Season
25/26

For seventy years, Atomic has been at the forefront of shaping the sport of skiing. Our legacy is built on a foundation of blending cutting-edge technical performance with a deep, enduring love of the mountains where we test, develop and manufacture our products. As the world around us continues to evolve, so must skiing itself. Our 2025/2026 product lineup reflects our dedication to innovation, designed to inspire future generations of skiers and elevating the performance of our athletes.

We are Skiing

Shaping the Future of Skiing

Our Biggest Race Yet

We’ve been committed to lowering our impact since the 1990s, and have always lived our values. But as the climate crisis deepened — and its effects reached further into our sport and the lives of those who depend on it — we knew we had to act. Our Impact Statement 2024 is our way of formalizing that commitment, and reporting back on the progress we have made. We believe that lower-impact design is a performance driver, not a performance inhibitor — and it’s a belief we’ll pursue with the same dedication and determination we’ve always applied to driving the sport of skiing forward.

Manufacturing Expertise Is Our Super-Power

For many brands, production is something that happens in someone else’s factory, often on the other side of the world. We are proud to own and manage the world’s most advanced ski factories at our locations in Austria, Bulgaria and Romania. From hand-crafting our first 40 pairs of skis in a small workshop, we have grown to produce thousands of pairs annually at our Altenmarkt headquarters. Skis are still manufactured just meters from where they are designed.

As well as providing a perfect playground in which to test our prototypes, our Altenmarkt facility gives us a unique advantage — the ability to experiment. From energy efficiency to materials use, we control every step of the manufacturing process. We define and control the production of our skis, boots, bindings. This knowledge mean we can reduce emissions across all product categories.

Investment in wide-ranging environmental efficiency projects at Altenmarkt have already made it the production location of choice for many other brands in the ski industry. The facility has been fully audited using the Higg Facility Environmental Module (FEM) and has recently been audited and certified for implementing the Environmental Management System according to ISO 14001, establishing Altenmarkt as a global benchmark in low-impact ski production.

But there’s so much more to be done. Using the information we have gained in the audits, we will continue to identify ways of reducing our impact. Even more importantly, we will apply lessons learned in Altenmarkt at our facilities in Bulgaria and Romania.

The way we play in the mountains reflects who we are. Perhaps you prefer groomed slopes, untracked powder, or exploring the whole mountain. From Atomic's home in the Austrian Alps, we are constantly innovating our alpine equipment to ensure that no matter where you ski, you can go without limits.

Faster. Always

Alpine
Skis

From World Cups to club huts, speed and control are always the goal — no matter where your start line is. For more than 70 years we've innovated in the name of speed, and we continue to search for every advantage. Why? Because the pursuit of speed is never finished. Atomic Redster: Faster. Always

Repair It, Don't Trash It!

Don't throw out what's broken when you can fix it instead. By replacing worn-out parts on ski boots, we're extending the life of our gear and reducing our impact on the environment.

At Atomic, we've made a concerted effort to ensure that the vast majority of our boot parts (77% to be exact) can be replaced or repaired. Plus, they are easily accessible to all, so customers can keep using the most sustainable product out there: the one they already own. Here are some of our spare parts – check with your customer service agent or local Atomic rep if you need parts you don't see here.

Alignment & Canting

A properly canted ski boot allows the skier to have better balance and ultimately more control over the ski. Initiating the turn takes less effort, more power is directed to the ski, and the skier has an easier time staying balanced and centered from turn to turn.

■ **Canting Assessment System** *Carry over*
AM5006331001

To know which amount of sole canting is right for your customer, we developed the Canting Assessment System. Precision machined from billet aluminum, it is incredibly accurate and delivers consistent, repeatable results. The plate angle that you select is the angle that you set the boot up to. Plates range from 0.0° - 3.0°, every half degree.

■ **Atomic Cantmate System** *Carry over*
80 cm wide x 38 cm deep x 73h cm high
AM5007781001

Cantmate elegantly combines sole canting, ramp angle adjustments and toe & heel routing into one tool, efficiently maximizing available workspace. Precision milled from aluminum in Sweden & tested with calibration equipment from Zeiss, it can plane a sole in increments of 0.25°. Items included: Cantmate device, Festool router, cutting bits, ISO 5355 height gauge and digital angle cube.

■ **Canting Shim** *Carry over*

Hawx Ultra, Hawx Prime and Hawx Magna all use our Cantable Grip Pads, which are compatible with our Canting Shims. The shims are available from 0.0° - 3.0°, every half degree. Canting Shims are sold as pairs and include appropriate length screws. Important note: once shims are added to the Boot, the boot must be returned to proper ISO 5355 dimensions.

