

**APPENDIX I**  
**LABORATORY DATA REPORTS**

## ANALYTICAL REPORT

Eurofins Lancaster Laboratories Env, LLC  
2425 New Holland Pike  
Lancaster, PA 17601  
Tel: (717)656-2300

Laboratory Job ID: 410-8826-1

Client Project/Site: 250 Water Street/170381202

For:

Langan Engineering & Environmental Svcs  
360 West 31st Street  
Suite 900  
New York, New York 10001

Attn: Joseph Yanowitz

---

Authorized for release by:

Kay Hower, Principal Project Manager  
(717)556-7364  
[kayhower@eurofinsus.com](mailto:kayhower@eurofinsus.com)

*The test results in this report meet all 2003 NELAC, 2009 TNI, and 2016 TNI requirements for accredited parameters, exceptions are noted in this report. This report may not be reproduced except in full, and with written approval from the laboratory. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.*

*This report has been electronically signed and authorized by the signatory. Electronic signature is intended to be the legally binding equivalent of a traditionally handwritten signature.*

*Results relate only to the items tested and the sample(s) as received by the laboratory.*

Analytical test results meet all requirements of the associated regulatory program (e.g., NELAC (TNI), DoD, and ISO 17025) unless otherwise noted under the individual analysis. Data qualifiers are applied to note exceptions. Noncompliant quality control (QC) is further explained in narrative comments. QC data that exceed the upper limits and are associated with non-detect samples are qualified but no further narration is needed since the bias is high and does not change a non-detect result. Regulated compliance samples (e.g. SDWA, NPDES) must comply with the associated agency requirements/permits.

Measurement uncertainty values, as applicable, are available upon request.

Test results relate only to the sample tested. Clients should be aware that a critical step in a chemical or microbiological analysis is the collection of the sample. Unless the sample analyzed is truly representative of the bulk of material involved, the test results will be meaningless. If you have questions regarding the proper techniques of collecting samples, please contact us. We cannot be held responsible for sample integrity, however, unless sampling has been performed by a member of our staff. Times are local to the area of activity. Parameters listed in the 40 CFR Part 136 Table II as "analyze immediately" and tested in the laboratory are not performed within 15 minutes of collection.

This report shall not be reproduced except in full, without the written approval of the laboratory.

**WARRANTY AND LIMITS OF LIABILITY** - In accepting analytical work, we warrant the accuracy of test results for the sample as submitted. THE FOREGOING EXPRESS WARRANTY IS EXCLUSIVE AND IS GIVEN IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED. WE DISCLAIM ANY OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING A WARRANTY OF FITNESS FOR PARTICULAR PURPOSE AND WARRANTY OF MERCHANTABILITY. IN NO EVENT SHALL EUROFINS LANCASTER LABORATORIES ENVIRONMENTAL, LLC BE LIABLE FOR INDIRECT, SPECIAL, CONSEQUENTIAL, OR INCIDENTAL DAMAGES INCLUDING, BUT NOT LIMITED TO, DAMAGES FOR LOSS OF PROFIT OR GOODWILL REGARDLESS OF (A) THE NEGLIGENCE (EITHER SOLE OR CONCURRENT) OF EUROFINS LANCASTER LABORATORIES ENVIRONMENTAL AND (B) WHETHER EUROFINS LANCASTER LABORATORIES ENVIRONMENTAL HAS BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. We accept no legal responsibility for the purposes for which the client uses the test results. No purchase order or other order for work shall be accepted by Eurofins Lancaster Laboratories Environmental which includes any conditions that vary from the Standard Terms and Conditions, and Eurofins Lancaster Laboratories Environmental hereby objects to any conflicting terms contained in any acceptance or order submitted by client.

## Qualifiers

### Metals

| Qualifier | Qualifier Description                                                                                          |
|-----------|----------------------------------------------------------------------------------------------------------------|
| F1        | MS and/or MSD recovery exceeds control limits.                                                                 |
| F2        | MS/MSD RPD exceeds control limits                                                                              |
| J         | Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value. |

## Glossary

| Abbreviation   | These commonly used abbreviations may or may not be present in this report.                                 |
|----------------|-------------------------------------------------------------------------------------------------------------|
| □              | Listed under the "D" column to designate that the result is reported on a dry weight basis                  |
| %R             | Percent Recovery                                                                                            |
| 1C             | Result is from the primary column on a dual-column method.                                                  |
| 2C             | Result is from the confirmation column on a dual-column method.                                             |
| CFL            | Contains Free Liquid                                                                                        |
| CFU            | Colony Forming Unit                                                                                         |
| CNF            | Contains No Free Liquid                                                                                     |
| DER            | Duplicate Error Ratio (normalized absolute difference)                                                      |
| Dil Fac        | Dilution Factor                                                                                             |
| DL             | Detection Limit (DoD/DOE)                                                                                   |
| DL, RA, RE, IN | Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample |
| DLC            | Decision Level Concentration (Radiochemistry)                                                               |
| EDL            | Estimated Detection Limit (Dioxin)                                                                          |
| LOD            | Limit of Detection (DoD/DOE)                                                                                |
| LOQ            | Limit of Quantitation (DoD/DOE)                                                                             |
| MCL            | EPA recommended "Maximum Contaminant Level"                                                                 |
| MDA            | Minimum Detectable Activity (Radiochemistry)                                                                |
| MDC            | Minimum Detectable Concentration (Radiochemistry)                                                           |
| MDL            | Method Detection Limit                                                                                      |
| ML             | Minimum Level (Dioxin)                                                                                      |
| MPN            | Most Probable Number                                                                                        |
| MQL            | Method Quantitation Limit                                                                                   |
| NC             | Not Calculated                                                                                              |
| ND             | Not Detected at the reporting limit (or MDL or EDL if shown)                                                |
| NEG            | Negative / Absent                                                                                           |
| POS            | Positive / Present                                                                                          |
| PQL            | Practical Quantitation Limit                                                                                |
| PRES           | Presumptive                                                                                                 |
| QC             | Quality Control                                                                                             |
| RER            | Relative Error Ratio (Radiochemistry)                                                                       |
| RL             | Reporting Limit or Requested Limit (Radiochemistry)                                                         |
| RPD            | Relative Percent Difference, a measure of the relative difference between two points                        |
| TEF            | Toxicity Equivalent Factor (Dioxin)                                                                         |
| TEQ            | Toxicity Equivalent Quotient (Dioxin)                                                                       |
| TNTC           | Too Numerous To Count                                                                                       |

## Case Narrative

Client: Langan Engineering & Environmental Svcs  
Project/Site: 250 Water Street/170381202

Job ID: 410-8826-1

**Job ID: 410-8826-1**

**Laboratory: Eurofins Lancaster Laboratories Env, LLC**

### Narrative

#### Job Narrative 410-8826-1

### Comments

No additional comments.

### Receipt

The samples were received on 7/27/2020 9:20 PM; the samples arrived in good condition, and where required, properly preserved and on ice. The temperature of the cooler at receipt was 2.8° C.

### Metals

No analytical or quality issues were noted, other than those described in the Definitions/Glossary page.

