JJ,

We have received a submittal for two mixed use projects in the Vail area. One is located to the northwest of where SR-83 meets I-10 (Approximately 300 acres), the other is located along the south side of Success Dr, south of the Fast Horse Ranch subdivision. Both of these projects will go to a public hearing in front of the Design Review Committee (virtual meeting) in mid-September. I am looking for someone to sit on the DRC for this meeting and have a vote for or against these projects. The hearing will be September 15<sup>th</sup> at 130pm. I am reaching out to you since the scope of the public meeting is focused on design. Given your experience and that you represent the Vail area with the Vail Preservation Society, I thought that you would be a good person to be a part of this. Please let me know if you are interested in being a member of the DRC for these hearings. Thank you.