0.5°: AZE001186 Small AZE001178 Large	2.0°: AZE001192 Small AZE001184 Large	Sizes: Small: 22.0 – 24.5 Large: 25.0 – 32.5
1.0°: AZE001188 Small AZE001180 Large	2.5°: AZE001206 Small AZE001210 Large	
1.5°: AZE001190 Small AZE001182 Large	3.0°: AZE001204 Small AZE001208 Large	

■ **Canting Shim Starter Kit** *Carry over*
AZE001202

This is the best solution getting started & organizing your Canting Shims. Three pairs of each degree & size are supplied, along with appropriate length screws. Get this first and then re-order shims when necessary.

This image shows a full page of blank, lined paper. It features approximately 20 evenly spaced horizontal grey lines across its entire width, providing a template for writing or drawing. The margins are consistent on all sides.This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Backland Race

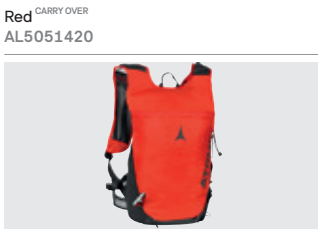

Vol. 16l	Weight 400g
Dimensions H x L x W 42x25x17,5cm	Fabric 4-Way Stretch Lycra, Elastic Air Mesh

Construction
Secure Speed Ski Carry, Modularity UL, Safety Gear Compartment, Crampon and Skin Compartment, Double Ski Carry, Diagonal Ski Carry, Ice Axe & Pole Carry, Easy-Access Main Compartment, Chest Strap with Emergency Whistle, Adjustable Hip Belt, Adjustable Shoulder Straps, Internal ZipperedPocket

Features
Hydration System Compatible, Softflask compatible, Ultra Lightweight, Developed with Atomic athletes, Race ready, EVA-Molded Back Panels, Reflective Logo Prints, SOS Print

Backland UL

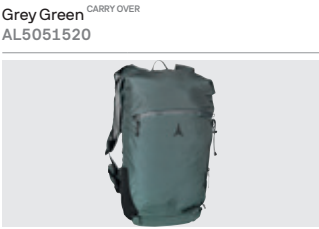

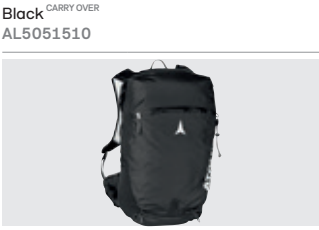

Vol. 16l	Weight 500g
Dimensions H x L x W 46,5x25x23cm	Fabric Lite Ripstop PA with TPU Coating, 2L Stretch Fabric, Hi-Lite Interior, Mono Mesh

Construction
Running Vest Construction, Speed Ski Carry, Modularity UL, Safety Gear Compartment, Extendable Crampon/Skin Compartment, Ice Axe & Pole Carry, Helmet Net, Tangle-free, Chest Strap with Emergency Whistle, Adjustable Hip Belt, Padded Shoulder Straps, Adjustable Shoulder Strap, External Pocket, Main Compartment, Elastic Side Pocket

Features
Key Clip, Hydration System Compatible, Softflask compatible, Lightweight, Ventilated 3D EVA Back Panels, Reflective Logo Prints, SOS Print

Backland 22+

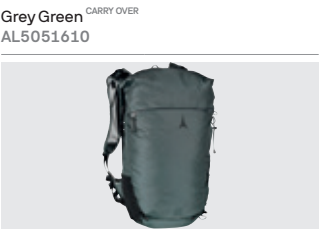

Vol. 22l	Weight 900g
Dimensions H x L x W 51x32x14cm	Fabric 210D Ripstop PA with TPU Coating, Hi-Lite Interior, Mono Mesh, Water- and Stain-resistant

Construction
Safety Gear Compartment, Extendable Crampon/Skin Compartment, Roll Top Volume Adjustment, Diagonal Ski Carry, Ice Axe & Pole Carry, Helmet Net, Hip Belt with Pocket & Gear Loops, ZipperedSide Opening, Chest Strap with Emergency Whistle, Adjustable Shoulder Straps, Internal Pocket, Main Compartment, Elastic Side Pocket

Features
Key Clip, Hydration System Compatible, Lightweight, Durable, Ventilated 3D EVA Back Panels, Water-repellent Zipper, Reflective Logo Prints, SOS Print

Backland 30+

Vol. 30l	Weight 1320g
Dimensions H x L x W 60x32x18cm	Fabric MIPAN® regen™ Recycled Nylon, MIPAN® regen™ Nylon Ripstop

Construction
Safety Gear Compartment, Extendable Crampon/Skin Compartment, Roll Top Volume Adjustment, Diagonal Ski Carry, Ice Axe & Pole Carry, Rope Carry, Helmet Net, Hip Belt with Pocket & Gear Loops, Load Lifters, ZipperedSide Opening, Chest Strap with Emergency Whistle, Adjustable Shoulder Straps, Internal Pocket, Main Compartment, Elastic Side Pocket