## Detection Summary

Client: Langan Engineering & Environmental Svcs  
Project/Site: 250 Water Street/170381202

Job ID: 410-8826-1

### Client Sample ID: SB4R\_0-2

### Lab Sample ID: 410-8826-1

| Analyte | Result | Qualifier | RL | MDL | Unit  | Dil Fac | D | Method | Prep Type |
|---------|--------|-----------|----|-----|-------|---------|---|--------|-----------|
| Mercury | 50     |           | 13 | 5.2 | mg/Kg | 200     | ☼ | 7471B  | Total/NA  |

### Client Sample ID: SB4R\_2-4

### Lab Sample ID: 410-8826-2

| Analyte | Result | Qualifier | RL | MDL | Unit  | Dil Fac | D | Method | Prep Type |
|---------|--------|-----------|----|-----|-------|---------|---|--------|-----------|
| Mercury | 82     |           | 12 | 5.0 | mg/Kg | 200     | ☼ | 7471B  | Total/NA  |

### Client Sample ID: SB4R\_4-6

### Lab Sample ID: 410-8826-3

| Analyte | Result | Qualifier | RL | MDL | Unit  | Dil Fac | D | Method | Prep Type |
|---------|--------|-----------|----|-----|-------|---------|---|--------|-----------|
| Mercury | 51     |           | 12 | 5.0 | mg/Kg | 200     | ☼ | 7471B  | Total/NA  |

### Client Sample ID: SB4R\_6-8

### Lab Sample ID: 410-8826-4

| Analyte | Result | Qualifier | RL  | MDL | Unit  | Dil Fac | D | Method | Prep Type |
|---------|--------|-----------|-----|-----|-------|---------|---|--------|-----------|
| Mercury | 22     |           | 2.8 | 1.2 | mg/Kg | 50      | ☼ | 7471B  | Total/NA  |

### Client Sample ID: SB4R\_10-12

### Lab Sample ID: 410-8826-5

| Analyte | Result | Qualifier | RL | MDL | Unit  | Dil Fac | D | Method | Prep Type |
|---------|--------|-----------|----|-----|-------|---------|---|--------|-----------|
| Mercury | 43     |           | 11 | 4.8 | mg/Kg | 200     | ☼ | 7471B  | Total/NA  |

## Accreditation/Certification Summary

Client: Langan Engineering & Environmental Srvcs  
Project/Site: 250 Water Street/170381202

Job ID: 410-8826-1

### Laboratory: Eurofins Lancaster Laboratories Env, LLC

Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below.

| Authority | Program | Identification Number | Expiration Date |
|-----------|---------|-----------------------|-----------------|
| New York  | NELAP   | 10670                 | 04-01-21        |

The following analytes are included in this report, but the laboratory is not certified by the governing authority. This list may include analytes for which the agency does not offer certification.

| Analysis Method | Prep Method | Matrix | Analyte          |
|-----------------|-------------|--------|------------------|
| Moisture        |             | Solid  | Percent Moisture |

## Method Summary

Client: Langan Engineering & Environmental Svcs

| Question                                                                            | Answer | Comment |
|-------------------------------------------------------------------------------------|--------|---------|
| Radioactivity wasn't checked or is $\leq$ background as measured by a survey meter. | N/A    |         |
| The cooler's custody seal is intact.                                                | True   |         |
| The cooler or samples do not appear to have been compromised or tampered with.      | True   |         |
| Samples were received on ice.                                                       | True   |         |
| Cooler Temperature is acceptable ( $\leq 6^{\circ}\text{C}$ , not frozen).          | True   |         |
| Cooler Temperature is recorded.                                                     | True   |         |
| WV: Container Temperature is acceptable ( $\leq 6^{\circ}\text{C}$ , not frozen).   | N/A    |         |
| WV: Container Temperature is recorded.                                              | N/A    |         |
| COC is present.                                                                     | True   |         |
| COC is filled out in ink and legible.                                               | True   |         |
| COC is filled out with all pertinent information.                                   | True   |         |
| There are no discrepancies between the containers received and the COC.             | True   |         |
| Samples are received within Holding Time (excluding tests with immediate HTs)       | True   |         |
| Sample containers have legible labels.                                              | True   |         |
| Containers are not broken or leaking.                                               | True   |         |
| Sample collection date/times are provided.                                          | True   |         |
| Appropriate sample containers are used.                                             | True   |         |
| Sample bottles are completely filled.                                               | True   |         |
| There is sufficient vol. for all requested analyses.                                | True   |         |
| Multiphasic samples are not present.                                                | True   |         |
| Samples do not require splitting or compositing.                                    | N/A    |         |
| Is the Field Sampler's name present on COC?                                         | True   |         |
| Sample Preservation Verified.                                                       | N/A    |         |
| Residual Chlorine Checked.                                                          | N/A    |         |
| Sample custody seals are intact.                                                    | N/A    |         |

*The test results in this report meet all 2003 NELAC, 2009 TNI, and 2016 TNI requirements for accredited parameters, exceptions are noted in this report. This report may not be reproduced except in full, and with written approval from the laboratory. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.*

*This report has been electronically signed and authorized by the signatory. Electronic signature is intended to be the legally binding equivalent of a traditionally handwritten signature.*

*Results relate only to the items tested and the sample(s) as received by the laboratory.*

Analytical test results meet all requirements of the associated regulatory program (e.g., NELAC (TNI), DoD, and ISO 17025) unless otherwise noted under the individual analysis. Data qualifiers are applied to note exceptions. Noncompliant quality control (QC) is further explained in narrative comments. QC data that exceed the upper limits and are associated with non-detect samples are qualified but no further narration is needed since the bias is high and does not change a non-detect result. Regulated compliance samples (e.g. SDWA, NPDES) must comply with the associated agency requirements/permits.

Measurement uncertainty values, as applicable, are available upon request.

Test results relate only to the sample tested. Clients should be aware that a critical step in a chemical or microbiological analysis is the collection of the sample. Unless the sample analyzed is truly representative of the bulk of material involved, the test results will be meaningless. If you have questions regarding the proper techniques of collecting samples, please contact us. We cannot be held responsible for sample integrity, however, unless sampling has been performed by a member of our staff. Times are local to the area of activity. Parameters listed in the 40 CFR Part 136 Table II as "analyze immediately" and tested in the laboratory are not performed within 15 minutes of collection.

This report shall not be reproduced except in full, without the written approval of the laboratory.

**WARRANTY AND LIMITS OF LIABILITY** - In accepting analytical work, we warrant the accuracy of test results for the sample as submitted. THE FOREGOING EXPRESS WARRANTY IS EXCLUSIVE AND IS GIVEN IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED. WE DISCLAIM ANY OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING A WARRANTY OF FITNESS FOR PARTICULAR PURPOSE AND WARRANTY OF MERCHANTABILITY. IN NO EVENT SHALL EUROFINS LANCASTER LABORATORIES ENVIRONMENTAL, LLC BE LIABLE FOR INDIRECT, SPECIAL, CONSEQUENTIAL, OR INCIDENTAL DAMAGES INCLUDING, BUT NOT LIMITED TO, DAMAGES FOR LOSS OF PROFIT OR GOODWILL REGARDLESS OF (A) THE NEGLIGENCE (EITHER SOLE OR CONCURRENT) OF EUROFINS LANCASTER LABORATORIES ENVIRONMENTAL AND (B) WHETHER EUROFINS LANCASTER LABORATORIES ENVIRONMENTAL HAS BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. We accept no legal responsibility for the purposes for which the client uses the test results. No purchase order or other order for work shall be accepted by Eurofins Lancaster Laboratories Environmental which includes any conditions that vary from the Standard Terms and Conditions, and Eurofins Lancaster Laboratories Environmental hereby objects to any conflicting terms contained in any acceptance or order submitted by client.

