ROSSIGNOL

For Every Turn

At Rossignol, we live to turn. From groomed trails to untouched tree runs, bunny slopes to black diamonds. It's our mission to turn innovation into inspiration, making skiing and riding more accessible, comfortable, and fun however you slide on snow. Together we have the opportunity to **turn first-times into lifetimes**, to create unforgettable moments and make lasting memories. For every turn, there's Rossignol.

Your rental operation is more important than you think

Every passionate, life-long skier and snowboarder has to start somewhere. And more often than not, a rental/demo shop is where the journey begins.

Whether at a local ski hill or world-class destination resort, every rental operator has the opportunity to contribute to the growth of snow sports by providing a rental experience that leaves a positive, lasting impact.

Your rental operation is not just a revenue generator. It's where first-impressions of our sport are made.

Our role in increasing skier and rider retention

"The challenge of getting better" continues to be one of the leading reasons skiers and snowboarders leave or give up the sport.

Meanwhile current innovations in ski and snowboard technology continue making our sports easier, more comfortable, and more fun than ever before.

Providing up-to-date rental and demo equipment that speeds up the learning curve, fast-tracks progression, and offers a more comfortable and enjoyable on-snow experience has proven to generate more satisfied guests, more return visits, and more passionate, life-long participants.

Proud partners in fun on snow

No one of us can do it alone. In addition to developing intuitive, user-friendly rental solutions with the “game-changing” performance that’s proven to deliver the best on-snow experience, Rossignol is proud to partner with snow sports professionals across the industry in order to drive the awareness, participation, and overall enjoyment of skiing and snowboarding.

Experience Centers, Demo Centers, Nordic Centers

Rossignol is proud to offer and support rental and demo initiatives aimed at providing heightened consumer awareness and education in resort settings across North America.

Through a combination of game-changing products and awareness-driven marketing support, Rossignol’s exclusive rental/demo partner programs continue to boost return visits amongst all skill levels, increasing skier and rider retention and generating more dedicated, life-long participants.

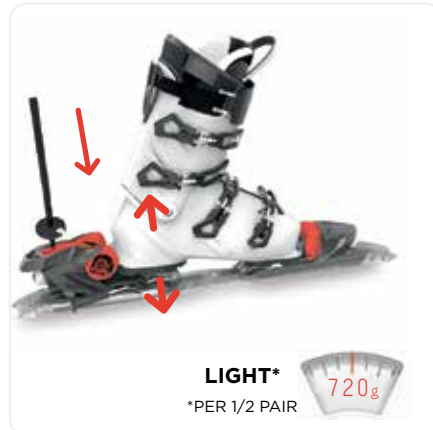

Why Rossignol Rental

IMPROVED TECHNOLOGY • FAST & SIMPLE SET-UP • INCREASED REVENUE

Rossignol Rental systems offer easy adjustability and color-coding to get your guests out the door and on the slopes quickly; combined with modern technology, durability, and comfort solutions that will keep them coming back.

Rental Systems

Alpine

SKIS

- Modern shape
- Wood core
- Extra thick edges
- Durable Rossitop topsheet
- ABS tip protector
- 7 sizes

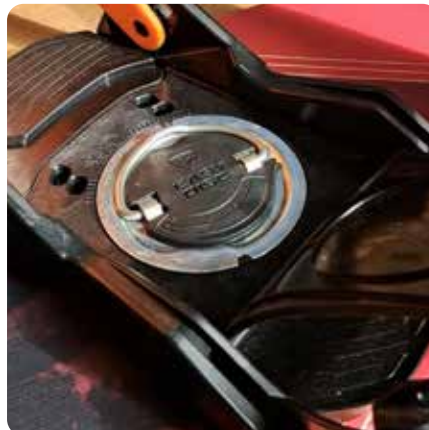

MULTIPLE BINDING OPTIONS

- 180° elasticity on toe
- Lightweight
- Easy step-in
- Grip Walk® Compatible
- XPRESS:
 - Adjustable toe & heel
- FLASH:
 - Fixed toe / adjustable heel

BOOTS

- 4 shell lengths - 12 sizes
- Anatomical liner
- Easy buckle system
 - Micro ladder strap top
 - Metal, micro buckles lower
- Integrated bar code
- Grip Walk® Compatible

