

Dear Parents and Educators,

As a former School Counselor, I realize having working capital for a school is very important. Whether providing teachers with extra supplies, providing exciting new educational experiences, hiring speakers, or funding class trips and yearbooks for students who could use a helping hand, having a few extra bucks around is always helpful.

Party Stuffers is a unique company that can help you provide entertainment, a long lasting tangible memory and promote causes or school wide agendas. Party Stuffers offers the stuff-your-own-bear experience in house by bringing the stuffing machine to you!

Students can pick from a selection of animals or go with the school mascot. Custom design a T-Shirt for your animal with your favor school adopted anti-bullying phrase, prom theme, promote read across America week, or the school name and year.

Imagine having your student's stuff his or her own animals at lunch or recess during anti-bullying week. A no cost, no work event that generates revenue while promoting a good cause! For every animal sold your school will receive \$5.00. The best part is the applications are endless!

Please take a moment to check out our website, www.partystuffersnj.com. I look forward to working an event in your school in the near future!

Kindly,

Jennele L. Moschella CEO
