 7. Rules for the use of Thurlby Lake.
 8. Management - Club Open Session.
 9. Covid 19 Operating Procedures
- Annex A – Designated Competent Paddler Criteria.

WELCOME TO LAKESIDE PADDLESPORT CLUB

We are an active canoeing, kayaking and SUP club based at Thurlby Lake on the Lincolnshire Nottinghamshire border, close to Witham St. Hughs. We are a family orientated club offering paddling opportunities across a wide spectrum of paddle sport activity at all levels of ability. The purpose of the Club is to introduce people to paddle sports, offer basic instruction and safety skills for competency and show pathways to the different disciplines. For experienced paddlers, we offer the chance to consolidate skills through river trips in the UK and abroad.

The Club owns a range of canoeing, kayaking and SUP equipment for use by members that offer different paddling experiences and we can provide suitable equipment that will ensure you are safe to paddle, provided it is used correctly. The use of the equipment is linked to paddling opportunities through club open sessions held on Thurlby Lake, coaching courses and trips away from the lake to develop personal skills further. Linked to this, the Club runs the Paddle UK Discover and Explore awards and offers a pathway into coaching and leadership.

As with all clubs there are rules, to ensure that members can operate safely within the Club activities. Paddling in all its forms is an adventurous sport and, as such, brings an element of risk with it. This handbook brings the Club's safety and operating policies together in one place so that you can ensure you paddle safely in partnership with other club members.

The Club Constitution sets out the way the Club operates and the content of this document does not replace or supersede it. The purpose of the handbook is to set out the day-to-day operation of the Club.

Please read through the document so that you are familiar with our community and its necessary safety procedures. Most of all enjoy the Club, facilities and opportunities to the full so that you get the very best experience that paddle sports have to offer everyone.

The Club celebrated 25 years at Thurlby Lake in 2019, demonstrating the commitment of the many club and committee members that have sustained the Club over its lifetime. We thank past and present members for that support.

Happy Paddling and stay safe.

Dave Blair

Chair, Lakeside Paddlesport Club

2. LAKESIDE PADDLESPORT CLUB OPERATING AND SAFETY PROCEDURES

Background

Lakeside Paddlesport Club is affiliated to Paddle UK (PUK), the national governing body for canoeing, kayaking and stand-up paddling in the UK, working under the Sport England umbrella. The Club pays an affiliation fee to PUK which provides comprehensive insurance to paddle sports clubs for all organised paddling activities.

Membership also brings a requirement to manage and run the Club under a strict set of guidelines known as Club Mark, administered by PUK. Re-certification of the Club Mark award is required on a regular basis. Club Mark offers members and visitors the reassurance that club management and the processes they deliver are both safe and bench marked.

Data Protection

The Club shall collect, retain and use only those personal details that are essential to the good administration of the Club. Those details may be kept in data or written form and are safeguarded and protected in accordance with current data protection laws.

Duty of Care

All paddle sports are adventurous activities and as such can carry risk. As a result, the Committee has a duty of care to ensure that all reasonable steps are taken to ensure the safety of any person involved in any activity that the Club is responsible for.

If you have concerns about any aspect of safety within the Club, contact the Chair or any Club Committee member to raise your concerns.

Coaches, River Leaders and Designated Competent Paddlers

The Club will provide a hierarchy of qualified coaches, designated competent paddlers and river leaders in a range of disciplines to offer members skills development. Those staff will operate within codes of practice set by PUK and within the competency authorisations set by the Club's Coaching and Training Co-ordinator. Coaches and leaders will use site specific, generic and dynamic risk assessments when running club events and activities.

In addition to PUK qualified coaches and river leaders, the Club has a number of designated competent paddlers able to lead or coach specific club activities. These are paddlers who have been assessed by the Club's Coaching and Training Co-ordinator to be capable of leading or coaching on specific sites or under specific circumstances. They will be limited to specific sites/activities and each activity will be the subject of a site-specific risk assessment and description of the limit of their remit. A list of these paddlers will be kept by the Coaching and Training Coordinator. Their appointment will be agreed in committee meetings and recorded in minutes.

Coaches, leaders and designated competent paddlers should endeavour to adhere to paddler ratios as set down in the latest version of PUK terms of reference document and club competency authorisations.

