

NEW History helps from Bernese Schriften™

Do you struggle with reading and remembering history? Many seminarians can't remember their Gonzalez, Schwiebert and Nelson (or even buying them) let alone the accounts therein of Augustine, Luther and Walther. And even if they do read and remember for a while, the memory soon fades. Sound familiar? We have just the thing for you; we call it....

T.I.M.™

Total Implanted Memory

That's right! You don't have to read it, because we already have! (At St. Kate's, we're strictly into books. Beer, too.) We've already gathered all the required texts and common reference works for church history, and by a revolutionary technique (a Bernese Schriften™ exclusive!) we have transferred the complete reading experience to TIM-chips. These chips can easily be implanted directly (extra charge and liability waiver required) or taken orally in a gelcap. The rest, as they say, is history.

TIM-chip History Titles		BNS™ RDA	TIM-chip Title (Multi-vol. Works)		BNS™ RDA
Davies	<u>The Early Christian Church</u>	85%	Chemnitz	<u>Exam of Council of Trent</u>	2000%
Eusebius	<u>Ecclesiastical History [Eng.]</u>	25%	Quasten	<u>Patrology</u>	300%
Eusebius	<u>Ecclesiastical History [Greek]</u>	65%			
Eusebius	<u>Ecclesiastical History [Bernetic Grk.]</u>	100%	TIM-chip Title (Mega-vol. Works)		BNS™ RDA
Hagglund	<u>History of Theology</u>	70%	Migne	<u>Patrologiae—Patrum Graecorum</u>	∞-1%
Drulggah	<u>Theology of History</u>	07%	Migne	<u>Patrologiae—Patrum Latinorum</u>	∞-1%
Luther, et al	<u>Lutheran Confessions (for ELCA customers)</u>	100%	<i>And much, much more!!!</i>		

Let's face it—the study of history is nothing more than "Reading and Remembering"! So if this isn't the kind of R&R you're looking for, TIM-chip gelcaps are just what the doctor ordered. Here's how they work: 1) The TIM-chips are suspended in easy-to-swallow gelcaps, and who can't use a little help with digestion when you're dealing with history? 2) Simply take a gelcap 15-20 minutes before the big exam or all-night paper. 3) Once the gelcaps are digested, the TIM-chips actively seek out and attach to inactive brain cells, indigenous to the minds of Bernetic clientele.

Listen to what history professors are saying about TIM-chips:
 "Beyond Belief!" • "Are you sure it was TIM-chips they were taking?" • "If we get our hands on these guys, they're history!"

All such praise aside, why read, mark and learn, when you can simply inwardly digest? We did the hard part: all you have to do is take the gelcaps! Don't clutter that gray matter with historical minutiae—know it when you need it! (Forget it when you don't!) It's your choice: *tallelege* or *talleplacebd*. To order, we're still at:

St. Catherine's Monastery and Pub
The wisdom of the ages for just pennies a day!
 P.O. Box 2
 Big Mountain, Palestine
 Or simply call: 1-976-SCANDAL*

* We are currently sharing this phone line with another company, so order our TIM-chips, and—if you are aware of a late-breaking news story with absolutely no redeeming value, the operators of "A Current Inside Copy" are standing by. If you do talk to them, you've never heard of us, have no idea where we are located, and realize that (ha-ha) we would never be associated with the greed, avarice and shady characters usually connected to those stories. (Send our 60% cut of the raw and money, care of Madame Lola, or else we send Knuckles after you with his baseball bat.)

NOTE: this product is not yet approved by the FDA. Use only as directed. Multi-chip caplets should be taken in small doses, on a full stomach and empty head. WARNING: long-term use of this product may result in severe brain atrophy (but it's never stopped us before!). T.I.M. ©1993 by Bernese Schriften™. As usual, we take no responsibility for this ad, the caplets, or any effect they might have (placebo or otherwise).
