Cumin	1-2 plants per space (transplant)	Spring
Dill	1 plant per space	Fall / Winter? / Spring
English Thyme	1 plant per space	Perennial

Flowers

Cosmos	1-2 plants per space (transplant)	Spring
Experiment with others!		

Notes:

- Water regularly! Use ¼" drip irrigation with emitters every 6". The blocks quickly lose moisture to evaporation on sunny days.
 - e.g., water 4 minutes once per day in spring/fall, water 3-4 minutes twice per day in summer
- Link to Facebook video (from Rain Song Farm – TX) that shows irrigation setup: <https://www.facebook.com/RainSongFarmTX/videos/519539075331919>
