This level is geared toward the child who is excited about ballet training and wants to come to class two days a week. Ages usually 7-11. All dancers take Classical Ballet and Theatrical Tap. Classes are carefully planned to insure that each child feels confident and able to execute the movements with excitement and security. Along with an introduction to the French Vocabulary for the Ballet, exercises will assist with physical strength, correct posture, balance on two and one leg, and stamina for jumps. Dancers will keep a ballet journal for vocabulary and dance history.

Most Dancers stay in this level for 2 to 3 years.
