Air Cargo Tracking Platform provides all important data about your cargo in a few clicks:

- Airline and airport performance and risks for an air cargo shipment delivery
- Data collection from 80% of the airlines and 1600 airports and ground stations
- Realtime integration via open API with 3rd party platforms
- Detailed CO2 performance overview based on Well to Wheel (WTW) emission
- Specific trade lane overview to compare different routes
- Project suggestions for compensating your CO2 emission

Ocean Freight Tracking Platform provides the perfect overview of all your sea freight shipments:

- Port-to-port monitoring solution that is not bound to HWL shipments
- Real-time carrier updates for 45+ shipping lines
- Exceptions dashboard and newsfeed
- Real-time volume and performance reporting
- Comment & file upload function
- API for TMS of customers available

General

Trade Lane	CNYTN → NLRTM
Type	40 ft High Cube Container
Weight	.00
#Packages	0
Carrier	COSCO
Box Owner	TCK

Details

HB/L	COSU6347936000
Shipper Name	-
Consignee Name	-
Description	1110
# Packages	0
Weight	0
