> WHAT DO ALL OF THESE NUMBERS MEAN? <

We're sure you've noticed the uptick in the number of strollers and minivans in our neighborhood recently. The continuing growth in young families has led us to seek updated playground equipment. On our survey, several remarked, "This would be so wonderful for our Rockwood community!" And we agree.

>> The HOA currently has \$16k set aside for this project. In order to fully meet the expectations of our current families, we need to raise additional funds. We are asking for your help to update our playground which would help families connect and build community, children make neighborhood friends and burn energy, and it would continue to make Rockwood a desirable neighborhood for future families.

If you believe in this project, and want to see improvements happen (with a goal of construction this summer), we'd love your support! Additionally, if you own or know of a business that would like to invest in their community, please let them know about this opportunity. (As promised, HOA fees are not being raised for this project.)
