Fundations® Virtual Launch Workshops (instructor-led) provide the practice and guidance needed to effectively begin teaching the Foundations® curriculum. - Understand the principles of instruction: explicit, sequential, and cumulative instruction that engages multiple learning modalities with multisensory instruction, repetition, and immediate specific feedback.
- Identify and understand the use for all materials in the Foundations Teacher’s Kit, and have a sense of how to find and use the many extended resources available on the Prevention/Early Intervention Learning Community for Foundations ( membership included with participation in this workshop).
