

# Law Offices of Howard S. Dymant

## What Assets are Subject to Probate in Ontario?

Greetings!

Cryptocurrency and Digital Assets are here to stay. Think of your social media accounts, email, PayPal® etc. How do your heirs access them upon your death, or even be aware of them? Think of Passwords, Pins, Dead Man Switches, Keys, their special taxable nature, let alone where those digital assets reside or even what you own. What about income tax and capital gain considerations? Has your current Will made provision for these issues or do you have any note or instructions to your Executor where they are? I think not, if you have not revised your Will and Estate Planning in the last five years.

My Office carries out all Consultations, Will and Estate Planning including execution by Zoom™, so revising or preparing your Will and Powers of Attorney or simply just

consulting with me over the issues raised in this blog can be done privately from the comfort of your own home.
