

KACHINA - PRIVATE CLUB HOSTING PROBLEM

For Discussion

Golf being popular is causing problems when holding events at private clubs.

A possible solution divide Kachina in half. This would mean the private club would host every year but on a slow golf day in the afternoon (Sunday?). It may be best to keep catering to a minimum offer drinks (no host bar) and chips after golf. A snack bag at registration for all players (energy bar and fruit).

Members are acting as hostess every year - therefore it is only fair that they have the option to play.

The two hosting clubs should select the same month if possible and different dates. This will help with Kachina scheduling.