Job ID: 410-8828-2

### Glossary

| Abbreviation   | These commonly used abbreviations may or may not be present in this report.                                 |
|----------------|-------------------------------------------------------------------------------------------------------------|
| □              | Listed under the "D" column to designate that the result is reported on a dry weight basis                  |
| %R             | Percent Recovery                                                                                            |
| 1C             | Result is from the primary column on a dual-column method.                                                  |
| 2C             | Result is from the confirmation column on a dual-column method.                                             |
| CFL            | Contains Free Liquid                                                                                        |
| CFU            | Colony Forming Unit                                                                                         |
| CNF            | Contains No Free Liquid                                                                                     |
| DER            | Duplicate Error Ratio (normalized absolute difference)                                                      |
| Dil Fac        | Dilution Factor                                                                                             |
| DL             | Detection Limit (DoD/DOE)                                                                                   |
| DL, RA, RE, IN | Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample |
| DLC            | Decision Level Concentration (Radiochemistry)                                                               |
| EDL            | Estimated Detection Limit (Dioxin)                                                                          |
| LOD            | Limit of Detection (DoD/DOE)                                                                                |
| LOQ            | Limit of Quantitation (DoD/DOE)                                                                             |
| MCL            | EPA recommended "Maximum Contaminant Level"                                                                 |
| MDA            | Minimum Detectable Activity (Radiochemistry)                                                                |
| MDC            | Minimum Detectable Concentration (Radiochemistry)                                                           |
| MDL            | Method Detection Limit                                                                                      |
| ML             | Minimum Level (Dioxin)                                                                                      |
| MPN            | Most Probable Number                                                                                        |
| MQL            | Method Quantitation Limit                                                                                   |
| NC             | Not Calculated                                                                                              |
| ND             | Not Detected at the reporting limit (or MDL or EDL if shown)                                                |
| NEG            | Negative / Absent                                                                                           |
| POS            | Positive / Present                                                                                          |
| PQL            | Practical Quantitation Limit                                                                                |
| PRES           | Presumptive                                                                                                 |
| QC             | Quality Control                                                                                             |
| RER            | Relative Error Ratio (Radiochemistry)                                                                       |
| RL             | Reporting Limit or Requested Limit (Radiochemistry)                                                         |
| RPD            | Relative Percent Difference, a measure of the relative difference between two points                        |
| TEF            | Toxicity Equivalent Factor (Dioxin)                                                                         |
| TEQ            | Toxicity Equivalent Quotient (Dioxin)                                                                       |
| TNTC           | Too Numerous To Count                                                                                       |

## Case Narrative

Client: Langan Engineering & Environmental Svcs  
Project/Site: 250 Water Street/170381202

Job ID: 410-8828-2

---

### Job ID: 410-8828-2

---

Laboratory: Eurofins Lancaster Laboratories Env, LLC

---

#### Narrative

---

#### Job Narrative 410-8828-2

#### Comments

No additional comments.

#### Receipt

The samples were received on 7/27/2020 9:20 PM; the samples arrived in good condition, and where required, properly preserved and on ice. The temperature of the cooler at receipt was 2.8° C.

#### Receipt Exceptions

The container label for the following sample did not match the information listed on the Chain-of-Custody (COC): SB4R\_20-22 (410-8828-1). The container labels list SB42\_20-22, while the COC lists SB4R\_20-22. The client was contacted, and the lab was instructed to enter per COC.

#### Metals

No analytical or quality issues were noted, other than those described in the Definitions/Glossary page.

## Detection Summary

Client: Langan Engineering & Environmental Svcs  
Project/Site: 250 Water Street/170381202

Job ID: 410-8828-2

**Client Sample ID: SB4R\_20-22**

**Lab Sample ID: 410-8828-1**

| Analyte | Result | Qualifier | RL    | MDL   | Unit  | Dil Fac | D | Method | Prep Type |
|---------|--------|-----------|-------|-------|-------|---------|---|--------|-----------|
| Mercury | 0.19   |           | 0.067 | 0.028 | mg/Kg | 1       | ☼ | 7471B  | Total/NA  |

This Detection Summary does not include radiochemical test results.

## Accreditation/Certification Summary

Client: Langan Engineering & Environmental Srvcs  
Project/Site: 250 Water Street/170381202

Job ID: 410-8828-2

### Laboratory: Eurofins Lancaster Laboratories Env, LLC

Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below.

| Authority | Program | Identification Number | Expiration Date |
|-----------|---------|-----------------------|-----------------|
| New York  | NELAP   | 10670                 | 04-01-21        |

The following analytes are included in this report, but the laboratory is not certified by the governing authority. This list may include analytes for which the agency does not offer certification.

| Analysis Method | Prep Method | Matrix | Analyte          |
|-----------------|-------------|--------|------------------|
| Moisture        |             | Solid  | Percent Moisture |
| Moisture        |             | Solid  | Percent Solids   |

| Question                                                                            | Answer | Comment |
|-------------------------------------------------------------------------------------|--------|---------|
| Radioactivity wasn't checked or is $\leq$ background as measured by a survey meter. | N/A    |         |
| The cooler's custody seal is intact.                                                | True   |         |
| The cooler or samples do not appear to have been compromised or tampered with.      | True   |         |
| Samples were received on ice.                                                       | True   |         |
| Cooler Temperature is acceptable ( $\leq 6^{\circ}\text{C}$ , not frozen).          | True   |         |
| Cooler Temperature is recorded.                                                     | True   |         |
| WV: Container Temperature is acceptable ( $\leq 6^{\circ}\text{C}$ , not frozen).   | N/A    |         |
| WV: Container Temperature is recorded.                                              | N/A    |         |
| COC is present.                                                                     | True   |         |
| COC is filled out in ink and legible.                                               | True   |         |
| COC is filled out with all pertinent information.                                   | True   |         |
| There are no discrepancies between the containers received and the COC.             | True   |         |
| Samples are received within Holding Time (excluding tests with immediate HTs)       | True   |         |
| Sample containers have legible labels.                                              | True   |         |
| Containers are not broken or leaking.                                               | True   |         |
| Sample collection date/times are provided.                                          | True   |         |
| Appropriate sample containers are used.                                             | True   |         |
| Sample bottles are completely filled.                                               | True   |         |
| There is sufficient vol. for all requested analyses.                                | True   |         |
| Multiphasic samples are not present.                                                | True   |         |
| Samples do not require splitting or compositing.                                    | N/A    |         |
| Is the Field Sampler's name present on COC?                                         | True   |         |
| Sample Preservation Verified.                                                       | N/A    |         |
| Residual Chlorine Checked.                                                          | N/A    |         |
| Sample custody seals are intact.                                                    | N/A    |         |

## ANALYTICAL REPORT

*The test results in this report meet all 2003 NELAC, 2009 TNI, and 2016 TNI requirements for accredited parameters, exceptions are noted in this report. This report may not be reproduced except in full, and with written approval from the laboratory. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.*

*This report has been electronically signed and authorized by the signatory. Electronic signature is intended to be the legally binding equivalent of a traditionally handwritten signature.*

*Results relate only to the items tested and the sample(s) as received by the laboratory.*

Analytical test results meet all requirements of the associated regulatory program (e.g., NELAC (TNI), DoD, and ISO 17025) unless otherwise noted under the individual analysis. Data qualifiers are applied to note exceptions. Noncompliant quality control (QC) is further explained in narrative comments. QC data that exceed the upper limits and are associated with non-detect samples are qualified but no further narration is needed since the bias is high and does not change a non-detect result. Regulated compliance samples (e.g. SDWA, NPDES) must comply with the associated agency requirements/permits.

Measurement uncertainty values, as applicable, are available upon request.

Test results relate only to the sample tested. Clients should be aware that a critical step in a chemical or microbiological analysis is the collection of the sample. Unless the sample analyzed is truly representative of the bulk of material involved, the test results will be meaningless. If you have questions regarding the proper techniques of collecting samples, please contact us. We cannot be held responsible for sample integrity, however, unless sampling has been performed by a member of our staff. Times are local to the area of activity. Parameters listed in the 40 CFR Part 136 Table II as "analyze immediately" and tested in the laboratory are not performed within 15 minutes of collection.

