

TRACTOR MOUNTED REAPER

MODEL-FRONT MOUNTED THREE CONVEYOR BELT

GENERAL DESCRIPTION

Our Tractor Mounted Reaper Machine can harvest the crops like wheat, paddy, sesames, soybeans etc, from 1.5"-2" from the ground level and keeps the crop in a straight line on the right hand side and there is no difficulty in collecting the crop. The grain side of the crop is on one hand where the straw side is on the other side. The harvesting of crop is much perfect as compared with manually. It can harvest 10-15 acres per day and is suitable for all tractors, but attachment for different models of tractor is different.
