

Become a Professional Interpreter - Work remotely from any Location! We offer Bridging the Gap®/BTG 40 & 64 hour Medical Interpreting Courses taught online by a Registered Nurse & Interpreter Expert.

The Cross Cultural Health Care Program course has been recognized as the "Gold Standard" in professional (medical) interpreting since 1992 when the Kellogg Foundation invested into the "Bridging The Gap" program. Our Limited English Proficient refugees and professionals mutually benefit from linguists holding this valued certificate: *good for a lifetime!*

The unique, new (2017) 64-hour *expanded practice* course includes the theory of the 40-hour basic medical course. The 64 extras can be found in no other certificate program: in-depth ethics, proper advocacy, and the currently centric topics of national concern: cultural, healthcare inclusion/disparity issues with specific management implications for interpreters. Behavioral Health (substance abuse & mental health) is a major focus.

Investment into this course prepares the enthusiastic linguist to succeed in passing both the newly required Certified Medical Interpreter exam and to thrive in daily practice as a professional (medical) interpreter.

*Instructor: Carolina Weaver RN, BSN
Psychiatric Nurse Specialist*

"Ms. Weaver has a treasure of experience positioning her to best coach students and frame the information of the course in a way for optimal learning, retention of the important information students need to know for real life situations and the CMI test that few others can offer."

She has worked as an interpreter, nurse case manager and managed an award winning language service agency for 18 years. Her experience in the Workers' Compensation Industry adds another layer to the wealth of knowledge students benefit from by this highly regarded instructor.

Additional areas of expertise: corrections, health & human services, K-12 education, behavioral health at all levels: community to Intensive Care. Substance abuse, recovery, emergency, OB/GYN, physical & mental health rehabilitation, legal, medical/surgical and administrative (court).

"You prepared us well, Carolina! I passed [National CCHI exam] easily, with a high score. I wanted to thank you for teaching us well. There were a lot of tricky ethics questions on there."

-J.G., student from January 2020 " It was interactive and fun!" - M. S., student from March 2021
