## PRESENTATION

While to the members of the NSSPPA , the mark's meaning is understood, it has mixed meanings to the uninformed public. This label is an example.

Several customers and retailers have, with good intentions , misinterpreted the registration number 04-57-01 as a date, saying “April has only 30 days and this is not 2001.” In an attempt to educate folks about the organization and our purpose, the label was modified by adding this explanation.

The three ways of displaying our mark are; on containers of pure sorghum syrup, for associational promotions and internal usages.

On labels of pure sorghum syrup ( it is not to be used on syrup labelled as molasses) in accordance with the terms on the application agreement:

note: overall height is 1.5 times overall width

note: overall height is 1.5 times overall width

- recommended size, 1 inch wide by 1.5 inches high
- X's indicate placement of the registration number

For the identification and promotion of the Association to the general public i. e. on apparel, signs, posters, advertising, forms, , etc.