This report shall not be reproduced except in full, without the written approval of the laboratory.

**WARRANTY AND LIMITS OF LIABILITY** - In accepting analytical work, we warrant the accuracy of test results for the sample as submitted. THE FOREGOING EXPRESS WARRANTY IS EXCLUSIVE AND IS GIVEN IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED. WE DISCLAIM ANY OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING A WARRANTY OF FITNESS FOR PARTICULAR PURPOSE AND WARRANTY OF MERCHANTABILITY. IN NO EVENT SHALL EUROFINS LANCASTER LABORATORIES ENVIRONMENTAL, LLC BE LIABLE FOR INDIRECT, SPECIAL, CONSEQUENTIAL, OR INCIDENTAL DAMAGES INCLUDING, BUT NOT LIMITED TO, DAMAGES FOR LOSS OF PROFIT OR GOODWILL REGARDLESS OF (A) THE NEGLIGENCE (EITHER SOLE OR CONCURRENT) OF EUROFINS LANCASTER LABORATORIES ENVIRONMENTAL AND (B) WHETHER EUROFINS LANCASTER LABORATORIES ENVIRONMENTAL HAS BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. We accept no legal responsibility for the purposes for which the client uses the test results. No purchase order or other order for work shall be accepted by Eurofins Lancaster Laboratories Environmental which includes any conditions that vary from the Standard Terms and Conditions, and Eurofins Lancaster Laboratories Environmental hereby objects to any conflicting terms contained in any acceptance or order submitted by client.

### Qualifiers

#### GC/MS VOA

| Qualifier | Qualifier Description                                                                                          |
|-----------|----------------------------------------------------------------------------------------------------------------|
| J         | Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value. |

#### GC/MS Semi VOA

| Qualifier | Qualifier Description                                                                                          |
|-----------|----------------------------------------------------------------------------------------------------------------|
| *3        | ISTD response or retention time outside acceptable limits.                                                     |
| J         | Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value. |

#### GC Semi VOA

| Qualifier | Qualifier Description                                                                                          |
|-----------|----------------------------------------------------------------------------------------------------------------|
| F1        | MS and/or MSD recovery exceeds control limits.                                                                 |
| F2        | MS/MSD RPD exceeds control limits                                                                              |
| J         | Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value. |
| p         | The %RPD between the primary and confirmation column/detector is >40%. The lower value has been reported.      |
| X         | Surrogate recovery exceeds control limits                                                                      |

#### LCMS

| Qualifier | Qualifier Description                                                                                          |
|-----------|----------------------------------------------------------------------------------------------------------------|
| J         | Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value. |

#### Metals

| Qualifier | Qualifier Description                                                                                                                                     |
|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4         | MS, MSD: The analyte present in the original sample is greater than 4 times the matrix spike concentration; therefore, control limits are not applicable. |
| F2        | MS/MSD RPD exceeds control limits                                                                                                                         |
| F3        | Duplicate RPD exceeds the control limit                                                                                                                   |
| J         | Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.                                            |

### Glossary

| Abbreviation   | These commonly used abbreviations may or may not be present in this report.                                 |
|----------------|-------------------------------------------------------------------------------------------------------------|
| α              | Listed under the "D" column to designate that the result is reported on a dry weight basis                  |
| %R             | Percent Recovery                                                                                            |

Job ID: 410-8939-1

### Job ID: 410-8939-1

#### Laboratory: Eurofins Lancaster Laboratories Env, LLC

#### Narrative

#### Job Narrative 410-8939-1

##### Receipt

The samples were received on 7/28/2020 8:30 PM; the samples arrived in good condition, and where required, properly preserved and on ice. The temperatures of the 6 coolers at receipt time were 1.2° C, 1.2° C, 3.8° C, 3.8° C, 5.5° C and 5.5° C.

##### Receipt Exceptions

The container label for the following sample did not match the information listed on the Chain-of-Custody (COC): SB25\_0-2 (410-8939-7). The container labels list a collection time of 07/2/20 at 12:58, while the COC lists 07/28/20 at 12:50. The sample was entered per COC.

The container label for the following sample did not match the information listed on the Chain-of-Custody (COC): SB4E2\_0-2 (410-8939-27). The container labels list a collection time of 07/2/20 at 12:16, while the COC lists 07/28/20 at 15:16. The sample was entered per COC.

The container label for the following sample did not match the information listed on the Chain-of-Custody (COC): SB4E2\_2-4 (410-8939-28). The container labels list a collection time of 07/2/20 at 12:14, while the COC lists 07/28/20 at 15:14. The sample was entered per COC.

The container label for the following sample did not match the information listed on the Chain-of-Custody (COC): SB4E2\_4-6 (410-8939-29). The container labels list a collection time of 07/2/20 at 12:12, while the COC lists 07/28/20 at 15:12. The sample was entered per COC.

Per client request on 7/29/20 sample SB25\_28-30 was activated for total mercury.

##### GC/MS VOA

No analytical or quality issues were noted, other than those described in the Definitions/Glossary page.

##### GC/MS Semi VOA

Method 8270D SIM: The recovery for the sample internal standard is outside the QC acceptance limits. The following action was taken: The sample was re-analyzed and internal standard areas are again outside of the QC acceptance limits, indicating a matrix effect. The reported data is from the initial analysis of sample SB25\_0-2 (410-8939-1).

No additional analytical or quality issues were noted, other than those described above or in the Definitions/Glossary page.

##### GC Semi VOA

No additional analytical or quality issues were noted, other than those described above or in the Definitions/Glossary page.

##### Metals

No analytical or quality issues were noted, other than those described in the Definitions/Glossary page.

##### LCMS

No analytical or quality issues were noted, other than those described in the Definitions/Glossary page.

##### General Chemistry

No analytical or quality issues were noted, other than those described in the Definitions/Glossary page.

##### Organic Prep

No analytical or quality issues were noted, other than those described in the Definitions/Glossary page.

##### VOA Prep

No analytical or quality issues were noted, other than those described in the Definitions/Glossary page.

## Accreditation/Certification Summary

Client: Langan Engineering & Environmental Svcs  
Project/Site: 250 Water Street/170381202

Job ID: 410-8939-1

### Laboratory: Eurofins Lancaster Laboratories Env, LLC

Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below.

| Authority | Program | Identification Number | Expiration Date |
|-----------|---------|-----------------------|-----------------|
| New York  | NELAP   | 10670                 | 04-01-21        |

The following analytes are included in this report, but the laboratory is not certified by the governing authority. This list may include analytes for which the agency does not offer certification.

| Analysis Method | Prep Method | Matrix | Analyte                               |
|-----------------|-------------|--------|---------------------------------------|
| 537 (Mod)       | 537         | Solid  | 6:2 Fluorotelomer sulfonic acid       |
| 537 (Mod)       | 537         | Solid  | 8:2 Fluorotelomer sulfonic acid       |
| 537 (Mod)       | 537         | Solid  | NEtFOSAA                              |
| 537 (Mod)       | 537         | Solid  | NMeFOSAA                              |
| 537 (Mod)       | 537         | Solid  | Perfluorobutanesulfonic acid          |