Instances may arise whereby these paddler ratios can be exceeded. Each of these instances must be judged on their own specific circumstances. For example, a coaching session may include a greater number of paddlers than recommended,

provided a suitable number of designated competent paddlers are present to directly support the session. This can apply to Club river trips, particularly where paddlers with experience of the river are able to support the leader. These supporting designated competent paddlers must be working under the control of the coach, leader or designated competent paddler who is running the session or leading on the trip and must be briefed on their responsibilities.

River Trips

The Club will periodically arrange river trips. These trips will be led by a qualified river leader (or designated competent paddlers for specific sites). If the number of club members wishing to go on a trip exceeds the PUK ratios, then the Club trip will apply the rule for designated competent paddlers to ensure that as many paddlers as possible can participate. This will ensure the Club complies with PUK insurance requirements. Where there are insufficient river leaders or competent paddlers to provide sufficient safety cover for the whole group the Club trip will be restricted in numbers, with paddlers being able to attend on a "first-come, first-served" basis.

Annex A defines the skill sets and the locations for the application of designated competent paddler award, as set by the Coaching and Training Co-ordinator and approved by the Committee.

Designated Competent Paddlers will be endorsed by the Committee and will sign as having being briefed on their status and the application of the risk assessment criteria.

Promotion of Club Paddling Trips

Club trips will be approved by the Committee and advertised in advance using the Club website and Facebook page. This will afford all members the opportunity to join the trip but will still be subject to personal ability level and the type of water being paddled. The final decision will be the responsibility of the River Leader.

Equipment

The Club Committee is responsible for maintaining the Club equipment which is to be checked annually and at regular intervals by coaches and leaders prior to use in an organised activity or event.

Individual club members borrowing any equipment are to ensure it is safe for use and, where they have doubts or discover damages, are to report said to a committee member who should bring the matter to the attention of the Equipment Co-ordinator. The Club will undertake repairs or replacement (using club funds if necessary) as required.

Club equipment may be loaned to members for personal use on a short-term basis and at the sole discretion of the Committee. Requests to use Club equipment should be made in the first place to the Equipment Co-ordinator.

Private Functions and Parties

The use of the Club and its facilities for private functions by members can be authorised by the Club Committee but are subject to conflicting Club activities. Members guests are to be treated as taster sessions for the purposes of insurance and the responsible member is to ensure water safety cover is provided.

Private Parties by non-members are not authorised.

Emergency Procedures

The Club has a number of safety policies in place that all club members should familiarise themselves with. The Club Committee will monitor and review these policies to ensure that they remain current and relevant.

Written risk assessments are available for sites that the Club regularly uses for organised activities. Generic risk assessments are available to river leaders and coaches when leading trips on other locations. In addition, those responsible for Club activity will undertake a dynamic risk assessment whenever they go to rivers or lakes. All written risk assessments are reviewed at least annually and are available through the Club website.

Against the Elements

The environment in which paddling takes place can have both extremes of cold and heat. It is therefore essential that those participating wear appropriate clothing, either to protect against the cold or cover from the sun. This is especially important for our young people and vulnerable adults.

Coaches and leaders will monitor paddlers before they go on to the water and intervene if they think a paddler is insufficiently protected against the extreme of weather.

Parents of junior members and vulnerable adults also have a clear responsibility in this regard.

Skills Development

The Coaching and Training Co-ordinator is responsible for aiding the personal development of paddlers and produces a programme to assist this policy. In addition, the Coaching and Training Co-ordinator is able to provide advice and information to members on how they can develop their skills through higher level courses and events.

Open Sessions & Membership

The Committee shall organise at least one open session per week, usually on a Sunday, to allow members to enjoy the use of the Club and equipment. This session will also be used to invite non-members to experience the Club with a view to joining as a member.

Such individuals will be allowed up to 4 'Taster Sessions' before making a final decision as to whether they wish to join the Club or not. A range of membership fees and taster session fees shall be set by the Committee.

Membership Fee – Payment by Standing Order

The Committee may authorise individual club members to pay their membership fee via a standing order, which is to be completed in conjunction with the Membership Secretary and forwarded to the individuals bank for payments to be made. Failure to make regular payments via the standing order will be a breach of trust and subject to Club disciplinary procedures. The Membership Secretary is to advise the Treasurer of those that are making payment by standing order and payments are to be monitored to ensure full payment of the membership fee is made.

