

INSURANCE INFORMATION

Welcome to our center.

We are committed to providing you with the best possible healthcare.

As a facility of Three Peaks Physical Therapy, Massage and Acupuncture, we are able to accept your insurance for services performed.

These services are provided to you, the patient, and are reimbursed at a rate of \$615.00 - \$905.00 per session according to the allowable fees the insurance company will reimburse our center for the medical services.

When you receive your Explanation of Benefits (EOB) from your insurance company you will notice that the provider's name may differ from who actually performed the services. The reason being when we bill your insurance company we use a Federal Tax ID # which represents Three Peaks Physical Therapy, Massage & Acupuncture as well as the corporate officers of the company. Therefore, under the provider section of the EOB you may see Three Peaks Physical Therapy, Massage & Acupuncture or the name of one of the corporate officers.

As a medical care provider, our relationship is with you, not the insurance company. As a courtesy to our patients, we are willing to submit claims to your insurance company for reimbursement providing your insurance company pays. You are only responsible for any amount applied toward your deductible.

I certify that I understand the above.