| Question                                                                            | Answer | Comment                             |
|-------------------------------------------------------------------------------------|--------|-------------------------------------|
| Radioactivity wasn't checked or is $\leq$ background as measured by a survey meter. | N/A    |                                     |
| The cooler's custody seal is intact.                                                | True   |                                     |
| The cooler or samples do not appear to have been compromised or tampered with.      | True   |                                     |
| Samples were received on ice.                                                       | True   |                                     |
| Cooler Temperature is acceptable ( $\leq 6^{\circ}\text{C}$ , not frozen).          | True   |                                     |
| Cooler Temperature is recorded.                                                     | True   |                                     |
| WV: Container Temperature is acceptable ( $\leq 6^{\circ}\text{C}$ , not frozen).   | N/A    |                                     |
| WV: Container Temperature is recorded.                                              | N/A    |                                     |
| COC is present.                                                                     | True   |                                     |
| COC is filled out in ink and legible.                                               | True   |                                     |
| COC is filled out with all pertinent information.                                   | True   |                                     |
| There are no discrepancies between the containers received and the COC.             | False  | Refer to Job Narrative for details. |
| Samples are received within Holding Time (excluding tests with immediate HTs)       | True   |                                     |
| Sample containers have legible labels.                                              | True   |                                     |
| Containers are not broken or leaking.                                               | True   |                                     |
| Sample collection date/times are provided.                                          | True   |                                     |
| Appropriate sample containers are used.                                             | True   |                                     |
| Sample bottles are completely filled.                                               | True   |                                     |
| There is sufficient vol. for all requested analyses.                                | True   |                                     |
| Multiphasic samples are not present.                                                | True   |                                     |
| Samples do not require splitting or compositing.                                    | N/A    |                                     |
| Is the Field Sampler's name present on COC?                                         | True   |                                     |
| Sample Preservation Verified.                                                       | N/A    |                                     |
| Residual Chlorine Checked.                                                          | N/A    |                                     |
| Sample custody seals are intact.                                                    | True   |                                     |

| Question                                                                            | Answer | Comment |
|-------------------------------------------------------------------------------------|--------|---------|
| Radioactivity wasn't checked or is $\leq$ background as measured by a survey meter. | N/A    |         |
| The cooler's custody seal is intact.                                                | True   |         |
| The cooler or samples do not appear to have been compromised or tampered with.      | True   |         |
| Samples were received on ice.                                                       | True   |         |
| Cooler Temperature is acceptable ( $\leq 6^{\circ}\text{C}$ , not frozen).          | True   |         |
| Cooler Temperature is recorded.                                                     | True   |         |
| WV: Container Temperature is acceptable ( $\leq 6^{\circ}\text{C}$ , not frozen).   | N/A    |         |
| WV: Container Temperature is recorded.                                              | N/A    |         |
| COC is present.                                                                     | True   |         |
| COC is filled out in ink and legible.                                               | True   |         |
| COC is filled out with all pertinent information.                                   | True   |         |
| There are no discrepancies between the containers received and the COC.             | True   |         |
| Samples are received within Holding Time (excluding tests with immediate HTs)       | True   |         |
| Sample containers have legible labels.                                              | True   |         |
| Containers are not broken or leaking.                                               | True   |         |
| Sample collection date/times are provided.                                          | True   |         |
| Appropriate sample containers are used.                                             | True   |         |
| Sample bottles are completely filled.                                               | True   |         |
| There is sufficient vol. for all requested analyses.                                | True   |         |
| Multiphasic samples are not present.                                                | True   |         |
| Samples do not require splitting or compositing.                                    | N/A    |         |
| Is the Field Sampler's name present on COC?                                         | True   |         |
| Sample Preservation Verified.                                                       | N/A    |         |
| Residual Chlorine Checked.                                                          | N/A    |         |
| Sample custody seals are intact.                                                    | N/A    |         |

## ANALYTICAL REPORT

Eurofins Lancaster Laboratories Env, LLC  
2425 New Holland Pike  
Lancaster, PA 17601  
Tel: (717)656-2300

Laboratory Job ID: 410-9062-1

Client Project/Site: 250 Water Street/170381202

For:

Langan Engineering & Environmental Svcs  
360 West 31st Street  
Suite 900  
New York, New York 10001

*The test results in this report meet all 2003 NELAC, 2009 TNI, and 2016 TNI requirements for accredited parameters, exceptions are noted in this report. This report may not be reproduced except in full, and with written approval from the laboratory. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.*

*This report has been electronically signed and authorized by the signatory. Electronic signature is intended to be the legally binding equivalent of a traditionally handwritten signature.*

*Results relate only to the items tested and the sample(s) as received by the laboratory.*

Analytical test results meet all requirements of the associated regulatory program (e.g., NELAC (TNI), DoD, and ISO 17025) unless otherwise noted under the individual analysis. Data qualifiers are applied to note exceptions. Noncompliant quality control (QC) is further explained in narrative comments. QC data that exceed the upper limits and are associated with non-detect samples are qualified but no further narration is needed since the bias is high and does not change a non-detect result. Regulated compliance samples (e.g. SDWA, NPDES) must comply with the associated agency requirements/permits.

Measurement uncertainty values, as applicable, are available upon request.

Test results relate only to the sample tested. Clients should be aware that a critical step in a chemical or microbiological analysis is the collection of the sample. Unless the sample analyzed is truly representative of the bulk of material involved, the test results will be meaningless. If you have questions regarding the proper techniques of collecting samples, please contact us. We cannot be held responsible for sample integrity, however, unless sampling has been performed by a member of our staff. Times are local to the area of activity. Parameters listed in the 40 CFR Part 136 Table II as "analyze immediately" and tested in the laboratory are not performed within 15 minutes of collection.

This report shall not be reproduced except in full, without the written approval of the laboratory.

**WARRANTY AND LIMITS OF LIABILITY** - In accepting analytical work, we warrant the accuracy of test results for the sample as submitted. THE FOREGOING EXPRESS WARRANTY IS EXCLUSIVE AND IS GIVEN IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED. WE DISCLAIM ANY OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING A WARRANTY OF FITNESS FOR PARTICULAR PURPOSE AND WARRANTY OF MERCHANTABILITY. IN NO EVENT SHALL EUROFINS LANCASTER LABORATORIES ENVIRONMENTAL, LLC BE LIABLE FOR INDIRECT, SPECIAL, CONSEQUENTIAL, OR INCIDENTAL DAMAGES INCLUDING, BUT NOT LIMITED TO, DAMAGES FOR LOSS OF PROFIT OR GOODWILL REGARDLESS OF (A) THE NEGLIGENCE (EITHER SOLE OR CONCURRENT) OF EUROFINS LANCASTER LABORATORIES ENVIRONMENTAL AND (B) WHETHER EUROFINS LANCASTER LABORATORIES ENVIRONMENTAL HAS BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. We accept no legal responsibility for the purposes for which the client uses the test results. No purchase order or other order for work shall be accepted by Eurofins Lancaster Laboratories Environmental which includes any conditions that vary from the Standard Terms and Conditions, and Eurofins Lancaster Laboratories Environmental hereby objects to any conflicting terms contained in any acceptance or order submitted by client.

