

ABOUT ANCHOR LEARNING CENTER

The Anchor Learning Center is a released time Bible education program that offers Christian worldview classes to students at Farragut High School. In order to be legal, classes must be off campus, students must have parental permission, and no tax payer funds can be used. As of last year, Tennessee public school students can now earn up to 3 Christian worldview credits towards a high school diploma through released time programs like ALC. Students can take Intro Old Testament and Intro New Testament classes during the school day thanks to the support of local churches, generous donors, supportive businesses, and events like this golf fundraiser. For more information, visit our website at www.anchorlearning.center or scan the QR Code on the back page.
