his lung and got so bad he was on the list to receive another lung. The young adult just got his drivers license and noted that if he died, he would donate his parts to someone else that needed it.

Well the young adult fell down and went into a coma and died. His eyes, heart, lungs etc were sent out to those needed them and in particular the middle age man received a new lung and was saved from dying so early. He received the gift of life.

God is wonderful, when a couple get married and enter into the sacrament of Matrimony and have children. The newborn receive the gift of life. Now as adults we ask what should we do with the gift of life?

The Gift of Life Inspirational Poem by Bobette Bryan

The Gift of Life... Celebrate the joy of living by choosing to believe that each day is a blessing through the gifts you receive. Live life to its fullest. Reap all the joy that you can take. Make each moment count from the minute you're awake. There's so very little that's sure or guaranteed, but to make the most of life, you have everything you need.

So God is wonderful, he provides all the things in life we need and we should listen to Him and do His will every day.