### Qualifiers

#### GC/MS VOA

| Qualifier | Qualifier Description                                                                                          |
|-----------|----------------------------------------------------------------------------------------------------------------|
| *         | LCS or LCSD is outside acceptance limits.                                                                      |
| J         | Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value. |

#### GC/MS Semi VOA

| Qualifier | Qualifier Description                                                                                          |
|-----------|----------------------------------------------------------------------------------------------------------------|
| *3        | ISTD response or retention time outside acceptable limits.                                                     |
| F1        | MS and/or MSD recovery exceeds control limits.                                                                 |
| J         | Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value. |

#### GC Semi VOA

| Qualifier | Qualifier Description                                                                                          |
|-----------|----------------------------------------------------------------------------------------------------------------|
| *         | LCS or LCSD is outside acceptance limits.                                                                      |
| F1        | MS and/or MSD recovery exceeds control limits.                                                                 |
| J         | Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value. |
| p         | The %RPD between the primary and confirmation column/detector is >40%. The lower value has been reported.      |
| X         | Surrogate recovery exceeds control limits                                                                      |

#### LCMS

| Qualifier | Qualifier Description                                                                                          |
|-----------|----------------------------------------------------------------------------------------------------------------|
| J         | Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value. |

#### Metals

| Qualifier | Qualifier Description                                                                                                                                     |
|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4         | MS, MSD: The analyte present in the original sample is greater than 4 times the matrix spike concentration; therefore, control limits are not applicable. |
| F2        | MS/MSD RPD exceeds control limits                                                                                                                         |
| F3        | Duplicate RPD exceeds the control limit                                                                                                                   |
| F5        | Duplicate RPD exceeds limit, and one or both sample results are less than 5 times RL.                                                                     |
| J         | Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.                                            |

#### General Chemistry

| Qualifier | Qualifier Description                     |
|-----------|-------------------------------------------|
| *         | LCS or LCSD is outside acceptance limits. |

### Glossary

| Abbreviation   | These commonly used abbreviations may or may not be present in this report.                                 |
|----------------|-------------------------------------------------------------------------------------------------------------|
| □              | Listed under the "D" column to designate that the result is reported on a dry weight basis                  |
| %R             | Percent Recovery                                                                                            |
| 1C             | Result is from the primary column on a dual-column method.                                                  |
| 2C             | Result is from the confirmation column on a dual-column method.                                             |
| CFL            | Contains Free Liquid                                                                                        |
| CFU            | Colony Forming Unit                                                                                         |
| CNF            | Contains No Free Liquid                                                                                     |
| DER            | Duplicate Error Ratio (normalized absolute difference)                                                      |
| Dil Fac        | Dilution Factor                                                                                             |
| DL             | Detection Limit (DoD/DOE)                                                                                   |
| DL, RA, RE, IN | Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample |
| DLC            | Decision Level Concentration (Radiochemistry)                                                               |
| EDL            | Estimated Detection Limit (Dioxin)                                                                          |

### Glossary (Continued)

| Abbreviation | These commonly used abbreviations may or may not be present in this report.          |
|--------------|--------------------------------------------------------------------------------------|
| MPN          | Most Probable Number                                                                 |
| MQL          | Method Quantitation Limit                                                            |
| NC           | Not Calculated                                                                       |
| ND           | Not Detected at the reporting limit (or MDL or EDL if shown)                         |
| NEG          | Negative / Absent                                                                    |
| POS          | Positive / Present                                                                   |
| PQL          | Practical Quantitation Limit                                                         |
| PRES         | Presumptive                                                                          |
| QC           | Quality Control                                                                      |
| RER          | Relative Error Ratio (Radiochemistry)                                                |
| RL           | Reporting Limit or Requested Limit (Radiochemistry)                                  |
| RPD          | Relative Percent Difference, a measure of the relative difference between two points |
| TEF          | Toxicity Equivalent Factor (Dioxin)                                                  |
| TEQ          | Toxicity Equivalent Quotient (Dioxin)                                                |
| TNTC         | Too Numerous To Count                                                                |

Preliminary Data

## Case Narrative

Client: Langan Engineering & Environmental Svcs  
Project/Site: 250 Water Street/170381202

Job ID: 410-9062-1

### Job ID: 410-9062-1

#### Laboratory: Eurofins Lancaster Laboratories Env, LLC

#### Narrative

#### Job Narrative 410-9062-1

#### Comments

No additional comments.

#### Receipt

The samples were received on 7/29/2020 9:20 PM; the samples arrived in good condition, and where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 0.5° C, 3.5° C and 3.9° C.

#### Receipt Exceptions

The container label for the following sample did not match the information listed on the Chain-of-Custody (COC): MFB03\_072920 (410-9062-35). The container labels list a collection time of 07/29/20 at 12:32, while the COC lists 07/29/20 at 11:32. We have entered per the COC.

The container label for the following sample did not match the information listed on the Chain-of-Custody (COC): MFB04\_072920 (410-9062-36). The container labels list a collection time of 07/29/20 at 12:37, while the COC lists 07/29/20 at 11:37. We have entered per the COC.

The container label for the following sample did not match the information listed on the Chain-of-Custody (COC): MFB05\_072920 (410-9062-37). The container labels list a collection time of 07/29/20 at 12:40, while the COC lists 07/29/20 at 11:40. We have entered per the COC.

The container label for the following sample did not match the information listed on the Chain-of-Custody (COC): MFB06\_072920 (410-9062-38). The container labels list a collection time of 07/29/20 at 12:45, while the COC lists 07/29/20 at 11:45. We have entered per the COC.

The container label for the following sample did not match the information listed on the Chain-of-Custody (COC): MFB07\_072920 (410-9062-39). The container labels list a collection time of 07/29/20 at 12:50, while the COC lists 07/29/20 at 11:50. We have entered per the COC.

The trip blank is marked for all analyses but we only recieved HCl vials so have only entered for VOCs 8260C.

Per client we have entered samples SB4S2-18-19 and SB4S2-22-23 for hexavalent and trivalent chromium.

Per client we have entered samples SB19\_0-2, SB19\_6-8, SB19\_18-20, SB24\_2-2, SB24\_6-8 and SB24\_10-12 for mercury by 7471B.

On the COC samples SB24\_0-2 and SB4W2\_0-2 were marked for MS/MSD but we only received one jar, however triplicate volume was sent for SB24\_2-4 and SB4W2\_2-4. Per client we have entered entered MS/MSD for the samples that we received triplicate volume for (SB24\_2-4 and SB4W2\_2-4 instead of SB24\_0-2 and SB4W2\_0-2).

#### GC/MS VOA

No analytical or quality issues were noted, other than those described in the Definitions/Glossary page.

#### GC/MS Semi VOA

No analytical or quality issues were noted, other than those described in the Definitions/Glossary page.

#### GC Semi VOA

No analytical or quality issues were noted, other than those described in the Definitions/Glossary page.

#### Metals

No analytical or quality issues were noted, other than those described in the Definitions/Glossary page.

#### LCMS

## Case Narrative

Eurofins Lancaster Laboratories Env, LLC

## Surrogate Summary

Client: Langan Engineering & Environmental Svcs  
Project/Site: 250 Water Street/170381202

Job ID: 410-9062-1

### Method: 8260C - Volatile Organic Compounds by GC/MS

Matrix: Solid

Prep Type: Total/NA

| Lab Sample ID    | Client Sample ID       | Percent Surrogate Recovery (Acceptance Limits) |                 |                 |                 |

Eurofins Lancaster Laboratories Env, LLC

## Accreditation/Certification Summary

Client: Langan Engineering & Environmental Svcs  
Project/Site: 250 Water Street/170381202

Job ID: 410-9062-1

### Laboratory: Eurofins Lancaster Laboratories Env, LLC (Continued)

Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below.

