# ABOUT US

I have been obsessed with skincare for as long as I can remember. I have found joy in the science and beauty of soapmaking and have an impending diploma in skin care formulation.

My first batch of soap was made with only three oils: olive, coconut, and castor. I used lavender essential oil because this was my grandmother's favorite scent. It turned out so well, and I am proud to share that we still get requests for this simple soap.

I am a lifelong DIY fanatic and have spent many hours painting, scrapbooking, woodworking, and more; however, soap making has my full attention now. I even dream about soap. That's normal, right?!

Most days, you can find me in my soap studio creating signature scents, learning a new technique, or developing my next launch. I am so excited to share my products with you for your home, your loved ones and your events!

WITH LOVE,

*Wendy*
