

## CETS LANE SC REGION-1 (10 COUNTY) MARKET PROFILE

---

### **WILLIAMSBURG COUNTY - \$2.5 Million in Revenue from Waste to Energy Fees**

*Solid Waste Recycling/Environmental Management – 69 Tons Per Day; 20 Waste Drop-Off Sites*

Our main goal is providing citizens a convenient way of recycling and solid waste collection. One of the highest priorities in recent years in Williamsburg County has been the construction and development of 20 recycling sites to replace the old 'green boxes' as well as the establishment of a serious recycling effort. The Solid Waste department operates 4 roll-off trucks to maintain solid waste collection at the recycling centers.

Location: 236 County Camp Road, Kingstree, SC 29556, Phone: (843)355-8900

- Zella Major, Executive Director of Public Works, Zella.Major@wc.sc.gov
- Antonio Hammond, Director of Landfill and Recycling, Antonio.Hammond@wc.sc.gov
- Ricky Scott, Director of Roads, Bridges and Solid Waste, Ricky.Scott@wc.sc.gov

### *Economic Development - Sustainable Manufacturing*

The economy of Williamsburg County, SC employs 11.4k people. The largest industries in Williamsburg County, SC are Manufacturing (2,216 people), Health Care & Social Assistance (1,698 people), and Retail Trade (1,306 people), and the highest paying industries are Professional, Scientific, & Technical Services (\$86,429), Information (\$51,581), and Utilities (\$40,625).

Median household income in Williamsburg County, SC is \$30,976. Males in Williamsburg County, SC have an average income that is 1.37 times higher than the average income of females, which is \$40,985. The income inequality in Williamsburg County, SC (measured using the Gini index) is 0.46, which is lower than the national average.

According to the U.S. Department of Commerce, sustainable manufacturing will be an important driver of global efforts to tackle climate change and create a healthier environment. Examples of sustainable manufacturing include the production of energy efficient appliances, the production of components used for alternative energy generation, the utilization of recycled materials in manufacturing processes to reduce demand on natural resources, and production of sustainable building products.

- Industrial Ambassadors: Companies located in Williamsburg County that may be classified as engaged sustainable manufacturing include, but not limited to: ArguAmerica in Andrews, which manufactures thermoplastic liners for environmental waste containment; Bamboosa in Andrews, which makes organic clothing and home products from bamboo fiber; Nan Ya Plastics Corp. America, which is partially located in Williamsburg County and manufactures polyester filament, fiber, and chip; and WasteZero Inc. in Hemingway, which manufactures recyclable plastic bags.
- Williamsburg County Advantages: Employment at such companies is projected to increase 15.6 percent between 2012 and 2017. Williamsburg Technical College offers Associate of Art and Associate of Science degrees for student intending to Drop-Off to a four-year university program. The college also offers Associate of Applied Science and Certificate programs in areas that may support manufacturing jobs including Construction Trades, Drafting and Design and expanding industries to train worker and can provide customized training.

## **BERKELEY COUNTY - \$7.5 Million in Revenue from Waste to Energy Fees**