| Authority | Program | Identification Number | Expiration Date |
|-----------|---------|-----------------------|-----------------|
| New York  | NELAP   | 10670                 | 04-01-21        |
| Moisture  | Solid   | Percent Moisture      |                 |

| Question                                                                            | Answer | Comment                             |
|-------------------------------------------------------------------------------------|--------|-------------------------------------|
| Radioactivity wasn't checked or is $\leq$ background as measured by a survey meter. | N/A    |                                     |
| The cooler's custody seal is intact.                                                | N/A    |                                     |
| The cooler or samples do not appear to have been compromised or tampered with.      | True   |                                     |
| Samples were received on ice.                                                       | True   |                                     |
| Cooler Temperature is acceptable ( $\leq 6^{\circ}\text{C}$ , not frozen).          | True   |                                     |
| Cooler Temperature is recorded.                                                     | True   |                                     |
| WV: Container Temperature is acceptable ( $\leq 6^{\circ}\text{C}$ , not frozen).   | N/A    |                                     |
| WV: Container Temperature is recorded.                                              | N/A    |                                     |
| COC is present.                                                                     | True   |                                     |
| COC is filled out in ink and legible.                                               | True   |                                     |
| COC is filled out with all pertinent information.                                   | True   |                                     |
| There are no discrepancies between the containers received and the COC.             | False  | Refer to Job Narrative for details. |
| Samples are received within Holding Time (excluding tests with immediate HTs)       | True   |                                     |
| Sample containers have legible labels.                                              | True   |                                     |
| Containers are not broken or leaking.                                               | True   |                                     |
| Sample collection date/times are provided.                                          | True   |                                     |
| Appropriate sample containers are used.                                             | True   |                                     |
| Sample bottles are completely filled.                                               | True   |                                     |
| There is sufficient vol. for all requested analyses.                                | True   |                                     |
| Multiphasic samples are not present.                                                | True   |                                     |
| Samples do not require splitting or compositing.                                    | N/A    |                                     |
| Is the Field Sampler's name present on COC?                                         | True   |                                     |
| Sample Preservation Verified.                                                       | N/A    |                                     |
| Residual Chlorine Checked.                                                          | N/A    |                                     |
| Sample custody seals are intact.                                                    | N/A    |                                     |

## ANALYTICAL REPORT

Eurofins Lancaster Laboratories Env, LLC  
2425 New Holland Pike  
Lancaster, PA 17601  
Tel: (717)656-2300

Laboratory Job ID: 410-9062-1

Client Project/Site: 250 Water Street/170381202

For:

Langan Engineering & Environmental Svcs  
360 West 31st Street  
Suite 900  
New York, New York 10001

*The test results in this report meet all 2003 NELAC, 2009 TNI, and 2016 TNI requirements for accredited parameters, exceptions are noted in this report. This report may not be reproduced except in full, and with written approval from the laboratory. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.*

*This report has been electronically signed and authorized by the signatory. Electronic signature is intended to be the legally binding equivalent of a traditionally handwritten signature.*

*Results relate only to the items tested and the sample(s) as received by the laboratory.*

Analytical test results meet all requirements of the associated regulatory program (e.g., NELAC (TNI), DoD, and ISO 17025) unless otherwise noted under the individual analysis. Data qualifiers are applied to note exceptions. Noncompliant quality control (QC) is further explained in narrative comments. QC data that exceed the upper limits and are associated with non-detect samples are qualified but no further narration is needed since the bias is high and does not change a non-detect result. Regulated compliance samples (e.g. SDWA, NPDES) must comply with the associated agency requirements/permits.

Measurement uncertainty values, as applicable, are available upon request.

Test results relate only to the sample tested. Clients should be aware that a critical step in a chemical or microbiological analysis is the collection of the sample. Unless the sample analyzed is truly representative of the bulk of material involved, the test results will be meaningless. If you have questions regarding the proper techniques of collecting samples, please contact us. We cannot be held responsible for sample integrity, however, unless sampling has been performed by a member of our staff. Times are local to the area of activity. Parameters listed in the 40 CFR Part 136 Table II as "analyze immediately" and tested in the laboratory are not performed within 15 minutes of collection.

This report shall not be reproduced except in full, without the written approval of the laboratory.

**WARRANTY AND LIMITS OF LIABILITY** - In accepting analytical work, we warrant the accuracy of test results for the sample as submitted. THE FOREGOING EXPRESS WARRANTY IS EXCLUSIVE AND IS GIVEN IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED. WE DISCLAIM ANY OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING A WARRANTY OF FITNESS FOR PARTICULAR PURPOSE AND WARRANTY OF MERCHANTABILITY. IN NO EVENT SHALL EUROFINS LANCASTER LABORATORIES ENVIRONMENTAL, LLC BE LIABLE FOR INDIRECT, SPECIAL, CONSEQUENTIAL, OR INCIDENTAL DAMAGES INCLUDING, BUT NOT LIMITED TO, DAMAGES FOR LOSS OF PROFIT OR GOODWILL REGARDLESS OF (A) THE NEGLIGENCE (EITHER SOLE OR CONCURRENT) OF EUROFINS LANCASTER LABORATORIES ENVIRONMENTAL AND (B) WHETHER EUROFINS LANCASTER LABORATORIES ENVIRONMENTAL HAS BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. We accept no legal responsibility for the purposes for which the client uses the test results. No purchase order or other order for work shall be accepted by Eurofins Lancaster Laboratories Environmental which includes any conditions that vary from the Standard Terms and Conditions, and Eurofins Lancaster Laboratories Environmental hereby objects to any conflicting terms contained in any acceptance or order submitted by client.

### Qualifiers

#### GC/MS VOA

| Qualifier | Qualifier Description                                                                                          |
|-----------|----------------------------------------------------------------------------------------------------------------|
| *         | LCS or LCSD is outside acceptance limits.                                                                      |
| J         | Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value. |

#### GC/MS Semi VOA

| Qualifier | Qualifier Description                                                                                          |
|-----------|----------------------------------------------------------------------------------------------------------------|
| *3        | ISTD response or retention time outside acceptable limits.                                                     |
| F1        | MS and/or MSD recovery exceeds control limits.                                                                 |
| J         | Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value. |

#### GC Semi VOA

| Qualifier | Qualifier Description                                                                                          |
|-----------|----------------------------------------------------------------------------------------------------------------|
| *         | LCS or LCSD is outside acceptance limits.                                                                      |
| F1        | MS and/or MSD recovery exceeds control limits.                                                                 |
| J         | Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value. |
| p         | The %RPD between the primary and confirmation column/detector is >40%. The lower value has been reported.      |
| X         | Surrogate recovery exceeds control limits                                                                      |

#### LCMS

| Qualifier | Qualifier Description                                                                                          |
|-----------|----------------------------------------------------------------------------------------------------------------|
| J         | Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value. |

#### Metals

| Qualifier | Qualifier Description                                                                                                                                     |
|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4         | MS, MSD: The analyte present in the original sample is greater than 4 times the matrix spike concentration; therefore, control limits are not applicable. |
| F2        | MS/MSD RPD exceeds control limits                                                                                                                         |
| F3        | Duplicate RPD exceeds the control limit                                                                                                                   |
| F5        | Duplicate RPD exceeds limit, and one or both sample results are less than 5 times RL.                                                                     |
| J         | Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.                                            |

#### General Chemistry

| Qualifier | Qualifier Description                     |
|-----------|-------------------------------------------|
| *         | LCS or LCSD is outside acceptance limits. |

### Glossary

| Abbreviation   | These commonly used abbreviations may or may not be present in this report.                                 |
|----------------|-------------------------------------------------------------------------------------------------------------|
| □              | Listed under the "D" column to designate that the result is reported on a dry weight basis                  |
| %R             | Percent Recovery                                                                                            |

### Glossary (Continued)

| Abbreviation | These commonly used abbreviations may or may not be present in this report.          |
|--------------|--------------------------------------------------------------------------------------|
| MPN          | Most Probable Number                                                                 |
| MQL          | Method Quantitation Limit                                                            |
| NC           | Not Calculated                                                                       |
| ND           | Not Detected at the reporting limit (or MDL or EDL if shown)                         |
| NEG          | Negative / Absent                                                                    |
| POS          | Positive / Present                                                                   |
| PQL          | Practical Quantitation Limit                                                         |
| PRES         | Presumptive                                                                          |
| QC           | Quality Control                                                                      |
| RER          | Relative Error Ratio (Radiochemistry)                                                |
| RL           | Reporting Limit or Requested Limit (Radiochemistry)                                  |
| RPD          | Relative Percent Difference, a measure of the relative difference between two points |
| TEF          | Toxicity Equivalent Factor (Dioxin)                                                  |
| TEQ          | Toxicity Equivalent Quotient (Dioxin)                                                |
| TNTC         | Too Numerous To Count                                                                |

# Case Narrative

Client: Langan Engineering & Environmental Svcs  
Project/Site: 250 Water Street/170381202

Job ID: 410-9062-1

## Job ID: 410-9062-1

### Laboratory: Eurofins Lancaster Laboratories Env, LLC

#### Narrative

#### Job Narrative 410-9062-1

#### Receipt

The samples were received on 7/29/2020 9:20 PM; the samples arrived in good condition, and where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 0.5° C, 3.5° C and 3.9° C.