Use of the Club by Voluntary Organisations and Schools

The Committee is authorised to allow the Club to be used by external voluntary organisations as a way of both raising funds and promoting paddle sports. Schools may be authorised to use the Club, but their activities will be limited to 4 taster sessions per pupil in each calendar year.

Uniformed Youth organisations (ATC, Army Cadets, etc.) may be authorised to use the Club facilities and the Club site for personal development activities. This might take the form of use of the lake on a daily basis, use of the lake and overnight camping and/or use of Club equipment. The charge made for such activities is agreed in advance on a case-by-case basis.

Social Events

PUK Insurance provides cover for paddle related activities including social events supporting or promoting paddle sports and clubs. The Committee is authorised to organise social events when appropriate.

Keys and Opening of Canoe Club

The management of keys and the opening of the Club is the responsibility of the Secretary and the Club Committee. The keys for the Club are to be managed so that there is reduced risk of a security compromise.

Opening of the Club for events and for Club sessions is the responsibility of the Chair and may be delegated to other Committee Members. The keys for the equipment containers are to be stored in the Cupboard in the Club house when the Club is closed for business.

Non-committee Club members may be permitted an external key to allow them to open the main gate. A deposit payment will be required for a key to be issued. The issue of a key to non-committee members is subject to the individual being suitably qualified to paddle alone on the lake. This is usually PUK Explorer Award standard.

Those members issued with keys to the Club are to ensure that they are safe guarded so that there is minimum risk for a security breach. Only the Committee may authorise the cutting of new keys and members are not to make duplicates.

Keyholding members are not permitted to use the Club lake or facilities with non-keyholding members outside of published Club sessions.

Keyholding members are not permitted to use the Club lake or facilities with non-members outside of published Club sessions.

Disciplinary Procedures

In the event of a complaint by one or more Club Members or where Club rules are broken a disciplinary process is available to members and the Committee as defined in the Club Constitution.

Asset Register

The Equipment Co-ordinator is to maintain an Asset Register for the Club to record all Club property. Whenever any new equipment is purchased/received or written off, the Asset Register is to be brought up to date.

Storage of Personal Equipment at the Club

Members are not authorised to store any personal equipment or items on Club

property without the express permission of a Committee member. The Club accepts no liability for the loss of or damage to members property that is stored on Club property.

Photography Policy

Photography and video are sometimes used during Lakeside Paddlesport Club activities. They are generally used for promotional work on social media and on photo boards both in the Club and at events when we promote the club to external visitors. They can also be used for coaching activity.

Coaches and Committee members try to monitor photography within the Club, but as paddling activities take place in public places, the Club cannot be responsible for other people taking photographs, though it will seek an explanation from anyone who seems to be taking a 'more than landscape' interest.

All members are assumed to have consented to the use of the photographs for general promotional work, which will only ever be of group type activity. Before publication of pictures or video with children in them we will try to seek consent of parents, but this may not always be possible. Individual pictures of children will not be used for promotional work without the explicit consent of a parent or guardian.

All members are invited to contact the Chair if they do not wish photographs to be used in this way; the Chair will use all reasonable endeavours to ensure that they do not appear in promotional activity.

Flying of Drones at Lakeside Paddlesport Club

The flying of drones on the Club site is strictly by permission of the Committee. Where permission is granted drone operators are to fly within current UK legislation and are to comply with the following conditions:

- Drone to be licenced in accordance with UK legislation.
- Not fly a drone weighing over 20kg.
- Always keep the drone within their sight.
- Fly below an altitude of 400ft, if your aircraft weighs over 7kg.
- Stay 50m away from people and buildings (excluding Club facilities for take-off and landings only).
- Keep 150m away from crowds and/or built up areas.
- Avoid flying over or with 50m of open areas with more than 1,000 people present.
- Adhere to the local council's rules about drone flights in the area.
- Only fly drones as and when it is safe to do so.
- Take off and land in an area 30m away from buildings and people excluding the operator.

3. CLUB EMERGENCY PROCEDURES – GUIDELINES

The Club is committed to ensuring the safety of its members and their guests. However, paddling is an adventurous activity and an element of risk cannot be avoided. All members and their guests have a responsibility to reduce that risk through common sense application of the Club rules and policies.

