

# *Eyelash* **EXTENSION**

## **AFTERCARE INFORMATION**

Congratulations on your first set of Eyelash Extensions! In order to care for your lashes and to help keep them looking great and healthy there are a few important things that you need to know.

- ▷ Clean your Lashes with special Eyelash Extension Cleanser everyday
- ▷ Do not use mascara.
- ▷ Comb your lashes every day.
- ▷ Avoid using your fingers to make adjustments as the oils from your hands will transfer to your lashes.
- ▷ Avoid extreme variation of heat, humidity, and cold weather (i.e. – hot showers, saunas, zero degree weather).
- ▷ Be sure to schedule a fill appointment every 2 to 3 weeks for timely touch-ups.
- ▷ This will keep your lashes looking full and natural, indefinitely.
- ▷ Do not attempt to remove the extensions yourself. Have them removed by your professional stylist.
- ▷ Contact your stylist with any questions or concerns.
