Apparatus Turnout Greater Than 80 Seconds

The attached apparatus turnout greater than 80 seconds export listed 52 apparatus records tied to 36 incidents. The unit count was E21: 17 | LA21: 13 | BAT21: 10 | SQ21: 8 | R21: 2 | TNK21: 1. This should be used as a trend and coaching tool. The purpose is not to chase one bad number. The purpose is to identify patterns and keep the District from accepting slower turnout as normal practice.

Unit	90th Percentile Turnout
E21	1:33
LA21	1:25
R21	1:12
SQ21	1:23
TNK21	1:43

Commercial building final inspections	12	Commercial final inspection activity added.
Commercial building plans reviewed	4	Plan review activity added.
Commercial hood inspected	1	Commercial hood inspection activity added.

Simultaneous Incident Activity

The simultaneous incident data show that overlapping activity is real, not theoretical. For June, 23.53% of activity reflected at least two incidents occurring at the same time, and 10.86% reflected at least three incidents occurring at the same time. This data needs to stay in the staffing and deployment conversation.

Simultaneous Activity	Percentage	Times
1 incident active	76.47%	169
2 incidents active	12.67%	14
3 incidents active	10.86%	8

Simultaneous Workload by Station

Station	Simultaneous Incidents
Station 1	12
Station 3	0
Station 4	0

Incident Start Context

Start Context	Percentage	Times
No other active incident when started	86.43%	191
One other active incident when it started	12.67%	28
Two other active incidents when they started	0.90%	2

Incident Activity by Day of Week

Training Records - Completed

The June training records now include two views of the same operational training picture. The completed-records staff-count export shows 693 total staff completions from 226 completed training records. The member training summaries by watch show 633.5 actual assignment training hours for the month. Both numbers matter, but they do not measure the same thing.

Training Category	June Result	Share of Total	Chief's Note
Assignment	488 staff completions / 154 records	70.42%	Primary driver of completed training for the month.
Activity	205 staff completions / 72 records	29.58%	Activity-based completions remain part of the monthly training picture.
Total reported completed training	693 staff completions / 226 records	100.0%	Total shown from the completed records staff-count export.