Snowboard

BOARDS

- Modern shape
- Wood core
- Durable Rossitop topsheet
- Integrated tip and tail protection
- Integrated bar code
- Rolled topsheet
- EXP series: 19 sizes, 4 widths

MULTIPLE BINDING OPTIONS

- Fastest installation and adjustments in the industry
- Tool free mounting
- REPLY RAIL 4x4:
 - Integrated disk
 - Metal buckles
- WORKS FLASH:
 - New removable Easy Disk 3.0
 - Polyamide/fiberglass buckles

BOOTS

- BOA/Lace/Velcro systems
- Sizes 9k-15
- Lace protectors
- Reinforced toe cap and back-stay
- Nylon shank
- Bar code window on liner
- Intergrated leash attachment

Size Selection and Color Coding

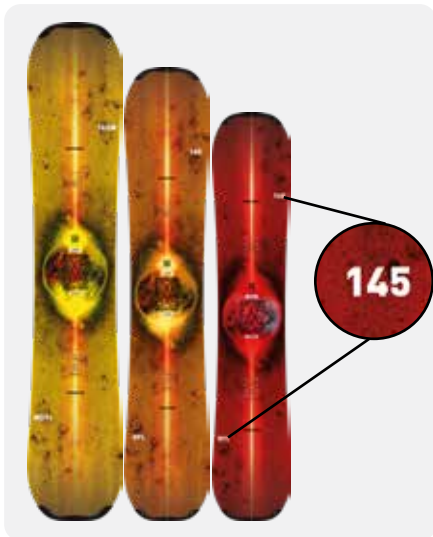

Highly visible sizing
speeds size selection

Binding system color coding
coordinates with boot sizing
and **speeds adjustment**

Color coding on boot cuff
and toe dam
speeds binding adjustment

Colored edges, topsheets,
bases and visible sizing
speed size selection

Yellow = Wide
Orange = Regular
Red = Narrow

Colored highback provides
**quick selection
and adjustment**

Yellow = 11.5-15.5 US men's
Orange = 8.5-10.5 US men's
Red = 5.5-7.5 US men's

Dual-view US/Mondo sizing
speeds size selection

Yellow = 11.5-15.5 US men's
Orange = 8.5-10.5 US men's

Arcade

100% every turn.

Skiing is full of different styles, different terrain, and most importantly, different tastes. Arcade is a one-ski quiver, opening every kind of terrain to every kind of skier. From groomers to chopped pow, moguls to crud, chalk to chunder, Arcade offers a smooth ride that never holds you back and keeps the team together.

