

# Implementation and enforcement of EU deforestation regulation

## Objectives

- Effective and efficient Implementation/ Enforcement of EU Deforestation regulation (EUDR) and upcoming Corporate sustainability due diligence directive (CSDDD)
- Companies take the necessary steps towards transparent supply chains without destruction of nature and human rights violations
- Actual reduction of deforestation and conversion, positive impact on biodiversity, climate protection and human rights situation in Indonesia
- Extension of the legal framework (EUDR and CSDDD): inclusion of other ecosystems and products, CSDDD to include biodiv aspects
- Access to Justice for affected people in Indonesia / enforcement of Indonesian environmental, human and land rights.

## Measures

- Investigative research/documentation and unveiling of violations in European supply chains (IND/DE)
- Campaign and communication work towards companies that break the law (DE)
- Transmission of complaints to the responsible authorities/ Consideration of legal action (DE/IND)
- Advocacy work: Implementation, enforcement and extension of the legal framework in the EU and Germany (EUDR, CSDDD) (DE, EU)
- Conducting civil actions or lawsuits against companies or authorities => Strategic litigation (DE)

## Interim goals/timeline

- Checking competent authorities are fit for purpose (year 1)
- Establishing digital whistleblower structures and monitoring systems for deforestation, land rights, and human rights violations in Indonesia (year 1&2)
- Revelation of violations by EU companies (year 1-5)
- Consideration of legal action (based on German supply chain law) (year 1-2)
- Transmission of substantiated indications to the authorities. (year 1-5)
- Monitoring of enforcement, controls and sanctions (Year 2-5)
- Consideration of actions against authorities or civil actions against companies (based on EUDR and or CSDDD) (year 3-5)
