## FROM THE MANAGER'S DESK

### A MESSAGE from the Manager:

It is great to see all our seasonal guests coming back into the park! Welcome! We expect to have a busy and fun season this year.

For those of you who will be here during the holidays, remember we have a **Thanksgiving Dinner** each year at the Recreation Hall cooked and served by our wonderful volunteers. It looks like we will be able to have all the Christmas celebrations again this year, so watch the calendar for dates.

Just this month (November) there is so much going on that we cannot mention it all in this article, but some of the highlights are **Big Brothers/Sisters Angel tree** goes in the office on November 1st, the **November Pub Picnic** is on November 4th, **Military Day celebration** is on November 11th, the **Fall Arts & Crafts Show** is November 13th, **Property wide Yard Sale** on the 17th, and the **November Blood drive and Mini Health Fair** on the 20th, and of course the **Thanksgiving Day dinner** on the 25th.

**The Farmers' Market** is open on Mondays, there are **food trucks** and many different **art classes, karaoke, pool parties, campfires, dog training classes**, and so much that you will need to grab a calendar to keep track. You can also check out our website daily and weekly to see what is happening on the property and in the general area.

**Propane deliveries** are once again weekly, there is a sign- up sheet in the Guest Lounge.

Remember that we do not allow construction or renovations on the park models during the months of January, February and March as the noise, dust and vehicles really effect your neighbors' enjoyment of their premises.

We will be following the same pickup schedule for landscape debris, but please put small branches and debris in a trash can rather than leave it in a pile. It is much easier for us to pick up.

If you are leaving for the Holidays, we will hold your mail until your return. Remember we do not accept perishable items such as flowers or refrigerated food as we do not have the appropriate storage for them and cannot guarantee delivery.

We hope you have a wonderful holiday season! **Bev Malouin, Resort Manager**

## Package Delivery to Royal Coachman

Amazon deliveries can come three ways:

- Directly from the Amazon warehouse via the Post Office;
- Delivered by Amazon vans directly to your site;
- Third party sellers can use a preferred shipper and deliver directly to your site.

RCR has partnered with Amazon so they are able to access the property after hours with a trackable application that records their entry and exit thru the gate. Federal Express and UPS will always deliver directly to your site. Please remember that our ability to store packages you have shipped to RCR is very limited.

If you are having a large item or items shipped to your site, please make sure that:

- The shipper has the correct address of your unit and a phone number to reach you
- The shipper is aware that a very large box truck or a semi will be unable to navigate the roads in the park model area and will not be able to deliver directly to you at your site.
- You know when the package is arriving so you can be available to meet the shipper and facilitate the delivery to your site. We cannot store or secure large items and cannot take responsibility if your shipper drops your shipment in front of the office or the mailroom.

If the package or packages are coming via the Post Office delivery, understand that we cannot hold onto very large items like furniture, cabinets, appliances for very long, as we do not have the room. We will also not accept fresh flowers or food items of any kind as we cannot guarantee that we can get them to you in a timely manner. We will not accept or hold any pharmaceuticals or firearms in our office. Pharmaceuticals that are direct shipped through the post office and that can be placed in your mailbox are fine. For regular packages, we will continue the procedure of logging them in, and calling guests to let them know there is a package in the office for pickup.

# Frustrated with Your Spouse?

During our covid quarantine, frustrated with your spouse, seems like a questions that could be answered positively by almost everyone. Yet for those living with someone who has a hearing loss this frustration is always present.

A while ago, Karen had one of our new clients, a first-time wearer, ask her one of those “Here’s Your Sign” questions.

He stood in front of her holding his new hearing devices with dead batteries. Standing there in confidence he said, “I didn’t even know they stopped working.” She did not point out the obvious: then how did you know to bring them here? Instead, she asked him, “did your wife notice?” He seemed surprised that Karen knew what happened, “yes,” he said.