9 AM

12 PM

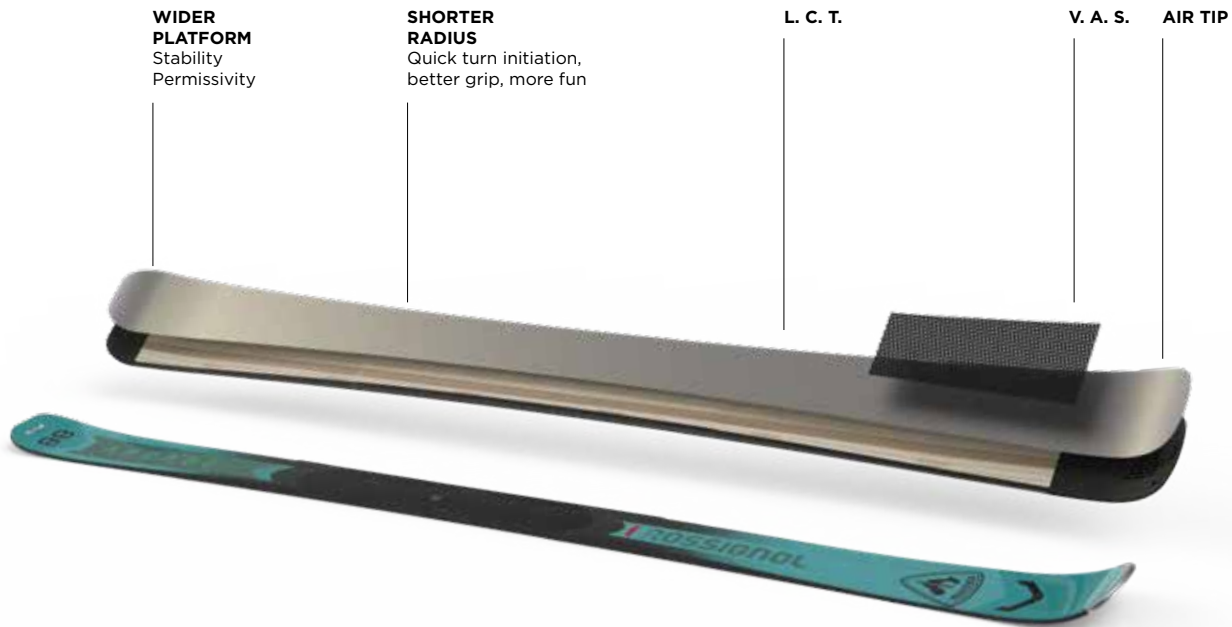

4 PM

Our Playground Is Diverse

Our terrain is diverse & always changing. We never know what kind of snow to expect. Snow conditions are evolving, from 9 am to 4 pm, from December to April, season after season.

WOOD CORE EXCEPT ARCADE 84

L C T

Vibration Absorption System. Inside technology, visible from the outside. The Visco material increases the sheering effect of the ski and **absorbs vibrations** for **higher comfort and control**.

V A S

Line Control Technology. It eliminates counter-flexing for **fluid stability in all conditions** and it brings confidence, stability and full control. The new L.C.T wood reduces the ski carbon footprint with a PEFC certified wood.

AIR TIP

AIR TIP technology reduces weight at the extremities and concentrates ski mass underfoot, freeing the tips and tails for effortless maneuverability, **natural flotation and playful control**.

RENTAL BINDINGS

Our tool-free rental and demo solutions are a direct extension of the LOOK Konect, Xpress, and Kid-X integrated binding systems used in retail. Each is available as an ala carte rental/demo system, ensuring LOOK's award-winning protection and performance and a wide range of easy, tool-free adjustability to fit most Alpine boot sizes.

KONECT SYSTEM

The KONECT system delivers the high-performance precision of a traditional, screw mounted binding with easy, tool-free adjustability (260-377mm), compatibility with traditional Alpine (ISO 5355) and GRIP WALK sole standards, and available in both SPX and NX binding platforms to fit all high-performance rental and demo needs.

XPRESS SYSTEM

The XPRESS system features an ultra-lightweight, eco-friendly construction that is 700g lighter than traditional Alpine bindings, has 35% less environmental impact (Winner of ISPO Eco Responsibility Award), and provides confident protection, reliability, our widest range of tool-free adjustment (258-386mm) and compatibility with traditional Alpine (ISO 5355) and GRIP WALK sole standards.

KID-X SYSTEM

The KID-X system features a lightweight, user-friendly construction designed for the smallest skiers on the hill. Featuring a large adjustment range (205-305mm) and compatibility with adult and junior sole norms, this two plate system with smaller mounting zone allows a more consistent flex on junior ski sizes.

Snowsport helmets, when sized and fitted properly, can reduce the risk of injuries to those parts of the head that are covered by the helmet, but no helmet can protect the wearer against all foreseeable impacts or injuries. Skiing and snowboarding will expose the user to forces that exceed the limits of protection provided by any helmet, and serious injury or death can result from both low and high-energy impacts, even when a helmet is worn. Never use a helmet that has sustained a significant impact or that appears to be damaged, because damage may compromise the effectiveness of that helmet.

Vizion Rental **Step In Technology**

All skiers are looking to make their life easier when slipping on their ski boots, so we have come up with the solution.

STEP IN

How does it work?

1 **Wide open in the back.**
For easy entry

Articulating spoiler to re-create traditional boot construction.

Snowboard

Exp & Exp3 Series

Featuring premium graphics, enhanced durability, and the same “game-changing” performance found in retail, Rossignol’s EXP FLEET, SPORT, and HIGH PERFORMANCE snowboard options ensure fast-tracked learning curves, more intuitive progression, and the most versatile performance across every snow condition, for every level of rider.

Amptek Auto Turn Rocker

- 70% Rocker at the tips for a playful, easy ride
- 30% Camber between the inserts for dependable edge grip and stability

Amptek All Mountain

- 50% Rocker at the tips for catch-free spins and landings
- 50% Camber between the feet for explosive pop and stability

Twin Shape And Flex

- Symmetrical shape and flex provides a more balanced ride

Serrated Edge Technology

- Snowboarding’s premium edge hold technology
- Maximum edge grip between your feet for increased control and stability
- Only available in EXP3 Rail