In the event of an emergency or an accident happening on the Club facilities the

following guide lines should be followed. It is important to note that these cannot cover every possibility and those present need to remain calm and flexible to deal with the situation that is presented:

- Whether the incident happens on the water or on land the first person to discover the casualty or witness an incident is to attract the attention of other members of the Club and alert them to the situation.
- Clear the area around the incident and casualty immediately ensuring that no other person is put at risk.
- Where there is a casualty, seek the support of any qualified first aider in the area.
- Where there is no first aider support and the incident merits it, seek the assistance of an ambulance by using a mobile phone and dialling 999. The club has a mobile phone that will be available during open sessions on reception. If you do not have a mobile phone at hand, ask anyone in the area if they have immediate access to a phone and have them make the call. Make sure they give a clear location for the emergency services to ensure they can find the Club or group.
- **THE CLUB IS LOCATED AT:**
 - **THURLBY LAKE, BETWEEN WITHAM ST HUGHS AND NORTON DISNEY**
 - **NEAR 'OAKHILL LEISURE'**
 - **LN6 9QG**
- If there are sufficient people to allow it, send someone to the gate to direct the emergency services to the club house or area of the incident.
- There is a first aid kit in the Club house.
- Apply first aid principles to any incident or casualty. Make the area safe for yourself and then apply normal first aid priorities.
- The Chair is to be advised of the incident at the earliest opportunity, who will be responsible for ensuring that the Club complies with the PUK incident reporting procedures, including taking witness statements if required.
- An Accident Book is held in the First Aid Box in the Club House to record all accidents and incidents, no matter how minor. A statement is to be taken from any witness to the accident for use in upward reporting to PUK and for potential insurance claims.

Club Members are advised that in the event of an incident that they are not to discuss the matter with people outside of the Club or add it to any form of social media. Members are not to speak to or contact journalists regarding any incident.

4. LAKESIDE PADDLESPORT CLUB CODE OF CONDUCT

It is the policy of Lakeside Paddlesport Club that all paddlers, volunteers, coaches and parents show respect and understanding for each other and conduct themselves

in a way that reflects the principles of the Club. The aim is for all paddlers to improve performance and have fun. Everyone involved in the Club must abide by the Club Rules and Policies.

The Club Constitution sets out a disciplinary process that may be applied where the Code of Conduct is not adhered to.

Paddlers

- Take care of all property belonging to the Club or Club members.
- Treat other Club members with respect at all times – on the water and off the water; treat other paddlers as you would want to be treated yourself.
- Control tempers and avoid behaviour that may inconvenience or upset others
- Co-operate with and listen to your coach or Club Official.

Club Officials, Coaches and Volunteers

- Consider the well-being and safety of paddlers before the development of performance.
- Develop an appropriate working relationship with paddlers, based on mutual trust and respect.
- Make sure all activities are appropriate to the age, ability and experience of those taking part.
- Display consistently high standards of behaviour and appearance.
- Follow PUK and club guidelines and policies.
- Hold appropriate, updated qualifications and insurance.
- Encourage paddlers to value their performance and not just results.
- Use correct and proper language at all times.
- Never condone the use of prohibited substances.

Parents/Guardians

- Help your child to recognise good performance, not just results.
- Never force your child to take part in sport.
- Never punish or belittle a child for losing or making mistakes.
- Publicly accept official judgements.
- Support your child's involvement and help them enjoy the sport.
- Use correct and proper language at all times.
- Set a good example by applauding all performances of all paddlers regardless of result.
- Be present at all times when your child is taking part in club activity at the lake.

5. JUNIOR CODE OF CONDUCT

All junior members are asked to abide by the following rules at all times:

- Co-operate fully, respecting all requests and decisions made by coaches, helpers officials and administrators.
- Be on time for training sessions and events, or inform the organisers if you

will be late.

- Paddlers must control their tempers and avoid behaviour which may inconvenience or upset others.
- Be considerate and respectful to other paddlers and water users. Treat other paddlers as you would want to be treated.
- Paddlers must wear suitable kit for paddling as agreed with the activity organisers.
- Take care of all property belonging to the Club or any other member and be responsible for caring for your own equipment and clothing.
- Do not leave sessions without permission of the coach or leader.
- Junior members are not allowed to smoke, consume alcohol or drugs of any kind whilst on Club premises or representing the Club at events.
- Do not engage in any form of on-line bullying of other Club members.

6. LAKESIDE PADDLESPOUT CLUB CHILD & VULNERABLE ADULT PROTECTION POLICY

Lakeside Paddlesport Club is fully committed to safeguarding and to the well-being of its members. All members should show respect and understanding for the rights, safety and welfare of others, and conduct themselves in a way that reflects the principles of the Club.