We see it so often. We see it too often. Most first-time wearers don’t fully appreciate or value how much hearing devices assist them. Yet, their spouse, family, and friends notice their ability to participate in conversations. Quite a few first-time wearers purchased their first set for a spouse’s happiness. It follows the simple saying, Happy Wife, Happy Life.

Yes, quite a few husbands, more so than our female clients, purchase their first set to ease friction with their spouse. We know spouses want an easy, enjoyable, engaging life together.

A wife wants her husband to hear independently. When he hears on his own, she will feel like he is a partner. When he hears on his own, he won’t be dependent on her to translate the punchline of the joke or repeat what the kids just said.

Ask your friends, family, and spouse if they notice an improvement, they want the best for you. Listen to their response when you are wearing new technology.

If you have you heard “HUH?” or “What?” too often, we can help you have a relaxed, happy environment in your home and with your family.

Call us, 244-9300, if you think you or someone you love needs help hearing better.

**WILDLIFE FILES**

Article and Photography by Betty Baird

The Gopher Tortoise is one of five North American tortoise species and is the only tortoise naturally found east of the Mississippi River. Gopher tortoises occur in parts of all 67 Florida counties. The Gopher Tortoise was listed as a Species of Special Concern in Florida in 1979 and was reclassified as a State-designated Threatened species in 2007. The Gopher Tortoise is seen as a keystone species because it digs burrows that provide shelter for at least 360 other animal species.

### APPEARANCE

The Gopher Tortoise averages 9-11 inches in length though it can reach up to 15 inches when fully grown. It is stumpy in appearance with front feet that look like shovels which are covered in heavy scales. These feet permit the tortoises to build their nests by burrowing deep in the ground. Hatchlings and juvenile tortoises (up to a year old) tend to be yellow, orange and brown in color. The bright coloration fades with age and adults are generally tan, brown, or gray. Mature males have concavity on their lower shell while adult females have a flat lower shell.

### GOPHER TORTOISE INTERESTING FACTS:

- Can live 40 to 60 years in the wild while captive tortoises may live 90+ years
  - Males reach adulthood at 9 - 12 years of age. Females may take 10 - 21 years
  - Breeding season is between March and October
  - Females lay one clutch of 5 - 9 ping pong ball sized eggs per year between May and July
  - Nest in open, sunny places, frequently within the soft mound of sand at the entrance of their burrow
  - \* Incubation lasts 80 - 110 days and hatchlings emerge from nests between August and November. Tortoises show no maternal care of their eggs or young.
- 
- Their life revolves around their burrows where they spend 80% of their time
  - Burrows average 15 feet long and 6.5 feet deep, but have been documented reaching 40 feet long and 10 feet deep
  - They depend on the environment to maintain body temperature and their burrows maintain a stable temperature and humidity year-round
  - They are grazers - feed on low growing plants
  - The primary threat to the gopher tortoise is habitat loss through habitat destruction, fragmentation, and degradation, particularly from land development for homes. Risk of road mortality and of Upper respiratory tract disease (URTD) also poses a potential threat to gopher tortoise populations

And that is a re-visit to these interesting creatures who are part of this wonderful place we call Winter Home. Don't miss the opportunity to visit them up close and personal.

In conjunction with this day, **RCR Sewers** will participate in presenting a **Quilt of Honor (QOV)** to our oldest Veteran. For those who were not here in April, a special presentation was made to Nils Burke on April 21, 2021. Nils, 94 years young is a veteran of Iwo Jima and was touched by our generosity in gifting him a beautiful quilt. This quilt was given to me a (as a QOV member) by the Venice Area Quilt Guild. Our group will continue to stitch blocks to make our own Quilt of Honor for presentation to the next year's recipient (2022).

If you have any extra fabric which would be appropriate to make QOV blocks, please bring anything you have with you.

Many thanks to all of you who made beautiful quilt blocks over the last season.

If you have any questions, I can be reached at: 845-742-9809 (Cell) or by email – [mmbolero1@frontiernet.net](mailto:mmbolero1@frontiernet.net)
