To Whom It May Concern:

As a licensed CPA, I am aware of the work and dedication it takes, not only to get your CPA license, but maintain the license. The additional education requirements and continuing education help maintain an updated knowledge of accounting practices. I strongly believe the office of Auditor should be held by an experienced licensed CPA.

Chris would make an excellent County Auditor! I have known Chris for over 15 years and have seen him grow professionally and excel in the auditing field. Chris has always shown a great deal of honesty and integrity in all aspects of his life. I strongly recommend him for this position.

Vote for Chris!

Sincerely,

Clinton Ostler, CPA
