202 681- 8459 [balletelitedc](http://balletelitedc)

This class is designed for the dancer who has successfully completed the previous levels of courses at NSD&A, and for beginning dancers ages 12 and up. Dancers will be introduced to more challenging technical steps and combinations. Abdominal strength, with emphasis on foot and ankle strength, flexibility and articulation. Extended work on balances on two and one leg. Petite and Grand allegro steps are perfected and dancers are constantly challenged with steps with ballon. Concentration, at this level, is on sound ballet technique, continuing work on the petite and grand allegro steps, all turning steps. Extended use of the adagio work with épaulement and refinement. Although many of these dancers are still novices, muscle strength and stamina building techniques are built into each class to help them progress. Careful exercises are given toward the Pre Pointé work. All of these demands assist with elegant body presentation on and off stage. Dancers take Classical Ballet and Tap. **Please Note: Dancers who are taking pointé class must attend 3 days a week. Dancers stay in this level for 2 or 3 seasons, ages 10-14 years**