The Club has an appointed Child Protection Officer who will ensure that the Club complies with the PUK Duty of Care – Child Protection and Vulnerable Adult policies and procedures.

We believe that taking part in paddle sports should be a positive and enjoyable part of children's and young adults lives and to achieve this we operate using these principles:

- Club coaches will follow the PUK Child Protection and Harassment Policy. The Club will follow the guidance of the policy in the event of any concerns or allegations.
- The Club will ensure that anyone working with young people undertakes a screening procedure. Staff and volunteers who have substantial unsupervised access to children will be checked through the Disclosure and Barring Service (DBS) procedure. The DBS will be reviewed and renewed every 3 years.
- Coaches, leaders and Competent Paddlers are required to hold a current PUK safeguarding award.
- All Club members are made aware of the Club Code of Conduct.
- The Club will obtain written medical details of all paddlers, which will be made known to coaches/organisers where deemed appropriate and or necessary.
- The Club will only use PUK qualified/updated coaches – unqualified coaches can only work alongside a qualified coach. Unqualified coaches that support coaching activities and club trips will be certified competent by the Club Coaching and Training Co-ordinator and be DBS Cleared. They are also required to hold a current PUK safeguarding award.
- Those under 18 and vulnerable adults may be authorised to take part in a Club organised trip away from Thurlby lake without the presence

of a parent/guardian. The trip is to be discussed in advance with those leading and organising the trip to ensure that a clear understanding of responsibility is agreed. The parent/guardian will also be required to complete and sign a Club consent form authorising the Club to act in loco parentis. When transporting those under 18 and vulnerable adults to and from activities, drivers are to ensure that appropriate safeguarding policy is followed.

- The Club Child Protection Officer should be notified of any concerns about Child Protection and Harassment. If the concerns involve the Welfare Officer the Chair, should be contacted.
- The Child Protection Officer is Sheena Baggaley and she can be contacted by the following methods:
- Email: ncc.cpo@newark-canoe-club.org.uk
- The Chair can be reached by email: ncc.chair@newark-canoe-club.org.uk

7. RULES FOR THE USE OF THURLBY LAKE

Open Sessions *(the term Paddler applies to all types of craft)*

All paddlers are required to sign-in at the registration desk prior to going onto the water and sign off when they leave the water for the final time.

No one is to go on to the water during an open session until the designated 'competent paddler' is on the water, usually indicated by the flying of a green flag. Paddlers are required to wear a buoyancy aid to go on the water.

Paddlers are required to stay within the area defined by the line of floats across the lake. No paddler may travel beyond this line unless they are part of an organised group.

Paddlers are not to use the seal launch ramp without wearing a safety helmet. There must be safety cover in place on the water below the ramp and slide.

Parents and guardians of those under 16 and vulnerable adults should be present throughout the open session, unless prior arrangements have been made with the Committee member present on the day.

Children not paddling are not allowed near the water's edge without a buoyancy aid and no one should go out onto the pontoon without wearing a buoyancy aid.

People are only permitted on the jetty areas if they are wearing a buoyancy aid.

Stand-up paddleboard paddlers may not paddle off from the jetty whilst standing on their boards.

Paddlers are asked to assist with putting away any Club equipment they have borrowed for the session.

Miscellaneous

Members are responsible for their guests and will be subject to the Club's disciplinary code if they or their members act in a manner likely to be of annoyance or danger to other users of the facility.

The Club operates a No Litter policy. All members and guests are responsible for taking their litter home with them.

No Fishing is allowed anywhere on the lake.

No power craft or water skiing are allowed on the lake.

No one is allowed to trade on a commercial basis on the premises.

All dogs must be kept on a lead and any mess is to be cleared by the owner.

Members may camp at the Club with the permission of the Committee.

Non-Open Sessions

Paddlers that are PUK Explorer Award qualified are authorised to paddle on the lake using their own equipment outside of Club Open Sessions, subject to the rules defined in the Club Constitution. Access can be authorised by the issue of a key to the external gate by the Secretary. A deposit payment is required.

Members are reminded that paddling outside of open sessions is not covered by Club insurance and is done solely at their own discretion.

Paddlers are advised to paddle only in groups of a minimum of 3 for safety purposes. In addition, they should dress in appropriate safety clothing, including the wearing of a buoyancy aid.

