BRAKE PRESSURE TEST SET

USAF approved for flight
line/hangar maintenance
and testing of F-16 brake
system hydraulics.

F-16

BRAKE PRESSURE TEST SET

USAF APPROVED

NSN: 4920-01-145-0163 for flight line/hangar maintenance and testing of F-16 brake system hydraulics.

- Measures Proper Operating Pressures
- Bleeds entrapped Air
- Checks Functional Operation

FEATURES:

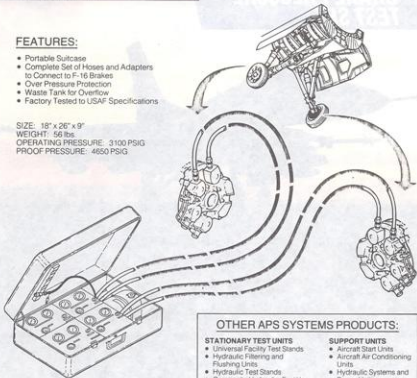

- Portable Suitcase
- Complete Set of Hoses and Adapters to Connect to F-16 Brakes
- Over Pressure Protection
- Waste Tank for Overflow
- Factory Tested to USAF Specifications

SIZE: 18" x 26" x 9"

WEIGHT: 56 lbs.

OPERATING PRESSURE: 3100 PSIG

PROOF PRESSURE: 4650 PSIG

OTHER APS SYSTEMS PRODUCTS:

STATIONARY TEST UNITS

- Universal Facility Test Stands
- Hydraulic Filtering and Flushing Units
- Hydraulic Test Stands
- Composite Hydraulic, Fuel Vacuum and Pneumatic Test Stands

SUPPORT UNITS

- Aircraft Start Units
- Aircraft Air Conditioning Units
- Hydraulic Systems and Power Units
