

24H TREMBLANT X CHAOS

Rooted in our community, CHAOS gives back for the children's health and well being!

CHAOS is proud to be the official head provider for the 24h Tremblant reinforcing our commitment to giving back to our community. Through the sale of our exclusive Tremblant collection and other corporate initiatives, we raise money directly for the children's cause. Our dedication to sustainability and performance ensures that each product not only protects participants from the elements but also contributes to a larger purpose-helping children thrive in good health. — For 25 years, the 24h Tremblant has united outdoor enthusiasts and athletes for a singular purpose, supporting children's health and well being. Taking place annually in Mont Tremblant, this 24-hour relay event attracts thousands of participants who ski, snowboard, run, or hike in teams, for 24 hours, raising funds for pediatric foundations. In it's 2024 edition, the event has raised over 7 000 000$. The event's festive atmosphere with live performance and heartwarming moments with the sponsored children, creates an unforgettable experience. We are honored to stand alongside Tremblant's 24h in this important mission.

Polylana®

Polylana® branded fibers offer eco-efficient alternatives for acrylic and wool. Polylana® Fiber is embedded with the AWARE™ Integrity System, designed to validate impact claims, certification and composition. Polylana uses 76% less energy than regular Acrylic, 85% less water, produces 76% less waste and 19% less CO_2. Polylana also releases 32% less fiber than Acrylic under normal washing conditions.

polylana-fiber.com

POLYLANA

REPREVE®

REPREVE® is a trusted recycled performance fiber, used to make sustainable textiles with wicking, odor control, water resistance. REPREVE® is the only fiber with U TRUST® verification to certify recycled content claims. From any point in the supply chain, its unique FiberPrint® tracer technology, products can be tested to verify REPREVE® is in there, and in the right amounts. All styles in our 2025 collection are made using 100% REPREVE® Polyester fleece.

Vela

Lenzing® Ecovero®

InResST® is a low carbon, environmentally friendly company that focuses on the feasibility research, development and production of ocean plastics used in textiles. InResST recycled nylon staple fiber products are using derived from ghost fishing nets, generated by deep-sea fishery activities. It's performance is very similar to virgin nylon. For every 1 ton of InResST® raw material production, we save 95% of CO2 emissions, 96% energy and 52% water compared to virgin nylon. You will find InResSt recycled nylon in our Eco wool blends section.

WOOLS

Since 1953, yarns have been our passion. We always strive to knit with only the most beautiful, quality wool products. Yarns were chosen with great care to have super soft and warm hand feel and include merino wool. Bringing great classic styling, we elevate the whole wool collection to a new height.

RAGG

Ragg wool as always been a staple CHAOS collection. For FW26, we have revisited some of our best classics to make them more modern and wearable. We have enhanced this collection with a new eco ragg yarn that uses recycled polyester. Hats in this new grouping use our cashmere fleece inner bads. Hand-finished top closure ensure form-fitting silhouettes - enhancing the wearer's comfort and style.