At the end of the paddle the member is responsible for ensuring that the site is safe and is to secure the gate on exit.

8. MANAGEMENT OF CLUB OPEN SESSION

RECEPTION DESK

The person manning the Reception Desk is the first point of contact to all those that visit the Club. It is an important first opportunity to create a good impression, which can promote a positive experience for existing members and encourage visitors to join the Club. You will need to arrive in good time to have the Club open for the seasonal open sessions as follows:

Summer Season – 14:00 until 16:00

Winter Season – 13:00 until 15:00

Before opening the session, you should:

Open the window shutters, check the toilets and changing facilities to make sure they are tidy enough for use.

Remove the cash box, container keys and Zettle bankcard machine from the store cupboard.

Check the float to ensure it is correct. Any errors should be noted and the Treasurer advised at the earliest opportunity. Record the figure on the visitors check in sheet to allow cash balancing at the end of the session.

Turn on the Zettle machine and the mobile phone and make sure they are connected to the Zettle app to allow you to take contactless payments.

Start of Open Session:

Make sure all those that go on the water sign-on and, where applicable, pay the relevant fee:

- For using club equipment.
- For those doing a taster session.

For those that are taking a taster session you will need to carry out the following:

Show them the location of the toilets and changing facilities.

Explain that they can have up to 4 taster sessions with the club before they must choose whether they will become a member or not.

Give them the letter and application form for a Taster Session to complete. Direct their attention to the details of the cost of being a member that are shown on the application for membership.

Have them complete the Taster Session application form, ensuring that they fill in details of any known medical conditions. If they do list conditions, it is important to establish that the responsible adult is aware of the physical demands of paddling and accepts the associated risk. When in doubt seek advice from the senior coach present at the club regarding fitness to paddle.

Hand them over for a taster session to the kit person for the induction training, ensuring that any medical conditions are advised to the kit person so that he can advise the water safety person. Retain the application form in the office for filing at the end of the session.

Taster Session Application forms are to be stored on the desk with other forms until the person completes 4 taster sessions or becomes a member, when it is to be stored in the store cupboard.

Ensure that all monies under your control are secure at all times. You are to issue a receipt for any monies or cheques handed to you other than for weekly fee or taster session, including membership fees. When there is a quiet time during the open session charge the mobile phone and Zettle machine if required.

Issue blank membership and renewal forms if requested from the forms folder.

If there are any accidents or incidents ensure that they are recorded in the accident book and complete an incident report form, located in the first aid, box and report them to the Chair at the earliest possible opportunity.

At the end of the Open Session:

Ensure all paddlers have signed off the water and there is no one unaccounted for.

Balance off the signing on sheet with the cash box and secure with the signing on sheet where the Treasurer can find them. Any new or renewal membership forms are to be stored in the membership form folder in the store cupboard for access by the Membership Sec.

Check the Club House to ensure there are no personal belongings or rubbish left

behind.

Close and secure the window shutters

Secure Storage container keys in the store cupboard.

Secure the building.

Secure the main gate on departure.

Post Session:

Advise the Secretary by email if there is a shortage of blank forms or signing-on sheets.

Advise the Chair if there is a shortage of consumables including toilet rolls.

Bring to the attention of the Chair any issues or problems that arose during the session. Use email unless it has been emergency. In the latter case, the Committee WhatsApp group is the most efficient means of contact.

Kit Issue

The task is an important part of the welcoming process and safety system for the Club and a good experience for those new to the Club is essential to promote new memberships. For those that are existing members you should encourage them to find their own kit but monitor them to ensure that they have appropriate size and fitting before allowing them to go on to the water. Your duty includes:

Prior to the session starting:

Arrive in good time to enable you to open the containers prior to the start time of the open session, which will be:

Summer Time – 14:00 until 16:00
Winter Time – 13:00 until 15:00

In tandem with the Competent Paddler check the pontoon, ramp and walk ways for hazards to paddlers or bank-based visitors. Check particularly for the risk of slipping and use anti slip mats if appropriate.

Pump up the SUP boards to their operating pressure.

If appropriate for the session, set out the green matting on the bank ramp for use by members

During Open Session:

Existing members:

Ensure equipment they loan is fitted to their size following guides stored in the container.

