[BLOOD LINE]

All Climate Adapative Layering Intended Technical Streetwear

Our Shred DNA is deeply imbeded in BLOOD LINE's purposeful fabric engineering and function-oriented Garment Construction - for joyable weather dealing in all habitats.

[TECH FEATURES]

Our proprietary 3L fabric construction with bonded membrane rated at 10,000MM/1" SQUARE for waterproofing and 5,000G/M SQUARE. Inside is bonded with ultra soft micro fleece lining that is moisture wicking and quick dry. Excellent wind proofing and shell construction that is built for all seasons.

DWR (Durable Water Repellent) fabric finish repels light rain and snow and decreases drying times.
The DWR finish keeps the outer fabric from becoming saturated so that bonded inside materials will keep you dry and comfy.

Moisture wicking fabric is designed to pull moisture away from the skin. Our engineered micro-fibers draw sweat and perspiration off of the skin and out to the exterior of the fabric. It is much easier for the moisture to evaporate on the surface of the fabric than when it is trapped between the garment and the skin on ordinary garments.

Our 4 seasons Blood Line garments are made with high-performance micro-fiber synthetic fabric, that moves sweat away from the body and to the fabric surface where it evaporates quicker than any conventional fabric. It will keep you dry and comfortable.

Tech T-shirts / Long Sleeve / Tanks are 3D knitted with moisture wicking/quck dry mircro-fibers that also provides UVA and UVB protection (UPF 30) from the sun in areas covered by the garment.

Premium woven micro-fiber Nylon that offers natural water repellency and quick dry performance.
Rugged durability while being air light and crisp, that defends from wind chill with comforting quick dry insulation.

High quality garments needs matching grade trim. Nothing worse than zippers failing on your essential goods.
Blood Line garments are made with best sourced trims on the planet.

COLLABORATION PROJECTS

You design. We tailor.

Thank you for your interest in our COLLABORATION PROJECTS for apparel.
Our purpose is to continually provide our supporting retailers with quality goods that generates a great sell through.

We've been supplying custom limited goods to fine retailers, for over a decade with proven track records of success. All projects for this year will be showcased on our updated website and Shopatron, as we value this unique inspiration and collaborative efforts. We are confident that our craftsmanship matched with your local inspirations & style, will bring out a product that is genuine and exclusive. Please inquire through our customer service for further information on ordering. Selected retailers only.

1. PICK AN APPAREL CATEGORY

Choose your favorite apparel category from our seasonal offerings.

2. SEND US YOUR DESIGNS

You have unlimited options in the design platform from custom fabric print to custom patches and detail options. All original CG branding will remain in COLLABORATION PROJECTS with our guarantee of quality. Any creative ideas are encouraged and we will support by delivering your imagination to reality. We want to see your inspirations!

3. WE MANUFACTURE

We tailor and produce your order with meticulous attention to detail. CG standards of quality is applied to every piece and process of this customization.

4. GOODS DELIVERED TO YOU

Our lead time on Collaboration Projects are identical to your regular seasonal delivery schedule. Be stoked to receive quality goods with design and prestige that you will be proud to display up front. You design and we tailor!
