

DISTRIBUTION PLATFORM

The Entrepleio Distribution Portal

One platform for administering Team Behaviours Index measurements.

- Manage contacts, organise teams, launch measurement campaigns, monitor participation, generate reports
- Supports the complete measurement lifecycle from participant set-up through to reporting

The Three Core Functions

Together these functions provide everything required to administer a TBI measurement programme.

Contacts

Store and manage participant information and organise into teams.

Campaigns

Distribute team questionnaires and manage reminders.

Results

Monitor completion and generate reports.

CENTRAL ADMINISTRATION

Managing Participants

The Contacts area provides a central participant inventory.

- Add contacts
- Upload participants in bulk
- Edit participant information
- Search existing contacts
- Reuse contacts across multiple campaigns

Less administration effort

No repeatedly creating participant records.

Team B

Team C

DISTRIBUTION WORKFLOW

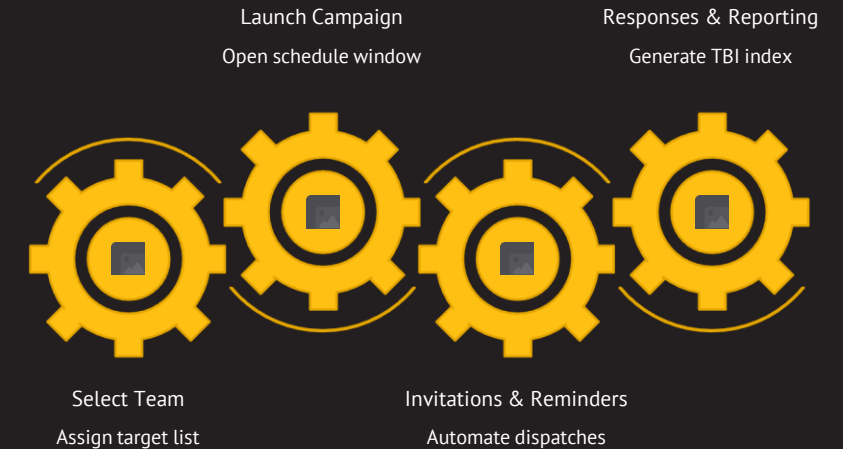

Running Measurement Campaigns

Campaigns distribute the TBI questionnaire to selected teams.

- Questionnaire distribution and automated scheduling
- Custom email invitations and reminder communications
- Live participation monitoring and completion tracking

Preconfigured execution

Standardised campaign steps guarantee a consistent assessment experience across every team.

The screenshot shows a campaign configuration interface with a vertical list of steps, each with a checkmark icon:

- Title & Questionnaires**
New Campaign
- Recipients**
Sender & recipients of the email
- Content**
Subject & body of the email
- Scheduling**
Start & stop dates
- Reminders**
Plan reminders in advance

Below the steps, there is a blue bar indicating the **Scheduled date: 08/09/2026 17:00**. At the bottom, there is a grey button labeled **Revert to draft**.

From Measurement to Insight

The portal tracks responses in real time, delivering a structured journey from participant engagement to team behavioural insight.