Taster Sessions:

Check that the guest has declared any medical conditions, confirm those that are going on to the water and check to ensure they have suitable clothing for both paddling and weather conditions. Check that they have warm clothing/ additional

clothing to change into after paddling. If you have doubts that the clothing is suitable consult the senior coach present on the day to determine if the taster session should be suspended.

Issue BA, Paddle and craft type and demonstrate correct fitting for each item of equipment. Guides for this are located in the container.

Give land based paddle training, which must include:

- Appropriate method to get in/on and out/off of the craft safely.
- How to hold the paddle and paddling technique to aid moving the craft in a forward direction.
- Escape principles in the event of a capsize including banging 3 times on the bottom of the boat to attract attention.
- How to carry the craft safely to the water.

Before allowing the individual(s) on the water attract the attention of one of the water safety paddlers and hand them on for introductory training, passing on any information about declared medical conditions.

Post session:

Ensure all kit is returned to the storage container.

Release the air pressure on SUP Boards before storing in the container.

Return the green mat to the storage container from the slide area.

Check the bank area around the pontoon to ensure no kit or debris has been left out.

Secure all 3 containers and return keys to the store cupboard in the cabin.

Bring to the attention of the Chair any issues or problems that arose during the session. Use email unless it has been emergency. In the latter case, the Committee WhatsApp group is the most efficient means of contact.

Competent Paddler(s)

Water Safety is not a dedicated coaching role and can be undertaken by any designated competent paddler certified to the role by the Club Coaching and Training Co-ordinator. As a result, the normal ratio for coaching determined by PUK will not be applied as you are required to monitor safety rather than control the group.

Your role requires that you provide safety cover to paddlers operating within the Club's operating area marked by the roped off area.

You may offer coaching tips and guidance for paddlers when requested. The role also offers the opportunity to enrich the paddlers experience through games and activities should you wish to do so.

You will need to make dynamic risk assessments regarding numbers of paddlers and their safety set against the sheltered water status that the lake enjoys.

A priority will be to identify those novice paddlers that are at risk of capsizing and ensuring that they remain within your paddling reach in order to be able to effect a speedy rescue if required.

Where you are able to co-opt other competent paddlers to your support you may delegate the responsibility for support and rescue to allow groups to disperse further across the club paddle area.

Taster Sessions:

When those undertaking a taster session are handed on to you for initial water based experience you should give an introduction to paddling techniques and escape and rescue practices. It is not necessary to hold them under your control for the whole period they are on the water but regular monitoring should be undertaken. Check if there are any medical conditions you should be aware of.

Prior to the session:

Arrive in good time to enable you to prepare for the session which will operate as follows:

In summer time –	14:00 until 16:00
In winter time –	13:00 until 15:00

In addition, you must:

- Check the area around the pontoon, bank and ramp for hazards to paddlers and bank-based visitors. Check particularly for slip hazards on walkways and use anti slip mats if required.
- If appropriate for the session, help set out the green mat for the bank ramp.
- Check the lake for risks posed by algae and weeds and decide what, if any, impact this will have on the open session. Where you have a concern, you should consult the senior coach present at the Club to discuss the issue.
- Just before going onto the water, put up the green flag.
- Dress in appropriate safety equipment for paddling including wearing of the water safety arm band to identify you to paddlers.

During Session:

Monitor on-water paddlers for water safety and offer technique advice on request. Initiate games and activities if appropriate.

If there is a serious accident or incident you should close the session and get all paddlers off the water to allow you to deal with it, unless you are able to hand over to another competent paddler to continue the session and it is safe to do so.

For requests to use the ramp or slide, ensure that the individuals put on a safety helmet for use of the ramp, and check to see if they have been used the facilities before. When that is not the case ensure that they are given bank-based training and monitored on the ramp/slide by a qualified coach or an experienced club

member. Provide safety cover below the ramp/slide. This task can be delegated to experienced club members or coaches when available.

Come to the immediate aid of paddlers that capsize and follow first aid protocols when necessary.

At the appropriate time instruct paddlers that the session is ending and direct them off the water.

Post Session:

Visually check all paddlers are off the water and take down the green flag. Store both flags in the boat container.

Ensure all kit has been returned to the storage containers.

Check the bank for equipment and debris that might create a hazard, including that the green mat has been returned to the container.

Check the signing-on register to ensure that all paddlers have signed off and are confirmed as off the water.

