Speak with our trained staff for allergen information and advice.*

MENU

LOOSE LEAF TEA

English breakfast

The English Breakfast Tea boasts a robust, balanced flavour with a pleasant astringency. It contains teas from both Assam and India and a top-class Keemun leaf from the Anhui province in China. The result is a darker, stronger infusion. Rich in antioxidants, black tea helps protect the body from free radicals and reduces the risk of chronic diseases. Brew time 3 - 7 minutes

Earl Grey

The Earl Grey Tea is a black tea blend using premium Bergamot oil, offering wonderful floral notes, a delicious flavour and mild astringency. Brew time 3 – 7 minutes; we prefer 5 minutes for full flavour.

Green Tea - Chunmee Taipan Superior

Chunmee Taipan Superior makes a delicious, light bodied, smooth green tea with a sweet, refreshing taste. Probably the first 'luxury' tea developed for Western tastes, Chunmee Taipan Superior is still manufactured according to the old techniques. With a very fine, emerald eyebrow shaped leaf (Chunmee style) and a sweet, mild yellow green infusion, this premium early spring tea is perfect for anytime of day.

Carefully handcrafted following traditional Chinese methods, this meticulous process ensures a unique and quality taste as well as the preservation of the antioxidant properties present in green tea. Brew time 2-4 minutes

Digestive Diva

Digestive Diva herbal tea has a natural fruity character and refreshing mint highlights. Egyptian Camomile flowers & peppermint leaves are both reported to help ease stomach upsets and bloating when combined together. Caffeine free. Brew time 6-8 minutes.

Ultimate Detox

Ultimate Detox loose-leaf green tea has a fresh strawberry, herbaceous and mellow green tea flavour. The blend is high in antioxidants and the combination of herbs used is reported to help with mental alertness and physical and mental fatigue. It tastes pretty awesome too, so helping your body's metabolism get into gear never felt so good. Brew time 6-8 minutes

Together Mint

Together Mint Tea is a truly refreshing blend combining peppermint and spearmint leaves with some added cool, blue cornflower petals for decoration. The taste is an amazing mint journey across your palate and is great served as a caffeine-free refreshing drink anytime of day. Brew time 6-8 minutes

COFFEE

Our coffee beans

At **Coffee Crowd**, we believe exceptional coffee starts with exceptional sourcing - which is why we proudly serve Colonna Coffee, one of the most innovative and respected roasters in the specialty coffee world.

Founded by **Maxwell Colonna-Dashwood**, a three-time UK Barista Champion and internationally recognised coffee expert, Colonna is built on a simple idea:

Coffee should be as diverse, expressive and exciting as fine wine.

Maxwell's pioneering research into water chemistry, extraction and flavour science has positioned Colonna at the forefront of the industry, pushing boundaries of how coffee can taste and be enjoyed.

Why we don't serve syrups - we are not being difficult we promise.

For us at Coffee Crowd, this means we brew each cup with respect, precision and attention to detail. Even our water is filtered to bring out the unique characteristics of every bean. For that reason we choose not to serve syrups or any other ingredients that interfere with the pure flavour of the coffee.

Why our beans change

We only ever serve single origin beans. Meaning we don't sell blends. Our coffee beans will change seasonally. Coffee is a fruit, grown on trees and it follows nature's calendar. Because of that, what coffees are available and how they taste change throughout the year.

Our cup sizes

We are not serving "small" coffees for any other reason than we want you to taste the coffee and we want to make it as per the roaster's exact recipe. Our coffees are all double shots, unless you ask for a single shot. We want the coffee to be the star of the show, not the milk or excess water. Of course, if you prefer a longer drink, please do ask us to make your coffee larger for you. We are more than happy to.

Milks

We serve whole cow's milk as standard in our milky drinks. We do however serve oat, soya or semi skimmed cow's milk if your prefer. We do not serve almond milk due to allergy cross contamination and coconut milk due to it overpowering the coffee flavour.
