## What is LightStim?

LightStim delivers light energy in a similar way plants absorb light energy from the sun. Each LightStim device uses different wavelengths, or colors of light. LightStim for Wrinkles provides rejuvenating wavelengths of light energy to treat fine lines and wrinkles. Over time by using your Light you can help to recapture a plump, youthful appearance.

## Professional Strength

LightStim LED light therapy devices have been used and recommended by medical spas, estheticians, dermatologists, plastic surgeons, and their clients for 20 years. Now you can experience the same professional strength treatment at home.

## FDA Cleared

LightStim for Wrinkles is FDA Cleared to treat wrinkles on the entire face. You can treat your forehead, crow's feet, cheeks, nasal labial folds, jawline and even your lips.

## Clinically Proven Results

In FDA clinical studies, 100% of participants were shown to have significant improvement in their fine lines and wrinkles in just 8 weeks.

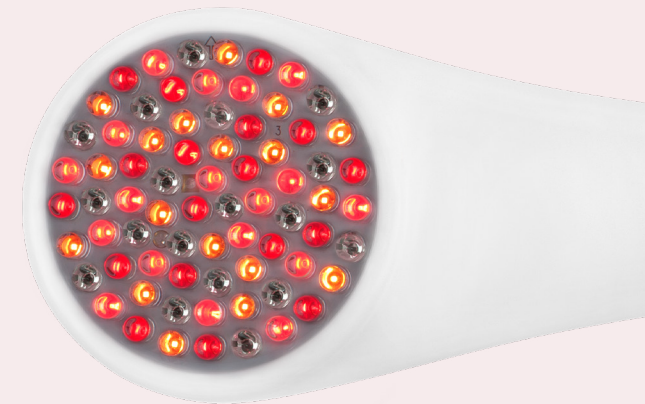

## Designed to Last a Lifetime

Manufactured in the USA at the LightStim Medical Device-Certified Headquarters. Maintenance free. No cartridges, LED or battery replacement costs. Five-year warranty. LightStim for Wrinkles comes with a 90-Day 100% Satisfaction Guarantee.

## LEDs are Therapeutic

LED stands for Light Emitting Diode, which is a tiny computer chip encased in glass. Each LED wavelength (color) of light provides unique therapeutic benefits. LED is non-invasive, painless and requires no recovery time. This Light is good for all skin types and is engineered to emit a soothing gentle warmth. LightStim for Wrinkles utilizes wavelengths of Amber, Light Red, Dark Red and Infrared with a total of 72 LEDs.

- Amber 605nm
- Light Red 630nm
- Dark Red 660nm
- Infrared 855nm

## LightStim MultiWave® Patented Technology

LightStim has advanced NASA's LED technology to a new level, developing LightStim MultiWave® Patented Technology to simultaneously emit multiple wavelengths (colors) of light. These wavelengths of light work together to give your skin a more radiant and youthful appearance.