Bring to the attention of the Chair any issues or problems that arose during the session. Use email unless it has been emergency. In the latter case, the Committee WhatsApp group is the most efficient means of contact.

Taking Groups Around The Lake

Paddlers may only travel outside of the area defined by the float line as part of a group led by a Club Competent Paddler. We will try to organise one trip around the lake per session.

As a minimum, the Competent Paddler leading the group will:

- Be Paddlesport Instructor/Paddlesport Leader qualified;
- Be Fundamentals of Safety and Rescue (FSRT)/Paddlesport Safety and Rescue (PSR) qualified;
- Be First Aid qualified;
- Hold valid PUK Safeguarding accreditation.

The Competent Paddler is required to carry with them, as a minimum, a first aid kit and one of the Club radios

ANNEX A

DESIGNATED COMPETENT PADDLER CRITERIA

Activities on Thurlby Lake

Activities:

- Running basic skills sessions.
- Supporting coaches during coaching sessions.
- Leading trips around the lake.

- Water safety Person during club sessions and open weekend events.

Minimum Individual criteria:

- Paddlesport Instructor.
- FRST/PSR qualified.
- Competent and experienced paddling Grade 2 water.
- Experienced paddling on Thurlby Lake in a variety of conditions.
- Familiar with the site-specific risk assessment.
- First Aid trained.
- Safeguarding Trained.

Limits to Remit:

- No more than six paddlers under their control if running a skills session alone.
- No more than six paddlers under their control if leading a trip around the lake alone.

Activities on Newark Weir and Farndon Weir

Activities:

- Basic skills sessions.

Individual criteria:

- WWSR trained.
- Competent and experienced paddling Grade 3 water.
- Experience of paddling the weir.
- Familiar with the site-specific risk assessment.
- First Aid trained.
- Safeguarding Training.

Limits to Remit:

- Newark weir not to be paddled at above 1.6m on the Trent level gauge at Colwick.
- Maximum of three paddlers under their direct control.
- The Chute on river left of Farndon Weir is not in remit.

River Witham Trip

Activities:

- River trip.

Individual criteria:

- FRST/PSR qualified.
- Competent and experienced paddling Grade 2 water.
- Experience of paddling the River Witham.
- Familiar with the site-specific risk assessment.
- First Aid trained.
- Safeguarding Training.

Limits to Remit:

- Sections which meet the PUK definition of Sheltered Inland Water.
- Not to be paddled under spate conditions.
- Maximum of four paddlers under their direct control.
- No weirs to be paddled if they are potentially retentive or considered dangerous due to conditions on the day.

River Trent Trip**Activities:**

- River trip.

Individual criteria:

- FRST/PSR qualified.
- Competent and experienced paddling Grade 2 water.
- Experience of paddling the section proposed for the trip.
- Familiar with the site-specific risk assessment.
- First Aid trained.
- Safeguarding Training.

Limits to Remit:

- Sections which meet the PUK definition of Sheltered Inland Water only.
- Not to be paddled above 2.0m on the level gauge at Colwick.
- Maximum of four paddlers under their direct control.
- No weirs to be paddled if they are potentially retentive or considered dangerous due to conditions on the day.

River Idle Trip**Activities:**

- River trip.

Individual criteria:

- FRST/PSR qualified.
- Competent and experienced paddling Grade 2 water.
- Experience of paddling the River Idle.
- Familiar with the site-specific risk assessment.
- First Aid trained.
- Safeguarding Training.

Limits to Remit:

- Sections which meet the PUK definition of Sheltered Inland Water.
- Not to be paddled under spate conditions.
- Maximum of four paddlers under their direct control.
- No weirs to be paddled if they are potentially retentive or considered dangerous due to conditions on the day.

Supporting River Trips

Activities:

- Supporting PUK qualified River Leaders and Coaches leading river trips, to enable PUK guidelines for paddler ratios to be extended (if it is safe to do so).

Individual criteria:

- WWSR equivalent training.
- Competent and experienced paddling Grade 3 water.
- Skills to enable competent paddling of the section of river being paddled on the trip.
- First Aid trained.
- Safeguarding Training.

Limits to Remit:

- To effectively support a river trip, the paddler must be competent to paddle the section of river being paddled on the trip.
- Cannot lead unless a site-specific risk assessment is carried out.
- To support a trip which is not on a specific site mentioned above, the paddler can only support a PUK qualified coach or river leader, not another designated competent paddler.
