16th Annual Imaging Symposium

Conversations In Care – Cardiac Conundrums
with a special
3D Echocardiogram Workshop

Saturday, May 31st, 2025

Start Spreading the News,
Live and In Person in beautiful
New York, New York!

Back by Popular Demand, we are ditching the PowerPoint!

Each session will feature a live conversation between an expert imager and an expert surgeon or interventionalist teaching each other and the audience what information is needed to prepare for an intervention, what the intervention entails, and how imaging can improve patient outcomes.

Topics Include:

- Approach to re-repairing the mitral valve
- Approach to complex baffles in Double Outlet Right Ventricle
- Approach to Complex cc-TGA cases

This year's conference will include a hands-on 3D Echo workshop in 3D image acquisition and processing.
