

WIT NWA April Monthly Event:

Cloud, Data & AI

A Women in Technology Small Group

AGENDA

Introductions

Mission

What to Expect

AI Discussion

Topics for future

How to Get Involved

**Praveena
Ravanavarapu**

Renu Khandelwal

Amie McClendon

Tammy Waggoner

Supriya Thorbole

OUR TEAM

Mission

A decorative abstract graphic in the top right corner, composed of many thin, overlapping blue lines that form a wavy, organic shape, resembling a stylized wave or a digital signal. It is set against a dark blue background.A solid red horizontal bar spanning the width of the slide, positioned below the 'Mission' header.

Empower Women – Equip women with insights and resources to explore diverse career paths in tech.

Share Knowledge – Foster a collaborative space to learn from one another and dive deeper into key topics.

Build Leadership – Provide opportunities for women to lead discussions, shape content, and drive conversations.

Drive Meaningful Impact – Influence how we approach infrastructure, data, and AI by elevating diverse perspectives and experiences.

What To Expect

An abstract graphic composed of many thin, overlapping blue lines that form a complex, wavy, and somewhat circular shape, resembling a stylized signal or a futuristic logo. It is positioned in the upper right corner of the slide.

- Monthly meetings
- Rotating topics (Cloud trends, AI use cases, Data careers, hands-on demos, guest speakers, etc.)
- Safe space for learning and sharing

WHO CAN JOIN?

- Anyone
- Engineers, analysts, data scientists, architects, product managers, and anyone interested in Cloud, Data, or AI
- Beginners to advanced

AI Stats -Think About It...

AI adoption has surged, with over 378 million users globally in 2025, a 20% increase from the previous year

GenAI spending is forecasted to reach \$644 billion in 2025, a 76.4% increase from 2024- Gartner

By 2028, at least 15% of daily work decisions will be made autonomously by agentic AI systems- Gartner

What Apps Do You Use?