#### Receipt Exceptions

The container label for the following sample did not match the information listed on the Chain-of-Custody (COC): MFB03\_072920 (410-9062-35). The container labels list a collection time of 07/29/20 at 12:32, while the COC lists 07/29/20 at 11:32. We have entered per the COC.

The container label for the following sample did not match the information listed on the Chain-of-Custody (COC): MFB04\_072920 (410-9062-36). The container labels list a collection time of 07/29/20 at 12:37, while the COC lists 07/29/20 at 11:37. We have entered per the COC.

The container label for the following sample did not match the information listed on the Chain-of-Custody (COC): MFB05\_072920 (410-9062-37). The container labels list a collection time of 07/29/20 at 12:40, while the COC lists 07/29/20 at 11:40. We have entered per the COC.

The container label for the following sample did not match the information listed on the Chain-of-Custody (COC): MFB06\_072920 (410-9062-38). The container labels list a collection time of 07/29/20 at 12:45, while the COC lists 07/29/20 at 11:45. We have entered per the COC.

The container label for the following sample did not match the information listed on the Chain-of-Custody (COC): MFB07\_072920 (410-9062-39). The container labels list a collection time of 07/29/20 at 12:50, while the COC lists 07/29/20 at 11:50. We have entered per the COC.

The trip blank is marked for all analyses but we only recieved HCl vials so have only entered for VOCs 8260C.

Per client we have entered samples SB4S2-18-19 and SB4S2-22-23 for hexavalent and trivalent chromium.

Per client we have entered samples SB19\_0-2, SB19\_6-8, SB19\_18-20, SB24\_2-2, SB24\_6-8 and SB24\_10-12 for mercury by 7471B.

On the COC samples SB24\_0-2 and SB4W2\_0-2 were marked for MS/MSD but we only received one jar, however triplicate volume was sent for SB24\_2-4 and SB4W2\_2-4. Per client we have entered entered MS/MSD for the samples that we received triplicate volume for (SB24\_2-4 and SB4W2\_2-4 instead of SB24\_0-2 and SB4W2\_0-2).

#### GC/MS VOA

Method 8260C: The continuing calibration verification (CCV) associated with batch 410-28413 recovered outside acceptance criteria, low biased, for 2-Butanone. A reporting limit (RL) standard was analyzed, and the target analyte was detected. Since the associated samples were non-detect for this analyte, the data have been reported. The associated sample is: SB24\_6-8 (410-9062-46).

Method 8260C: The continuing calibration verification (CCV) analyzed in 410-28413 was outside the method criteria for the following analyte(s): 2-Butanone. As indicated in the reference method, sample analysis may proceed; however, any detection for the affected analyte(s) is considered estimated. The associated samples are: SB19\_18-20 (410-9062-44), SB24\_0-2 (410-9062-45) and SB24\_10-12 (410-9062-47).

Method 8260C: The following analyte(s) recovered outside control limits for the LCS associated with analytical batch 410-28413: sec-Butylbenzene. This is not indicative of a systematic control problem because these were random marginal exceedances. Qualified results have been reported for the associated samples: SB19\_18-20 (410-9062-44), SB24\_0-2 (410-9062-45), SB24\_6-8 (410-9062-46) and SB24\_10-12 (410-9062-47).

Method 8260C: The continuing calibration verification (CCV) associated with batch 410-28867 recovered outside acceptance criteria, low

## Case Narrative

Client: Langan Engineering & Environmental Svcs  
Project/Site: 250 Water Street/170381202

Job ID: 410-9062-1

### Job ID: 410-9062-1 (Continued)

#### Laboratory: Eurofins Lancaster Laboratories Env, LLC (Conti

biased, for Acetone. A reporting limit (RL) standard was analyzed, and the target analyte was detected. Since the associated samples were non-detect for this analyte, the data have been reported.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/Glossary page.

#### GC/MS Semi VOA

Method 8270D SIM: The GC/MS semivolatile internal standard peak area(s) is outside the QC acceptance limits. The associated matrix spike duplicate sample was analyzed and internal standard peak area(s) is again outside QC limits, indicating a matrix effect. Samples (410-9062-E-42-E MS) and (410-9062-E-42-F MSD)

No additional analytical or quality issues were noted, other than those described above or in the Definitions/Glossary page.

#### GC Semi VOA

Method 8081B: Surrogate recovery for the following sample was outside control limits: SB24\_0-2 (410-9062-45). Evidence of matrix interference is present; therefore, re-extraction and/or re-analysis was not performed.

Method 8082A: Surrogate recovery for the following sample was outside control limits: SB24\_0-2 (410-9062-45). The sample was re-extracted the surrogate is outside control limits indicating matrix interference.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/Glossary page.

#### Metals

No analytical or quality issues were noted, other than those described in the Definitions/Glossary page.

#### LCMS

No analytical or quality issues were noted, other than those described in the Definitions/Glossary page.

#### General Chemistry

Method 9012B: The laboratory control sample (LCS) for preparation batch 410-28321 and analytical batch 410-28538 recovered outside control limit at 86% for the following analytes: Cyanide, Total. The result for sample SB24\_10-12 (410-9062-47) was not detected.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/Glossary page.

#### Organic Prep

No analytical or quality issues were noted, other than those described in the Definitions/Glossary page.

#### VOA Prep

No analytical or quality issues were noted, other than those described in the Definitions/Glossary page.

## Detection Summary

Client: Langan Engineering & Environmental Svcs

Eurofins Lancaster Laboratories Env, LLC

# Surrogate Summary

Client: Langan Engineering & Environmental Svcs  
Project/Site: 250 Water Street/170381202

Job ID: 410-9062-1

## Surrogate Legend

DCB = DCB Decachlorobiphenyl (Surr)

TCX = Tetrachloro-m-xylene (Surr)

## Method: 8082A - Polychlorinated Biphenyls (PCBs) by Gas Chromatography

Matrix: Solid

Prep Type: Total/NA

Project/Site: 250 Water Street/170381202

Job ID: 410-9062-1

## Laboratory: Eurofins Lancaster Laboratories Env, LLC

Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below.

| Authority | Program | Identification Number | Expiration Date |
|-----------|---------|-----------------------|-----------------|
| New York  | NELAP   | 10670                 | 04-01-21        |

The following analytes are included in this report, but the laboratory is not certified by the governing authority. This list may include analytes for which the agency does not offer certification.

| Analysis Method | Prep Method | Matrix | Analyte                               |
|-----------------|-------------|--------|---------------------------------------|
| 537 (Mod)       | 537         | Solid  | 6:2 Fluorotelomer sulfonic acid       |
| 537 (Mod)       | 537         | Solid  | 8:2 Fluorotelomer sulfonic acid       |
| 537 (Mod)       | 537         | Solid  | NEtFOSAA                              |
| 537 (Mod)       | 537         | Solid  | NMeFOSAA                              |
| 537 (Mod)       | 537         | Solid  | Perfluorobutanesulfonic acid          |
| 537 (Mod)       | 537         | Solid  | Perfluorobutanoic acid                |
| 537 (Mod)       | 537         | Solid  | Perfluorodecanesulfonic acid          |
