

NEW!

You know and love *Biblia Hebraica Bernetica*™.
Now, to continue your Hebrew studies, introducing...

Wally's Hebrew Institute of the Nebraskan Eastbank™

For all those times you've asked, "Why Hebrew? Do we really have to learn Hebrew just to be a pastor?--Isn't there an easier way?" Well, no. But, if you or someone you love has ever asked these questions, *Wally's Hebrew Institute of the Nebraskan Eastbank*™ (WHINE™) is the answer! Yes, for all Hebrew scholars desiring an education in the Holy land, WHINE™ is the next best thing. Just look at what WHINE™ offers:

I. Hebrew

Learn to study Scripture as God intended--backwards and in a foreign tongue. And learn this most holy of languages, the very tongue of God and His angels, at an institution which is dedicated to the eradication of all Marcionite tendencies and where even the LXX is almost a four-letter word. Yes, here at WHINE™ it's Hebrew or nothing! Our motto is: "!thgir t'nia thgir ot tfeL"

II. Nebraska

A centralized, Mid-West location. Easy to get to and on your way to nowhere in particular. And the Mid-western mindset makes for a most conducive environment for the study of such a pre-modern language as Hebrew. And why Nebraska? Where better to study the language of the Hebrew people than in a land reminiscent of their own promised land! WHINE™ is therefore comfortably situated in the shephelah of Nebraska, where reminders of bygone glory-days abound! The glory of the land of Canaan was its huge grapevines, and Nebraska is famous for those magnificently large trellis-like structures that line the roads and highways. WHINE™ is also appropriately located in the capitol city of Lincoln, even as the Temple was in Jerusalem. And Omaha is only a Sabbath's day journey to the East, where the Missouri River forms a river-valley much like the Jordan-rift zone. One visit here and you too will be asking, "Can the Dead Sea really be that far away?" Yes, Nebraska is truly the American Palestine! Palestine of the Middle-East is a defoliated wasteland on the mend from centuries of war-torn devastation. Palestine of the Mid-West is an apparent parallel.

Hebrew and Nebraska! That's right--WHINE™ offers you both! What more could you ask for? Well, plenty. And so to meet that request, WHINE™ will soon be offering classes at its satellite school in Lancaster, CA. Imagine spending your next 40 months or so (the average length of a first call) in a land not unlike the desert wilderness of the 40 year testing and wandering of Israel or the 40 days of Jesus' temptation. Yes, you too can relive those days, right here in the desert of South-Eastern California. Correspondence classes are also available. In fact, at WHINE™ of the Mojave Desert any correspondence is greatly appreciated.
