

## COMING SOON TO OUR NEIGHBORHOOD!

ZEPHYR MINERALS Ltd, Halifax Nova Scotia, is in the final stages of exploration prior to requesting a mining permit for the extraction of gold from the mountainside visible above and directly overlooking Dawson Ranch and Canon City. The mining zone is planned for an area 2.7 miles wide, with room for expansion. The plan includes open pit (documented) as well as underground mining, 24 hours/day, 7 days /week for (currently) 4 to 6 years. Think roads (initial construction visible), lights, dust, noise, fire, and the defacement of one of our more beautiful local landscapes. Think home values! Think Cotter! Think of the effects on tourism, which is the current lifeline for the economics of our community. The only thing stopping this mine is you! Please Google or enter the web address "Zephyr Minerals Ltd." and access the "Presentation" section on their website. Our County Commissioners are critical to the approval or disapproval of the proposed mining activity. Call them! Get active!! (Commissioners: 719-276-7300 - Debbie Bell; Tim Payne; Dwayne McFall).

The Dawson Ranch HOA has yet to inform its constituents of the impact of a mine on our community. Contact the HOA at [www.dawsonranch-hoa.com](http://www.dawsonranch-hoa.com).

# Proposed Mine Design

Sentinel Segment    Dawson Segment    Copper King Segment    Windy Gulch Segment    Windy Point Segment

Mineral resources that are not mineral reserves do not have demonstrated economic viability
