

## COMPANY ANNOUNCEMENT

Dear valued customers,

On March 1<sup>st</sup>, 2025, CSP Investments LLC acquired the assets of A.G. Davis – AA Gage. Going forward CSP Investments LLC will be operating under the name AA Gage.

AA Gage will be consolidating efforts on specific product lines to include Ultradex and Ultraron Tables. We also worked to streamline our calibrations division to maintain a 30-day or less turnaround time. If the tables need to be repaired, we will immediately reach out with a quote and get approval as needed.

For our gaging, air bearing, and servo table customers, we are finalizing the reassignment to respected companies so that your needs can also be met.

Please feel free to contact AA Gage directly with any questions or concerns. We look forward to working together and we thank you for your understanding.

The AA Gage Team is looking forward to working with our old and new customers, and we are excited to provide our services within the industry.