Features
Key Clip, Hydration System Compatible, Lightweight, Durable, Ventilated 3D EVA Back Panels, Water-repellent Zipper, Reflective Logo Prints, SOS Print

Backland FR 24+

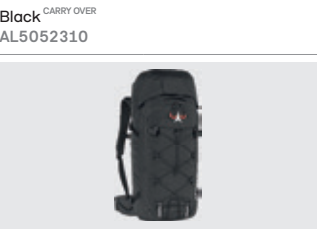

Vol. 24l	Weight 900g
Dimensions H x L x W 60x27x23cm	Fabric MIPAN® regen™ Recycled Nylon, MIPAN® regen™ Nylon Ripstop

Construction
External Daisy Chain Flex-stow, Avalanche Equipment & Screwdriver Storage, Roll Top Volume Adjustment, Removeable Lid Bag, Dual Access, A-frame and Diagonal Ski Carry, Ice Axe & Pole Carry, Rope Carry, Helmet Net, Global Recycled Standard (GRS), Modularity FR, Hip Belt with Pocket & Gear Loops, One-handed Chest Closure, Adjustable Shoulder Straps, Lined Goggle Compartment, Internal Mesh Compartments, External Compression Straps

Features
Key Clip, Hydration System Compatible, Lightweight, Shoulder-strap Sunglass Carry, Honeycomb EVA Back Panel, SOS Print

Backland FR 32+

Vol. 32l	Weight 1360g
Dimensions H x L x W 65x27x25cm	Fabric MIPAN® regen™ Recycled Nylon, MIPAN® regen™ Nylon Ripstop

Construction
External Daisy Chain Flex-stow, Avalanche Equipment & Screwdriver Storage, Roll Top Volume Adjustment, Removeable Lid Bag, Dual Access, A-frame and Diagonal Ski Carry, Ice Axe & Pole Carry, Rope Carry, Helmet Net, Global Recycled Standard (GRS), Modularity FR, Hip Belt with Pocket & Gear Loops, Load Lifters, One-handed Chest Closure, Adjustable Shoulder Straps, Lined Goggle Compartment, Internal Mesh Compartments, External Compression Straps, Front-facing Grab Handle

Features
Key Clip, Hydration System Compatible, Lightweight, Shoulder-strap Sunglass Carry, Honeycomb EVA Back Panel, SOS Print

Softflask 500ml/17OZ

Vol. 500ml	Weight 35g
---------------	---------------

Dimensions H x L x W
21,5x7x5,5cm

Features
BPA and PVC free, No-Leak™ Silicone Bite Valve, Easy-fill & clean, Compressible design, Warm-drink safe, Dishwasher safe

Thermo Flask Holder

Vol. 0,5l	Weight 40g
Dimensions H x L x W 20x18x1,5cm	Fabric Lite Ripstop PA with TPU Coating, Tarpaulin Lining

Construction
Thermo Insulation for Bottles

Features
Atomic Backland compatible, Elastic Loop

Whether you're racing, on-piste, in the park or laying fresh tracks, comfort and confidence are key. It's why all Atomic helmets have the same two things at their heart: an instant individual fit that adapts to your head, and supreme protection all over. Look good, feel safe, push your boundaries.

Rental

Atomic Easy Rental Assistant (ERA)

Increase rental potential and get more people out skiing in less time: Atomic's Easy Rental Assistant (ERA) is a holistic, intelligent rental platform that delivers a new level of speed and efficiency to any rental shop. Atomic ERA greatly reduces the need for support and time required to fit and adjust rental equipment through a simple and approachable method. The process is streamlined allowing customers an all new option to self-service their personal equipment needs before final shop inspection and check out if preferred.

Rental Redefined – How it Works

Simple to use for customer and shop staff, Atomic ERA follows an interconnected, intelligent color-coding system that applies to the entire product assortment. Find your color and let's go skiing!

The First Color-Coding System for Your Whole Skiing Set-Up

Find your boot color-code first, then simply select that corresponding color for your skis, poles and helmet. Equipment selection and fleet restock made easy!

● grey, ● green, ● blue, ● red, ● yellow

- Easy to read shoe sizes marked on each pair of boots
- Customizable boot fit with fewer shells
- Super-easy binding adjustment
- Final proof at check-out

Sleeve (from middle back to wrist*)	81.5	83.5	85.5	87.5	90.5	93.5
Inseam pant (from crotch to floor*)	79	80.5	82	83.5	85	86.5

- ① **Chest:** The circumference of your chest is measured under your armpits, around your shoulder blades, and back to the front.
- ② **Waist:** Measure the circumference of your waist at your natural waistline, which is located above your belly button and below your rib cage.
- ③ **Hip:** Hip is measured at your widest point around the hip.
- ④ **Sleeve length:** Measure from middle back to wrist (upper side of the sleeve).
- ⑤ **Inseam pant:** Measure from the top of your leg to the end of your leg (inside of the leg).
