UXV 700i UTV

Key Features

Safety

Safety was also a priority in the design of this side-by-side. High-performance brake discs were installed to ensure effective braking and to cut engine power when necessary. This means you can rely on powerful brakes to give you complete control and optimal safety during any off-road environment.

Engine

The UXV 700i EPS side-by-side is equipped with a 695cc single-cylinder, fuel-injected engine, giving it plenty of power and torque. This side-by-side is capable and responsive. Thanks to this readily available Torque, you have a machine very capable of hard work on the farm. The UXV is agile and responsive, offering an exceptional driving experience that takes the stress out of the most challenging working conditions.

Comfort

The UXV is designed with meticulous attention to both equipment and storage. Its efficient suspension smooths out uneven terrain, allowing you to travel in comfort across the most challenging conditions.

Storage

In terms of storage, the UXV stands out. It offers various practical storage spaces, such as a lockable glove box, a central storage compartment, under-hood storage for plenty of tools and a waterproof box under the driver's seat. Plus, a tipping tailgate with a 200kg capacity. This allows you to travel well-equipped and in one load.

Key Features

Gears

The UXV 700i EPS gear selector offers five options, allowing you to handle any situation. You can choose between low range, high range, neutral, reverse, and park, ensuring optimal range and versatility.

Pulling Power

In terms of pulling power, not only does the UXV come with a hitch and electrics as standard. A heavy-duty winch with remote control is also part of the set-up.

Cabs and Heaters

There is a selection of accessories available through our manufacturing partner DFK these include Full or ½ cabs with Heaters and Wipers.

Warranty

Backed up by Kymco UK with a non-declining 2 Year Warranty. Subject to Service and Inspection.
