

Concordant Font Pairings

Georgia Pro

Georgia Pro is a great example of being used as a title and using Georgia Pro Condensed as the body text. This could be used as body text for print products.

ABeeZee Bold

ABeeZee Bold is a great example of being used as a title and using the regular ABeeZee font as the body text. This could be used as body text for items being read online.

Conflicting Font Pairings

Using Droid Serif (this font) and PT Serif (this font) are very similar but are not the exact same. This makes them conflicting.

Using Helvetica Now (this font) and Work Sans (this font) are very similar but are not the exact same. This makes them conflicting.

Contrasting Font Pairings

NORWESTER

Using Norwester, which is a Sans Serif font, paired with a Serif font, like Noto Serif used in this text, creates contrast.

Playfair Display Bold

Using Playfair Display, which is a Serif font, paired with a Sans Serif font, like Red Hat Display used in this text, creates contrast.
