Tiebreaker Explained				Tiebreaker Explained	Scenarios		
Three-Team Tie Goes beyond Two-Team Tiebreakers down to (K)				A: H2H (Rogers and Clements split H2H)	Central (playoffs): Win out		
K: highest win pctg vs the tied teams (all three are 1-1 in area games)				B: H2H non-area games (G3) (Clements won G3)	Brooks (playoffs): Central loss		
*G3 does not count in area standings							
L: non-area games vs each other (G3) but all have to play equal number							
*all 1-1, SC won CC series, CC won Waterloo series, Waterloo won SC series					Key		
M: non-area games vs other area teams (Cherokee), no one played G3 vs Cherokee					z-area champions		
N: all common, non-area teams, in-class (1A) (all played Vina and won)					x-playoffs		
O: all common, non-area teams, in-class (1A) and above (2A-7A) (Vina remains the only common opp)							
P: all common, non-area teams regardless of class (Vina remains the only common opp)							
Q: all non-area teams in class (1A) (Covenant 1-0 over Vina, Waterloo 2-0 over Vina, Phillips, SC 2-4)							
It is win percentage based so SC has a .333 win pctg versus perfect, SC is out							
Go back to 2-team							
A: H2H in the first two area games (Waterloo won G1) (Covenant won G2)							
B: H2H in non-area counting games (G3) (Covenant won G3)							
Covenant is area champs							
Waterloo is area runner-up