What is AI, ML, and NLP

Artificial Intelligence(AI) :
Makes machines smarter

Data Science: Finding stories
in data

Machine Learning(ML):
Teaching Machines to learn
from experience

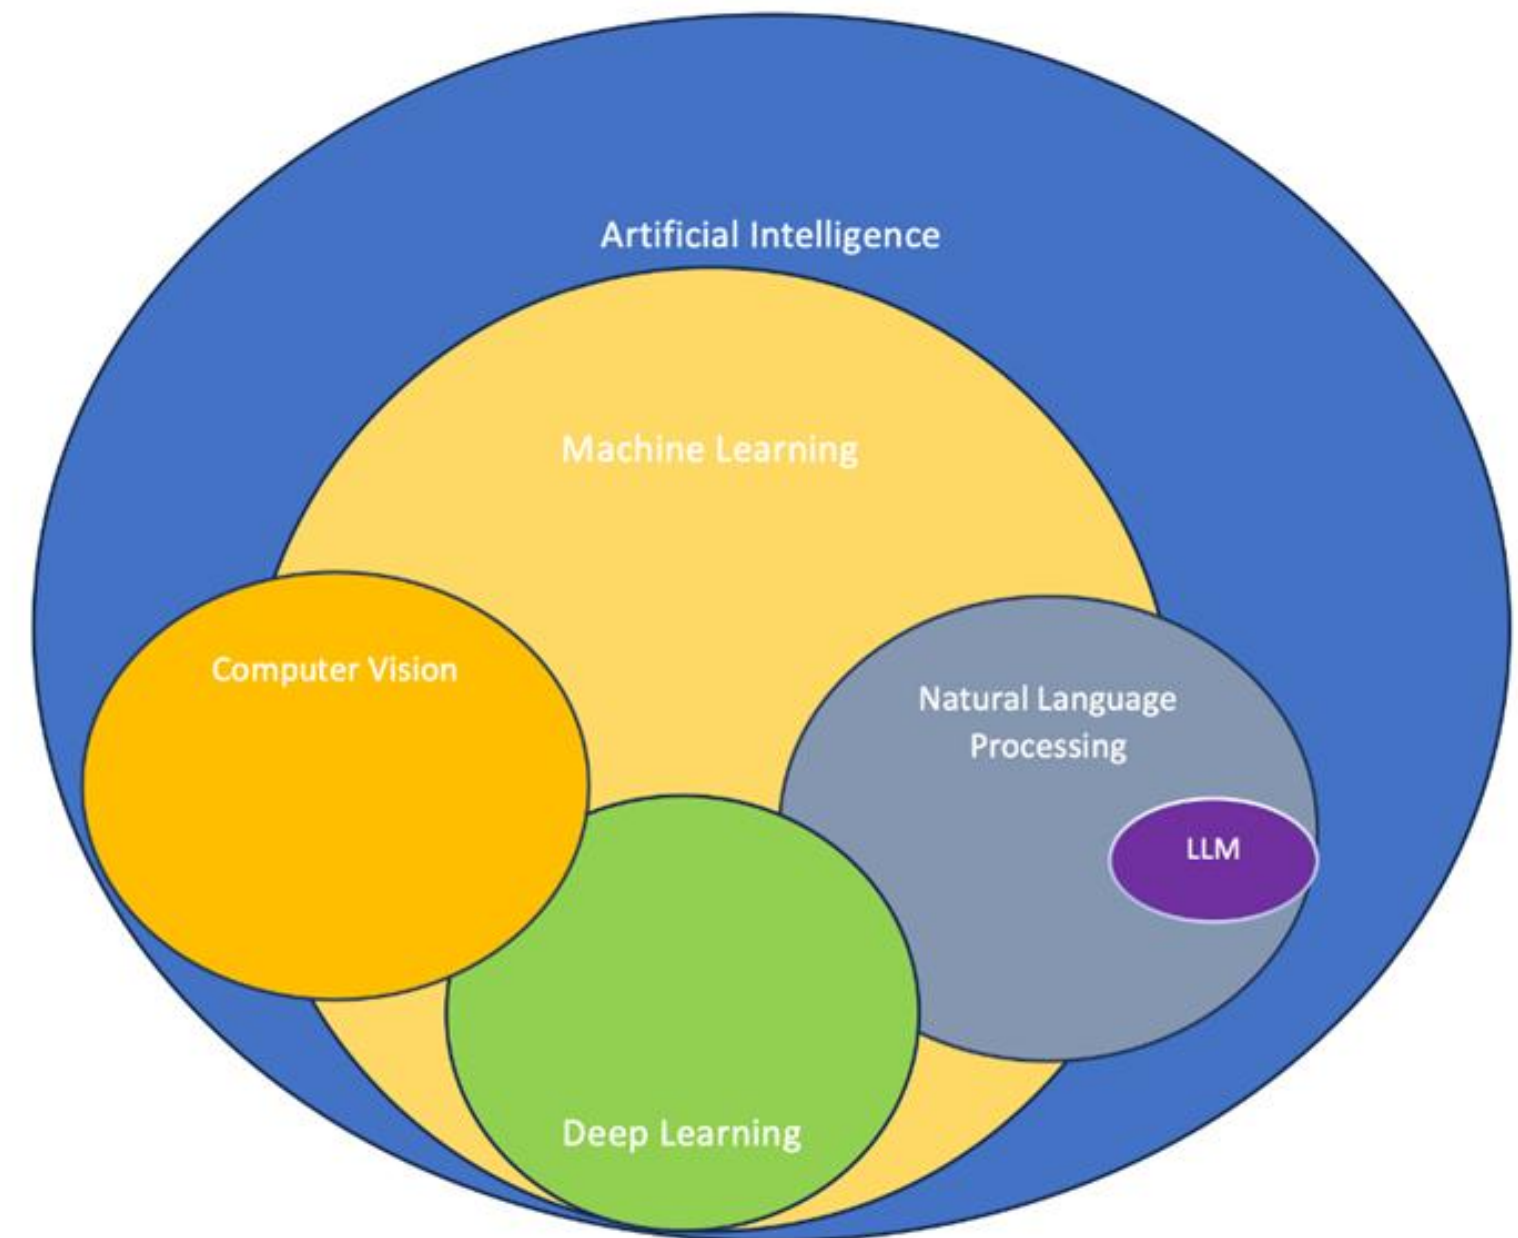

**Natural Language
Processing(NLP):** Making
machines understand and
generate language

Computer Vision: Giving
eyes to the machine

Reinforcement Learning
Learning through Trial and
Error

Difference between Gen AI, LLM and AI Agents

Generative Artificial Intelligence(Gen AI)

- Generates text, images, videos and other media in response to prompts
- multi model AI tools
 - *Example: Gemini, ChatGPT4*

Large Language Models(LLM)

- A specific type of Generative AI model
- Specialized on text-based tasks
 - *Example:LlaMa2*

AI Agents

- Use LLM's to perform task Autonomously
- Makes decisions
- Adaptable and learns from context and interactions

AI Discussion

An abstract graphic in the top right corner consisting of numerous thin, light blue lines that form a complex, wavy, and somewhat circular shape, resembling a stylized wave or a futuristic design. It is set against a dark blue background.A solid red horizontal bar located below the title 'AI Discussion'.

How much do you use and know about AI powered tools?

1. "AI vs. Human Intuition: Where Do We Draw the Line?"
2. "Bias in AI: How Can We Build More Inclusive Technology?"
3. "Everyday AI: Tools You Can Start Using Today to Boost Productivity"

Topics for future

1. Data Strategy
2. Data Governance
3. AI/ML
4. GenAI
5. Data Modelling
6. Cloud/Infrastructure
7. Value Realization
8. Organizing - Roles & Responsibilities
9. Engineering
10. Reporting & Visualization
11. AI OPS/ML OPS
12. Architecture

How To Get Involved

An abstract graphic composed of numerous thin, light blue lines that swirl and curve together, creating a sense of motion and depth. It is located in the top right corner of the dark blue header area.A solid red horizontal bar that spans a portion of the width of the page, located just below the main title.
